FROM THE CEO'S DESK

Dear Shareholders,

Financial year 2023-24 marks a pivotal shift for Dalmia Bharat Refractories Limited (“DBRL”) as we embark on a strategic transformation journey. Through a series of carefully considered initiatives, we are unlocking new potential by optimally utilising our resources for long-term growth and success.

Recognising our reputation as a top refractory supplier, we are optimising operations of our retained refractory business by meeting our customers’ requirements through (i) strategically located Salem plant, which has been taken on leave and license basis as of now; and (ii) the manufacturing plant of our step-down subsidiary i.e. OCL China Limited, located in Liaoning, China.

In line with our objective, the Board of Directors have approved a scheme of arrangement as per which, the refractory division, namely Dalmia Magnesite Corporation, and the travel division, namely Govan Travels, of Dalmia Bharat Sugar and Industries Limited (“DBSIL”), shall be demerged from DBSIL and transferred and vested into DBRL. The said scheme is subject to the approval of Hon’ble National Company Law Tribunal.

During the year your Company has acquired Birla Tyre Limited, along with our strategic partner Himadri Speciality Chemical Limited, through the corporate insolvency resolution process, approved by the National Company Law Tribunal, Kolkata (NCLT Kolkata) on October 19, 2023. Following a successful restructuring sanctioned by NCLT Kolkata, we are now firmly committed to its revival.

To further enhance stakeholder value, we have undertaken strategic investments in a diversified portfolio of quoted and unquoted securities. This prudent approach aims to mitigate risk while generating long-term returns, ultimately contributing to the company’s overall growth trajectory.

Our recent strategic initiatives are likely to create a sustainable, value-accretive future for DBRL. By focusing on core competencies, capitalising on strategic acquisitions, and fostering strategic partnerships, we are confident in our ability to deliver maximum wealth to our valued shareholders.

We will continue to keep you informed of our progress as we move ahead on an exciting new path.

Sincerely,

Dr C N Maheshwari
Whole Time Director & CEO

COMPANY OVERVIEW

EMBRACING CHANGE, BUILDING THE FUTURE

Dalmia Bharat Refractories Limited (“DBRL”) is in the midst of a dynamic transformation, marked by strategic shifts designed to propel us towards a future of sustainable growth and shareholder value. Through bold initiatives, we are unlocking exciting opportunities while solidifying our core strengths.

SHARPENING OUR FOCUS

Recognizing the powerhouse potential of our retained refractory business, we are actively optimizing operations at our strategically located Salem plant taken on leave & license and the manufacturing unit of its step-down subsidiary located in China. This focus will fuel significant growth within this core competency.

REKINDLING THE TYRE INDUSTRY FLAME

A landmark achievement was the acquisition of Birla Tyre Limited through the corporate insolvency resolution process, approved by the National Company Law Tribunal, Kolkata (NCLT Kolkata) in October 2023. Following a successful restructuring, we are now firmly committed to the revival of both our tyre undertaking and Birla Tyre Limited. This endeavor is further bolstered by a strategic partnership with Himadri Speciality Chemicals Limited, creating a synergy poised to reignite success in the tyre industry.

DIVERSIFYING FOR LONG-TERM STRENGTH

To further enhance stakeholder value, we have undertaken strategic investments in a diversified portfolio of quoted and unquoted securities. This prudent approach acts as a hedge, mitigating risk while fostering long-term returns that contribute significantly to the company’s overall growth trajectory.

UNLOCKING SHAREHOLDER VALUE - OUR GUIDING LIGHT

Each strategic initiative is meticulously crafted to create a sustainable future that consistently delivers increasing value for DBRL and our valued shareholders. By focusing on core competencies, capitalizing on strategic acquisitions, and fostering strategic partnerships, we are confident in our ability to deliver exceptional returns.

A STREAMLINED FUTURE

Reinforcing our commitment to value creation, the Board of Directors has approved a scheme of arrangement for the demerger of the refractory division (“Dalmia Magnesite Corporation”) and the travel division (“Govan Travels”) of Dalmia Bharat Sugar and Industries Limited (“DBSIL”) into DBRL. This strategic move will allow us to further streamline operations and unlock the full potential of these complementary businesses.

DISCUSSION &
ANALYSIS***

HIGHLIGHTS 2023-24

Financial Year 2024 has been the beginning of identifying new opportunities for growth post completion of transaction with RHI Magnesita India Limited as reported in the preceding annual report. Below actions delved with our strategies for “Writing a New Future” for DBRL

•**Divestment and Consolidation:** During the year DBRL strategically exited from its German refractory business as well. This divestiture aligns with our plan to and concentrate on retained business relating to mag-carbon and allied products. Through our subsidiary, OCL Global Limited, and step-down subsidiary, OCL China Limited, we continue to fulfill the customers’ requirements for mag-carbon products. DBRL has also taken on leave and license the manufacturing plant of Dalmia Bharat Sugar and Industries Limited situated at Salem. This arrangement will provide us with manufacturing capabilities in India and provide alternative source and promote “Make in India” initiative to meet its customers’ requirements.

•**Expansion Through Acquisition:** DBRL, along with its strategic partner Himadri Specialty Chemical Limited, successfully acquired Birla Tyre Limited under the Corporate Insolvency Resolution Process (CIRP). This acquisition presents exciting opportunities for diversification and growth.

•**Proposed Acquisition:** A scheme of arrangement with Dalmia Bharat Sugar and Industries Limited has been proposed during the Year under Review, to acquire its unit Dalmia Magnesite Corporation engaged in mining and refractory operations at Salem and also its travel business being run under the name of Govan Travels an IATA accredited agency. The scheme which has been approved by the Board of Directors of DBRL and DBSIL, is subject to approval by the National Company Law Tribunal.

•**Strategic Investments:** DBRL has made strategic investments in various quoted and unquoted securities, which is expected to create long-term value for our shareholders.

•**Mining for the Future:** DBRL actively participated in bidding processes for the mining of critical minerals (Graphite and Lithium) recently announced by the Government of India. If awarded it is expected to help us in our objective of achieving sustainable growth and profitability.

Looking Forward

We remain focused on operational excellence, strategic growth initiatives, and creating value for all our stakeholders.

ECONOMIC OUTLOOK

Global Economy overview and outlook

The global economy in financial year 2023-24 painted a

picture of subdued growth battling persistent inflation. The International Monetary Fund (“IMF”) in IMF World Economic Outlook, April 2024 projected global growth of just 3.0%, a significant drop from the 3.5% witnessed in 2022. The picture is further complicated by regional disparities. Emerging market and developing economies (EMDEs), particularly in Asia (excluding China), are projected for slightly higher growth at 4.3% compared to the sluggish 1.6% growth expected in advanced economies as per IMF World Economic Outlook, April 2024. However, this outlook is not without its challenges. The ongoing war in Ukraine continues to disrupt supply chains and push up energy prices, while China’s recent economic slowdown raises concerns about its impact on global trade. Overall, the path to a stable and robust global recovery in the near future remains uncertain.

India Economy overview and outlook

Financial year 2023-24 witnessed the Indian economy defy global slowdown trends. The Asian Development Bank (“ADB”) in its ADB Asian Development Outlook Update, April 2023 projected India’s GDP growth at a robust 6.4%, which was revised upwards to 7.3% by the Press Information Bureau, Government of India due to stronger than expected performance. This marks India’s position as the world’s fastest-growing major economy. The growth story was fueled by a surge in domestic demand, with private consumption and investment on the rise. This is further supported by the construction sector’s impressive double-digit growth of 10.7% as per Press Information Bureau, Government of India. However, agriculture, a crucial sector for India’s economy, witnessed a slower growth rate of 1.8%. Despite this, India’s economic performance in FY 2023-24 was impressive, exceeding expectations and laying a solid foundation for continued growth in the coming year.

INDUSTRY STRUCTURE AND DEVELOPMENTS

Following the divestiture of its refractory business, DBRL has undertaken a strategic diversification initiative to optimize resource utilization and unlock new growth opportunities. This initiative includes:

Retained refractory business: DBRL is strategically focusing on its retained magnesia carbon (Mag-Carbon) business, leveraging its existing expertise and market position.

Tyre Business: DBRL has entered the tyre industry through the acquisition of Birla Tyres Limited and is actively engaged in reviving the business and capitalizing on the strong growth potential in this sector.

Investments: DBRL is actively pursuing strategic investments in both publicly traded (quoted) and privately held (unquoted) securities. This diversified portfolio aims to generate long-term value for our shareholders.

This section delves into the industry’s structure and recent trends.

Magnesia Carbon Refractory industry

The magnesia carbon (MgO-C) refractory industry is vital for high-temperature processes, especially steelmaking. These bricks offer exceptional resistance to heat, slag, and thermal shock. A few major players dominate the global market, with RHI Magnesita and Magnesita S.A. leading the way.

The industry is experiencing exciting growth, driven by rising steel production and a projected market size of USD 6.2 billion by 2024 as per ReportLinker, Magnesia Carbon Refractory Market, 2023. Advancements in nano-carbon technology and eco-friendly production methods are shaping the future, while consolidation among major players strengthens market reach. Despite challenges from raw material price fluctuations and economic slowdowns, the MgO-C refractory industry has a bright outlook due to its crucial role in various industrial applications.

India's magnesia carbon refractory industry is a significant player, accounting for roughly 10% of the global market share (Estimated based on industry reports and China's dominant position). Though the domestic market itself is valued around USD 500 million as per Market Research Reports Database, Magnesia Carbon Refractory in India - Market Analysis, Forecast and Competition, 2023, it's projected for steady growth at a CAGR of 5.2% until 2028 as per Mordor Intelligence, Magnesia Carbon Refractories Market - Growth, Trends, and Forecasts (2023 - 2028). This growth is fueled by the booming domestic steel sector, a major consumer of MgO-C bricks. However, the industry grapples with import dependence, , and intense competition particularly from China highlighting the need for technological advancements for being competitive.

Tyre Industry

The global tyre industry is a multi-billion dollar sector with a complex structure. Major tyre manufacturers like Michelin, Bridgestone, and Goodyear hold a significant portion of the market share, while numerous regional and niche players compete in the remaining space. Segmentation occurs by vehicle type (passenger car, truck & bus, motorcycle etc.) and tyre characteristics (radial vs. bias-ply).

The industry is experiencing steady growth, with a projected market size of around USD 209 billion by 2023 as per Statista, Global Tyre Market Size From 2017 To 2023, May 2023. This growth is driven by rising vehicle production, particularly in developing economies, and increasing demand for fuel-efficient tires. Sustainability is also playing a growing role, with manufacturers focusing on developing eco-friendly materials and production processes to reduce environmental impact. However, the industry faces challenges from fluctuating raw material prices, such as rubber, and the ever-evolving regulatory landscape concerning safety and emissions standards.

India's tyre industry is a major contributor to the global market, boasting the world's second-largest two-wheeler tire

production and ranking amongst the top five for passenger car and truck tyres as Sheers Marketing Consultants Pvt. Ltd., India Tyre Market Analysis 2023. With a market size exceeding USD 13 billion in FY 2023 as per Markets & Markets, India Tyre Market Size, Share & Industry Growth 2030, the industry is fueled by a growing domestic vehicle market and increasing demand for replacement tires. This trend is expected to continue, with a projected CAGR of 8.71% reaching USD 25.5 billion by FY 2031 as per Markets & Markets, India Tyre Market Size, Share & Industry Growth 2030. However, the industry faces challenges from intense competition and rising raw material costs.

Investments

India's quoted and unquoted investment landscape in 2023-24 witnessed a surge in activity. Quoted investments, or those in publicly traded companies, saw a record year with the Bombay Stock Exchange (BSE) Sensex reaching an all-time high of 64,000 in April 2024. This optimism fueled a rise in mergers and acquisitions (M&A) with a total value exceeding USD 150 billion for FY 2023-24, as reported by Refinitiv. Unquoted investments, targeting private companies, also saw a significant uptick. Venture capital (VC) investments reached USD 42 billion in 2023, a 25% increase year-on-year, with sectors like technology and clean energy attracting major investments as per KPMG Private Enterprise & Venture Philanthropy, India Venture Pulse Q4 2023. This trend reflects growing investor confidence in the Indian economy and its growth potential.

OPPORTUNITIES/RISKS & CONCERNS/THREATS

Opportunities

Across various sectors, exciting opportunities are emerging. The global magnesia carbon refractory industry is poised for growth due to rising steel production and a projected market size of USD 6.2 billion by 2024. Advancements in materials and eco-friendly production methods present further potential.

India's booming tyre industry, the world's second-largest for two-wheeler tyres, is fueled by a growing domestic vehicle market and increasing demand for replacement tires. Additionally, the focus on fuel efficiency creates opportunities for eco-friendly tyres, while the rise of electric vehicles opens doors for specialized tyre development.

The Indian investment landscape is also brimming with prospects. The record highs of the Sensex and robust M&A activity signify a strong bull market, attracting substantial capital. Rising VC funding in sectors like technology and clean energy fosters innovation and positions India for a digital and sustainable future. Government initiatives further incentivize investments, creating a fertile ground for entrepreneurial ventures.

Risks and concerns

Despite the promising outlook, risks and concerns linger across

all three sectors. The magnesia carbon refractory industry faces threats from fluctuating raw material prices due to import dependence from China, logistics cost, potential global economic slowdowns and geo-political matters concerning within and outside India. Stringent environmental regulations may necessitate costly upgrades, impacting margins.

The Indian tyre industry grapples with intense competition, rising raw material costs, and fluctuating fuel prices. Geopolitical situations and disruptions in global supply chains can also hinder production. Additionally, stricter safety and emission standards require constant adaptation.

The Indian investment landscape, while optimistic, faces risks from rising inflation and potential interest rate hikes that could dampen investor sentiment. Global economic slowdowns and geopolitical tensions pose external threats, impacting confidence and potentially leading to capital flight. Furthermore, concerns remain regarding corporate governance issues and transparency in unquoted investments, potentially deterring investors.

Threats

Despite strong outlooks, all three sectors face challenges. Magnesia carbon grapples with volatile raw material prices and potential global slowdowns. The Indian tyre industry navigates intense competition, rising material costs, and stricter regulations. The investment landscape faces threats from inflation, potential interest rate hikes, and geopolitical tensions. Addressing these through strategic planning and innovation is key for sustained success.

DBRL'S PERFORMANCE OVER VIEW

Operational & Financial Performance

Considering the restructuring transactions during the Year Under review, on standalone basis, the total revenue from continuing operations stood at ₹88.88 Crore as compared to ₹108.88 Crore in the preceding financial year i.e., 2022-23. The profit before tax and after tax from continuing operations stood at ₹14.75 Crore (previous year ₹1740.10. Crore) and ₹5.08 Crore (previous year ₹1349.84 Crore) respectively.

Similarly, on consolidated basis, during the financial year 2023-24, the total revenue from continuing operations stood at ₹179.04 Crore as compared to ₹364.86 Crore in the preceding financial year 2022-23. The profit before tax and after tax from continuing operations stood at ₹9.66 Crore (previous year ₹1731.01 Crore) and ₹0.80 Crore (previous year ₹1334.77 Crore) respectively.

Financial Ratios on standalone basis

Region & Segment Wise Performance

Based on internal reorganization of its business segments, acquisition of tyre undertaking of Birla Tyres Limited pursuant to Scheme of Demerger, increased focus and business review carried out by the Whole time director and CEO (Chief Operating Decision Maker - CODM) of the Company, changed the reportable segments. Now, the Company has identified the two reportable segments, i.e. refractories and tyres. Pursuant to the above change, the Company has restated segment information of previous year ended March 31, 2023 in consonance with Ind AS 108 - "Operating Segments", including related disclosures. The detailed disclosure in this regard can be referred at Note No.35 of standalone financial statements.

Business Outlook

The company's renewed focus on its retained magnesia carbon business positions it to capitalize on the projected industry growth, driven by rising steel production. This path will require re-assuring the customers about the company's commitment to deliver the products and services to their satisfaction inspite of limited resources. DBRL's foray into the Indian tyre industry, brimming with potential due to the country's booming vehicle market, presents exciting growth prospects. However, success hinges on the company's ability to revive the operations and carve out a competitive edge amidst established players by re-establishing its image in the market. DBRL's diversification into quoted and unquoted investments offers the potential for strong returns, but the overall investment landscape faces risks from rising inflation and potential economic slowdowns. By proactively addressing these challenges and capitalizing on its strengths, DBRL with continuous monitoring can navigate the dynamic business environment and secure a sustainable future.

***STANDALONE
FINANCIAL
STATEMENTS***

INDEPENDENT AUDITOR'S REPORT

TO THE MEMBERS OF DALMIA BHARAT REFRACTORIES LIMITED Report on the Audit of Standalone Financial Statements

OPINION

We have audited the standalone financial statements of **DALMIA BHARAT REFRACTORIES LIMITED** ("the Company"), which comprise the standalone balance sheet as at 31st March 2024, and the standalone statement of profit and loss (including other comprehensive income), standalone statement of changes in equity and standalone statement of cash flows for the year then ended, and notes to the standalone financial statements, including a summary of material accounting policies and other explanatory information (hereinafter referred to as "standalone financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at 31st March, 2024, its Profit including Other Comprehensive Income, its Cash Flows and the Statement of Changes in Equity for the year ended on that date.

BASIS FOR OPINION

We conducted our audit in accordance with the Standards on

Auditing ("SA") specified under Section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Standalone Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the standalone financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on the standalone financial statements.

Emphasis of Matter

We draw attention to note no. 32 to the accompanying standalone financial statements, regarding accounting of approved resolution plan under the Insolvency and Bankruptcy Code, 2016 in the matter of Birla Tyres Limited ("BTL") which consist of i) the financial restructuring scheme from appointed date being 5th May 2022, ii) Scheme of Demerger (tyre undertaking) and iii) Scheme of Arrangement (transfer of non-operational unit of tyre undertaking), being appointed date 6th May 2022 as approved by the National Company Law Tribunal, though the Schemes has become effective on 4th November 2023 and restatement of comparatives for the previous year by the management of the Company. Our opinion is not modified in respect of above said matter.

Key Audit Matter

Key audit matter is that matter that, in our professional judgment, was of most significance in our audit of the

Key Audit Matter	How our audit addressed the key audit matter
Acquisitions of Birla Tyre Limited (BTL) and Demerger Scheme of Tyre Undertaking from BTL to the Company (As described in note no. 32 of the standalone financial statements)	
The Board of Directors of the Company in its meeting held on 10th March 2023 has approved submission of the resolution plan under the Insolvency and Bankruptcy Code, 2016 in the matter of Corporate Insolvency Resolution Process of Birla Tyre Limited (BTL). Pursuant to order dated 19th October 2023 of Hon'ble National Company Law Tribunal (NCLT), Kolkata Bench the Company along with Strategic Partner namely Himadri Speciality Chemical Ltd had completed the acquisition of BTL. The above were filed with Registrar of Companies on 4th November 2023. The approved resolution plan contains Financial Restructuring Scheme which provides for treatment of select existing assets and liabilities of the BTL from the restructuring appointed date (i.e. 5th May 2022) and capital reduction of BTL. The Tyre Undertaking of the BTL has been demerged into the Company with effect from the demerger appointed date i.e. 6th May 2022 in accordance with approved resolution plan. Accordingly, on acquisition date, the assets and liabilities pertaining to tyre undertaking are accounted at fair value in accordance with IND AS 103 on Business Combinations. The differential amount between fair value of net identifiable assets acquired and consideration paid on demerger has been credited to capital reserve after considering effects of deferred tax assets. As acquisitions of BTL and other related matters are significant event during the year, we considered it to be a key audit matter.	In view of the significance of the matter we applied the following audit procedures in this area, among others to obtain sufficient audit evidence: • Performed inquiry procedures with the key managerial persons of the Company with reference to above said acquisition. • Obtained and read the minutes of board of directors, approved resolution plan and NCLT order, for acquisitions of BTL. • Understanding the process followed by the Company for the accounting treatment pursuant to the approved resolution plan. • Evaluating whether the measurement, recognition and disclosure of the said transaction is in line with the applicable Indian Accounting Standards. • We obtained management's workings for the accounting of the acquisitions and evaluated management's determination of the fair value of the assets acquired, which is based on independent valuer's report engaged by the Management. • Assessing whether the accounting entries recorded in the books is in line with the accounting treatment assessed above, including the arithmetical accuracy of the same. • Review of disclosures provided in the standalone financial statements in this regard.

standalone financial statements for the year ended 31st March 2024. This matter was addressed in the context of our audit of the standalone financial statements as a whole and in forming our opinion thereon and we do not provide a separate opinion on this matter. We have determined the matter described below to be the key audit matter to be communicated in our report.

Information other than the Financial Statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the annual report but does not include the financial statements and our auditor's report thereon.

Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the accounting Standards specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate implementation and maintenance of accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, management is responsible for assessing the Company's

ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3) (i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls with reference to the standalone financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Company to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures

in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements for the year ended 31st March 2024 and are therefore the key audit matter. We describe this matter in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

- 1 As required by the Companies (Auditor's Report) Order, 2020 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Act, and on the basis of such checks of the books and records of the Company as we considered appropriate and according to the information and explanations given to us, we give in "Annexure A" a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.
- 2 Further to our comments in Annexure A, as required by Section 143(3) of the Act, we report that:
 - (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit;
 - (b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books;

(c) The Balance Sheet, the Statement of Profit and Loss (including other comprehensive income), the Statement of Changes in Equity and the Cash Flow Statement dealt with by this Report are in agreement with the books of account;

(d) In our opinion, the aforesaid standalone financial statements comply with the Indian Accounting Standards specified under Section 133 of the Act;

(e) On the basis of the written representations received from the directors as on 31st March, 2024 taken on record by the Board of Directors, none of the directors is disqualified as on 31st March, 2024 from being appointed as a director in terms of Section 164 (2) of the Act.

(f) With respect to the adequacy of the internal financial controls with reference to standalone financial statement of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure B".

(g) In our opinion, the managerial remuneration for the year ended 31st March, 2024 has been paid / provided by the Company to its directors in accordance with the provisions of section 197 read with Schedule V to the Act.

(h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:

(i) The Company has disclosed the impact of pending litigations on its financial position in its standalone financial statements. Refer Note 34 to the standalone financial statements.

(ii) The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.

(iii) There has been no delay in transferring amounts, required to be transferred to the Investor Education and Protection Fund by the Company.

(iv) (a) Management has represented to us that, to the best of its knowledge and belief, as disclosed in the standalone financial statements, no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other persons or entities, including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner

whatsoever by or on behalf of the Company (“Ultimate Beneficiaries”) or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;

(b) Management has represented to us that, to the best of its knowledge and belief, as disclosed in the standalone financial statements, no funds have been received by the Company from any person(s) or entity(ies), including foreign entities (“Funding Parties”), with the understanding, whether recorded in writing or otherwise, that the Company shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party (“Ultimate Beneficiaries”) or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.

(c) Based on our audit procedures performed that have been considered reasonable and appropriate in the circumstances, nothing has come to our attention that cause us to believe that the representation given by the management under paragraph (2) (h) (iv) (a) & (b) contain any material misstatement.

(v) The final dividend paid by the Company during the year which was declared for the previous year is in accordance with section 123 of the Companies Act 2013 to the extent it applies to payment of dividend.

As stated in note no 41 to the standalone financial

statements, the Board of Directors of the Company have proposed final dividend for the year which is subject to the approval of the members at the ensuing Annual General Meeting. The dividend declared is in accordance with section 123 of the Act to the extent it applies to declaration of dividend.

(vi) Based on our examination, which included test checks, the Company has used accounting softwares, for maintaining its books of account, which has a feature of recording audit trail (edit log) facility and the same has operated throughout the year for all relevant transactions recorded in the softwares except i. In one of the units of refractory division, audit trail of the changes made at the database level to any field affecting books of accounts is enabled in the month of March 2024 and in tyre division it is enabled subsequent to 31st March, 2024. ii. In another unit of refractory division, the accounting software does not have feature of recording audit trail. Further, during the course of our audit we did not come across any instance of audit trail feature being tampered with.

As proviso to Rule 3(1) of the Companies (Accounts) Rules, 2014 is applicable from 1st April, 2023, reporting under Rule 11(g) of the Companies (Audit and Auditors) Rules, 2014 on preservation of audit trail as per the statutory requirements for record retention is not applicable for the financial year ended 31st March, 2024.

d. According to information and explanations given to us and books of accounts and records examined by us, the Company has not revalued its Property, Plant and Equipment (including Right of Use assets) or intangible assets or both during the year.

e. According to information & explanations and representation given to us by the management, no proceedings have been initiated or are pending against the Company for holding any benami property under the Benami Transactions (Prohibition) Act, 1988 and rules made thereunder.

(ii)(a) As explained to us and on the basis of the records examined by us, in our opinion, physical verification of the inventories have been conducted at reasonable intervals by the management and having regard to the size and nature of business of the Company and nature of its inventory, the coverage and procedures of such verification by the management is appropriate. As explained to us and on the basis of the records examined by us, the value of the discrepancies noticed on physical verification by management did not exceed 10% or more in aggregate of each class of inventory.

(b) As per the information and explanation given to us and examination of books of accounts and other records produced before us, in our opinion the Company has been sanctioned working capital limits upto one crore rupees which is unsecured, in aggregate, from bank or financial institutions. Therefore, clause (ii) (b) of Paragraph 3 of the Order is not applicable to the Company.

(iii) With respect to investments made or any guarantee or security provided or any loans or advances in the nature of loans, secured or unsecured, granted during the year by the Company to companies, firms, Limited

Liability Partnerships or any other parties:

a) As per the information and explanations given to us and books of accounts and records examined by us, during the year Company has not provided any loans or advances in the nature of loans, not provided any guarantee or security to companies, firms, Limited Liability Partnerships or any other entities. Therefore, the provision of clause 3(iii) (a),(c),(d),(e) and (f) of the Order are not applicable to the Company.

b) In our opinion and according to information and explanations given to us and on the basis of our audit procedures, during the year the investments made by the Company are, prima facie, not prejudicial to Company's interest. The Company has not provided any guarantees or given security or granted any loans or advances in the nature of loans during the year.

(iv) In our opinion and according to the information and explanations given to us, the Company has not granted any loans or provided any guarantee or security to the parties covered under Section 185 of the Act. The Company has complied with the provisions of Sections 186 of the Act as applicable, in respect of making investments. The Company has not provided guarantees or security or granted loans.

(v) According to the information and explanations given to us, the Company has not accepted any deposits or amounts which are deemed to be deposits within the meaning of provisions of sections 73 to 76 or any other relevant provisions of the Act and the rules framed there under. Therefore, the clause (v) of paragraph 3 of the Order is not applicable to the Company.

(vi) Pursuant to the rules made by the Central Government of India, the Company is required to maintain cost records as specified under Section 148(1) of the Act in

respect of its products. We have broadly reviewed the same, and are of the opinion that, prima facie, the prescribed accounts and records have been made and maintained. We have not, however, made a detailed examination of the records with a view to determine whether they are accurate or complete.

(vii)(a) According to the records of the Company examined by us, undisputed statutory dues including Goods and Service tax, provident fund, employees' state insurance, income tax, duty of customs, cess and any other material statutory dues have generally been regularly deposited with appropriate authorities except payment of provident fund. According to the information and explanations given to us, there were no undisputed amounts payable in respect of the aforesaid dues, which were outstanding as 31st March, 2024 for a period of more than six months from the date they became payable except provident funds dues amounting to Rs. 0.02 Crore which could not be deposited due to reasons mentioned in note no. 16.

(b) According to the information and explanations given to us, there are no statutory dues referred to in sub-clause (a) which have not been deposited with the appropriate authority on account of any dispute except as mentioned below: -

(viii) According to the information and explanations given to us and representation given to us by the management, the Company has not surrendered or disclosed any transaction, previously unrecorded in the books of account, in the tax assessment under the Income Tax Act, 1961 as income during the year. Accordingly, the provision of clause 3(viii) of the Order is not applicable to the Company.

a) In our opinion and according to the information and explanations given and books of accounts and records examined by us, the Company has not defaulted in repayment of loans or other borrowings or in the payment of interest thereon to any lender.

b) In our opinion, and according to the information and

explanations given to us, the Company has not been declared wilful defaulter by any bank or financial institution or government or any government authority.

c) In our opinion, and according to the information and explanations given and records examined by us, the term loan availed by the company were applied for the purpose for which the loans were obtained. Money obtained by way of term loans before the end of the financial year amounting to Rs. 200 Crore pending utilisation are parked in bank fixed deposits as at 31st March 2024.

d) According to the information and explanations given to us, and the procedures performed by us, and on an overall examination of the financial statements of the Company, we report that, prima facie, no funds raised on short-term basis have been used during the year for long-term purposes by the Company.

e) According to the information and explanations given to us and on an overall examination of the financial statements of the Company, we report that the Company has not taken any funds from any entity or person on account of or to meet the obligations of its subsidiaries. The Company does not have any associates or joint ventures.

f) According to the information and explanations given to us and procedures performed by us, we report that the Company has not raised loans during the year on the pledge of securities held in its subsidiaries. The Company does not have any joint ventures or associate companies.

(x)a) The Company has not raised money by way of initial public offer or further public offer (including debt instruments) and hence clause (x)(a) of paragraph 3 of the Order is not applicable to the Company.

b) In our opinion and according to the information and explanations given to us and on the basis of our audit procedures, the Company has made preferential allotment of shares as per resolution plan approved by Hon'ble NCLT dated 19th October 2023. Accordingly,

requirements of section 42 of the Companies Act, 2013 have been complied with. Further, funds raised have been used for the purposes for which it is raised.

- (xi) a) Based on the audit procedures performed for the purpose of reporting the true and fair view of the financial statements and as per information and explanations given to us, no fraud by the Company or on the Company has been noticed or reported during the year.
- b) According to the information and explanations given to us, no report under sub-section 12 of section 143 of the Act has been filed by auditors in Form ADT-4 as prescribed under Rule 13 of Companies (Audit and Auditors) Rules, 2014 with the Central Government, during the year and upto the date of this report.
- c) As represented to us by the management, there are no whistle blower complaints received by the Company during the year.
- (xii) The Company is not a Nidhi Company and hence reporting under clause (xii) of the Order is not applicable.
- (xiii) The Company has entered into transactions with related parties in compliance with provisions Section 177 and 188 of the Act. The details of such related party transactions have been disclosed in the standalone financial statements as required by the applicable accounting standards.
- (xiv) a) In our opinion, and according to the information and explanations given to us, the Company has an internal audit system commensurate with the size and nature of its business.
- b) We have considered the internal audit reports of the Company issued till date, for the period under audit.
- (xv) In our opinion and according to the information and explanations given to us, during the year the Company has not entered into any non-cash transactions with its directors or persons connected with them. Therefore the provisions of clause 3 (xv) of the order are not applicable to the Company.
- (xvi) a) The Company is not required to be registered under section 45-IA of the Reserve Bank of India Act, 1934.
- b) In our opinion, and according to the information and explanations provided to us and on the basis of our audit procedures, the Company has not conducted any Non-Banking Financial or Housing Finance activities during the year as per the Reserve bank of India Act 1934.
- c) In our opinion, and according to the information and explanations provided to us, the Company is not a Core Investment Company (CIC) as defined in the

regulations made by the Reserve Bank of India.

- d) In our opinion, and according to the information and explanations provided to us, the Group has 3 Core Investment Company (CIC).
- (xvii) In our opinion, and according to the information and explanations provided to us, the Company has not incurred any cash losses in the financial year and in the immediately preceding financial year.
- (xviii) There has been no resignation of the statutory auditors during the year. Therefore, provisions of clause (xviii) of Paragraph 3 of the Order are not applicable to the Company.
- (xix) According to the information and explanations given to us and on the basis of the financial ratios, ageing and expected dates of realization of financial assets and payment of financial liabilities, other information accompanying the financial statements, our knowledge of the Board of Directors and management plans and based on our examination of the evidence supporting the assumptions, nothing has come to our attention, which causes us to believe that any material uncertainty exists as on the date of the audit report that Company is not capable of meeting its liabilities existing at the date of balance sheet as and when they fall due within a period of one year from the balance sheet date. We, however, state that this is not an assurance as to the future viability of the Company. We further state that our reporting is based on the facts up to the date of the audit report and we neither give any guarantee nor any assurance that all liabilities falling due within a period of one year from the balance sheet date, will get discharged by the Company as and when they fall due.
- (xx) According to the information and explanations given to us, the requirements with respect to CSR contribution under section 135 of the Act is not applicable to the Company during the year.

ANNEXURE-B

TO THE INDEPENDENT AUDITOR'S REPORT

(Referred to in paragraph 2(f) under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)

Report on the Internal Financial Controls with reference to the aforesaid standalone financial statements under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls with reference to standalone financial statements of **DALMIA BHARAT REFRACTORIES LIMITED** ("the Company") as of 31st March 2024 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control with reference to standalone financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the internal financial controls with reference to standalone financial statements of the Company based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India ("ICAI") and the Standards on Auditing prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to standalone financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system with reference to standalone financial

statements and their operating effectiveness. Our audit of internal financial controls with reference to standalone financial statements included obtaining an understanding of internal financial controls with reference to standalone financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system with reference to standalone financial statements.

Meaning of Internal Financial Controls with reference to financial statements

A Company's internal financial control with reference to standalone financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control with reference to standalone financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the standalone financial statements.

Inherent Limitations of Internal Financial Controls with reference to financial statements

Because of the inherent limitations of internal financial controls with reference to standalone financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to standalone financial statements to future periods are subject to the risk that the internal financial control with reference to standalone financial

statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system with reference to standalone financial statements and such internal financial controls with reference to financial statements were operating effectively as at 31st March, 2024, based on the internal control with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the ICAI.

1 Corporate information

Dalmia Bharat Refractories Limited ('DBRL' or 'the Company') is a public listed company incorporated in India. The registered office of the Company is located at Dalmiapuram, P.O. Kallakudi - 621651, Dist. Tiruchirapalli, Tamil Nadu. The Company is listed on Metropolitan Stock Exchange of India Limited ("MSE") and The Calcutta Stock Exchange Limited ("CSE"). The Company is engaged in the business of refractories and tyres. The Company has effective from October 1, 2023 taken over Dalmia Magnesite Corporation ("DMC Unit") a refractory unit of Dalmia Bharat Sugar and Industries Limited under leave and license agreement. Continuing Operations in the Company includes the operations under this agreement and trading of refractory products ("Refractories") & tyres.

These standalone financial statements of the Company as at and for the year ended March 31, 2024 were approved and adopted by board of directors of the Company in their meeting held on May 28, 2024.

2 Basis of preparation, critical accounting estimates and judgement

The standalone financial statements have been prepared on the following basis:

2.1 Compliance with Ind AS

These standalone financial statements have been prepared to Comply with Indian accounting Standards ("Ind AS") including the Rules notified under the relevant provision of the Companies Act, 2013, (as amended from time to time) and presentation and disclosure requirements of Division II of Schedule III to the Companies Act, 2013 (Ind AS compliant Schedule III) as amended from time to time.

The Company follows indirect method prescribed in Ind AS - 7 "Statement of Cash Flow" for presentation of its cash flows.

Historical cost convention:

The financial statements have been prepared under the historical cost convention, except for the certain financial assets and liabilities, and defined benefit plan – plan Assets which have been measured at fair value.

Assets acquired and liability assumed in business combination are fair valued at appointed date and accounted accordingly.

2.2 Basis of preparation:

The material accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

Functional and presentation currency:

These financial statements are presented in Indian rupees, functional currency of the Company. All amounts have been rounded off to two decimal places to the nearest crore, unless otherwise stated.

Current vis-à-vis non-current classification

The Company presents assets and liabilities in statement of financial position based on current/non-current classification, consisting an operating cycle of 12 months being the time elapsed between deployment of resources and realization in cash and cash equivalents there against.

2.3 Critical accounting estimates and judgements

The presentation of financial statements under Ind AS requires management to take decisions and make estimates and assumptions that may impact the value of revenues, costs, assets and liabilities and the related disclosures concerning the items involved as well as contingent assets and liabilities at the balance sheet date. Estimates and judgements are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

The Company makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, seldom equal the related actual results. The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below:

a. Property, plant and equipment and intangible assets:

The useful life and residual value of plant, property equipment and intangible assets are determined based on technical evaluation made by the management of the expected usage of the asset, the physical wear and tear and technical or commercial obsolescence of the asset. Due to the judgements involved in such estimations, the useful life and residual value are sensitive to the actual usage in future period.

b. Recognition and measurement of defined benefit obligations:

The cost of the defined benefit plan and other post-employment benefits and the present value of such obligation are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases, mortality rates and attrition rate. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

c. Fair value measurement of financial instruments:

When the fair value of the financial assets and liabilities recorded in the balance sheet cannot be measured based on the quoted market price in activate markets, their fair value is measures using valuation technique. The input to these models are taken from the observable market where possible, but this is not feasible, a review of judgment is required in establishing fair values. Changes in assumption relating to these assumption could affect the fair value of financial instrument.

d. Provisions:

Provisions and liabilities are recognized in the period when it becomes probable that there will be a future outflow of funds resulting from past operations or events and the amount of cash outflow can be reliably estimated. The timing of recognition and quantification of the liability require the

application of judgement to existing facts and circumstances, which can be subject to change. Since the cash outflows can take place many years in the future, the carrying amounts of provisions and liabilities are reviewed regularly and adjusted to take account of changing facts and circumstances.

e. Impairment of Financial and Non-Financial Assets:

The impairment provision for financial assets are based on assumptions about risk of default and expected losses. The Company uses judgement in making these assumptions and selecting the inputs to the impairment calculation, based on Company's past history, existing market conditions as well as forward looking estimates at the end of each reporting period. The Company assesses at each reporting date whether there is an indication that a Non-financial asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Group estimates the asset's recoverable amount which is higher of an asset's or CGU's fair value less costs of disposal and its value in use. Where the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

f. Recoverability of trade receivables:

Judgements are required in assessing the recoverability of overdue trade receivables and determining whether a provision against those receivables is required. Factors considered include the credit rating of the counterparty, the amount and timing of anticipated future payments and any possible actions that can be taken to mitigate the risk of non-payment.

g. Income Tax:

The Company reviews at each Balance sheet date the carrying amount of deferred tax assets. The factors used in estimates may differ from actual outcome which could lead to an adjustment to the amounts reported in Financial Statements. Deferred tax asset are recognized only to the extent that it is probable that taxable profit will be available against which the unused tax losses or tax credits can be utilized. This involves assessment of when those assets are likely to reverse and a judgement as to whether or not there will be sufficient taxable profits available to offset the asset. This requires assumptions regarding future profitability, which is inherently uncertain. To the extent assumptions regarding future profitability change, there can be an increase or decrease in the amounts recognized in respect of deferred tax assets and consequential impact in the statement of profit and loss.

h. Contingencies:

Management has estimated the possible outflow of resources at the end of each annual reporting financial year, if any, in respect of contingencies/claim/litigations against the company as it is not possible to predict the outcome of pending matters with accuracy.

i. Fair value business combinations:

On acquisition date May 06, 2022, the Company fair valued the asset acquired and liabilities assumed as part of business combination; valuation by registered valuer to comply with the provision of arrangement under section 230 to 232 of the Companies Act, 2013 and to comply with the reporting requirements of Ind AS as per section 133 of the Companies Act 2013 to incorporate effect of scheme of demerger and arrangement approved by NCLT. (Refer note 32).

j. Exceptional items:

Exceptional items are those items that management considers, by virtue of their size or incidence, should be disclosed separately to ensure that the financial information allows an understanding of the underlying performance of the business in the year, so as to facilitate comparison with prior periods. Such items are material by nature or amount to the year's result and / or require separate disclosure in accordance with Ind AS. The determination as to which items should be disclosed separately requires a degree of judgement.

3 Material Accounting policies

3.1 Business Combinations goodwill and capital reserve:

Business combinations are accounted for using the acquisition method. The cost of an acquisition is measured as the aggregate of the consideration transferred measured at acquisition date fair value. Acquisition-related costs are expensed as incurred.

At the acquisition date, the identifiable assets acquired and the liabilities assumed are recognised at their acquisition date fair values, except certain assets and liabilities required to be measured as per the applicable standard. For this purpose, the liabilities assumed include contingent liabilities representing present obligation and they are measured at their acquisition fair values irrespective of the fact that outflow of resources embodying economic benefits is not probable.

Goodwill is initially measured at cost, being the excess of the aggregate of the consideration transferred and the amount recognised for non-controlling interests, and any previous interest held, over the net identifiable assets acquired and liabilities assumed. If the fair value of the net assets acquired is in excess of the aggregate consideration transferred, the Company re-assesses whether it has correctly identified all of the assets acquired and all of the liabilities assumed and reviews the procedures used to measure the amounts to be recognised at the acquisition date. If the reassessment still results in an excess of the fair value of net assets acquired over the aggregate consideration transferred, then the gain is recognised in other comprehensive income and accumulated in equity as capital reserve. However, if there is no clear evidence of bargain purchase, the entity recognises the gain directly in equity as capital reserve, without routing the same through other comprehensive income.

After initial recognition, goodwill is measured at cost less any impairment losses. For the purpose of impairment testing, goodwill acquired in a business combination is, from the acquisition date, allocated to each of the Company's cash-generating units that are expected to benefit from the combination, irrespective of whether other assets or liabilities of the acquiree are assigned to those units.

A cash generating unit to which goodwill has been allocated is tested for impairment annually, or more frequently when there is an indication that the unit may be impaired. If the recoverable amount of the cash generating unit is less than its carrying amount, the impairment loss is allocated first to reduce the carrying amount of any goodwill allocated to the unit and then to the other assets of the unit pro rata based on the carrying amount of each asset in the unit. Any impairment loss for goodwill is recognised in standalone statement of profit and loss. An impairment loss recognised for

goodwill is not reversed in subsequent periods.

3.2 Property, plant and equipment:

All items of Property, plant and equipment are stated at historical cost net of tax/ duty credit availed which includes capitalised borrowing cost, less depreciation and impairment loss, if any. Historical cost includes expenditure that is directly attributable to the acquisition of the items. Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognised when replaced. All other repairs and maintenance are charged to profit or loss during the reporting period in which they are incurred. The present value of the expected cost for the decommissioning of the asset after its use is included in the cost of the respective asset if the recognition criteria for a provision are met.

Expenditure incurred on assets which are not ready for their intended use comprising direct cost, related incidental expenses and attributable borrowing cost are disclosed under Capital Work-in-Progress.

Depreciation methods, estimated useful lives and residual value:

Depreciation on property, plant and equipment (PPE) is provided over the useful life of assets on straight line basis specified in schedule II to the Act. The useful life of assets which are different from those prescribed under Schedule II are based on the technical advice as under. PPE which are added / disposed off during the year, depreciation is provided pro-rata basis with reference to the month of addition / deletion. leasehold land is amortised over the period of lease.

Estimated useful lives, residual values and depreciation methods are reviewed annually, taking into account commercial and technological obsolescence as well as normal wear and tear.

The useful life of asset acquired as a part of business acquisition which are different from those prescribed under Schedule II to the Companies Act, 2013, are as follows:-

Assets	Useful life
Buildings	3-20 Years
Plant and Machinery	1 to 14 Years

3.3 Intangible assets:

Intangible assets that the Company controls and from which it expects future economic benefits are capitalised upon acquisition and measured initially:

- for assets acquired in a business combination i.e. brand, customer relationship, technology intellectual property, mining rights; at fair value on the date of acquisition
- for separately acquired assets, at cost comprising the purchase price and directly attributable costs to prepare the asset for its intended use.

Intangible assets are carried at cost less accumulated amortisation and accumulated impairment losses, if any.

Intangible assets that have finite lives are amortized over their estimated useful lives by the straight line method unless it is practical to reliably determine the pattern of benefits arising from the asset. Computer softwares are capitalised at the amounts paid to acquire the respective license for use and are amortised over the period of useful lives or period of three years, whichever is less. An intangible asset with an indefinite useful life is not amortized.

Assets	Useful life
Customer Relationship	20 Years
Technology Intellectual Property	8 Years
Mining rights	10 Years
Brand	18 Years

All intangible assets are tested for impairment. Amortization expenses and impairment losses and reversal of impairment losses are taken to the statement of profit and loss. Thus, after initial recognition, an intangible asset is carried at its cost less accumulated amortization and / or impairment losses.

The useful lives of intangible assets are reviewed annually to determine if a reset of such useful life is required for assets with finite lives and to confirm that business circumstances continue to support an indefinite useful life assessment for assets so classified. Based on such review, the useful life may change or the useful life assessment may change from indefinite to finite. The impact of such changes is accounted for as a change in accounting estimate.

Gains or losses arising from derecognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognised in the statement of profit and loss when the asset is derecognised.

3.4 Impairment of non-financial assets

Assets which are subject to depreciation or amortisation are tested for impairment whenever events or changes in circumstances indicate that

the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs of disposal and value in use. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash inflows which are largely independent of the cash inflows from other assets or groups of assets (cash-generating units). Non-financial assets that suffered an impairment are reviewed for possible reversal of the impairment at the end of each reporting period.

3.5 Trade receivables

Trade receivables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest rate method. However, trade receivables that do not contain a significant financing component are recognised at their transaction price, less provision for impairment.

3.6 Borrowing Cost

Borrowing costs specifically relating to the acquisition or construction of qualifying assets that necessarily takes a substantial period of time to get ready for its intended use are capitalized (net of income on temporarily deployment of funds) as part of the cost of such assets. Borrowing costs consist of interest and other costs that the Company incurs in connection with the borrowing of funds. For general borrowing used for the purpose of obtaining a qualifying asset, the amount of borrowing costs eligible for capitalization is determined by applying a capitalization rate to the expenditures on that asset. The capitalization rate is the weighted average of the borrowing costs applicable to the borrowings of the Company that are outstanding during the period, other than borrowings made specifically for the purpose of obtaining a qualifying asset. The amount of borrowing costs capitalized during a period does not exceed the amount of borrowing cost incurred during that period. All other borrowing costs are expensed in the period in which they occur.

3.7 Employee Benefits

Expenses and liabilities in respect of employee benefits are recorded in accordance with Indian Accounting Standard (Ind AS)-19 - 'Employee Benefits'.

a. Short-term employee benefits:

Short-term employee benefits in respect of salaries and wages, including non-monetary benefits are recognised as an expense at the undiscounted amount in the statement of profit and loss for the year in which the related service is rendered.

b. Defined contribution plan:

Retirement benefits in the form of provident fund, pension scheme and superannuation scheme and ESIC are a defined contribution plan and the contributions are charged to the statement of profit and loss of the year when the contributions to the respective funds are due. There are no other obligations other than the contribution payable to the provident fund.

c. Defined benefit plan:

The Company's liabilities on account of gratuity and earned leaves on retirement of employees are determined at the end of each financial year on the basis of actuarial valuation certificates obtained from registered actuary in accordance with the measurement procedure as per Indian Accounting Standard (INDAS)-19- 'Employee Benefits'. Gratuity liability is funded through Gratuity Fund Trust with an insurance company in the form of a qualifying insurance policy. The costs of providing benefits under these plans are also determined on the basis of actuarial valuation at each year end. Actuarial gains and losses for defined benefit plans are recognized through other comprehensive income in the period in which they occur. Re-measurements are not reclassified to profit or loss in subsequent periods.

Accumulated leaves, which is expected to be utilized within the next 12 months, is treated as short-term employee benefit. The Group measures the expected cost of such absences as the additional amount that it expects to pay as a result of the unused entitlement that has accumulated at the reporting date. The Company treats accumulated leave expected to be carried forward beyond twelve months, as long-term employee benefit for measurement purposes. Such long term compensated absences are provided for based on actuarial valuation. The actuarial valuation is done as per projected unit credit method at the year-end.

3.8 Inventories

Inventories are valued at lower of historical cost or net realizable value. Cost of inventories comprises of cost of purchase, cost of conversion and other costs incurred in bringing them to their respective present location and condition. Materials and other supplies held for use in the production of inventories are not written down below cost if the finished products in which they will be incorporated are expected to be sold at or above cost. However, when there has been a decline in the price of materials and it is estimated that the cost of the finished products will exceed net realizable value, the materials are written down to net realizable value. In such circumstances, the replacement cost of the material may be the best available measure of their net realizable value.

Historical cost is determined on the basis of real time weighted average method.

Net realizable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and estimated costs necessary to make the sale.

3.9 Revenue recognition and other income:

The Company derives revenues primarily from sale of manufactured goods, traded goods and related services.

Revenue towards satisfaction of a performance obligation is measured at the amount of transaction price (net of variable consideration) allocated to that performance obligation. The transaction price of goods sold and services rendered is net of variable consideration on account of discounts.

Revenue is recognised on satisfaction of performance obligation upon transfer of control of promised products or services to customers in an amount that reflects the consideration the Company expects to receive in exchange for those products or services.

Revenue is measured based on transaction price which is fair value of the consideration received or receivable, after deduction of any discounts, sales incentives / schemes and any taxes or duties collected on behalf of the government such as goods and services tax, etc. Accumulated experience is used to estimate the provision for such discounts and sales incentives / schemes. Revenue is only recognised to the extent that it is highly probable a significant reversal will not occur.

Sale of Goods:

Revenue from operations is recognised in respect of export sales on the basis of shipment of goods to customer and in respect of domestic sales on dispatch from factory.

Sale of Services:

Revenues from sale of services are recognized as per the term of contract with customers based on stage of completion when the outcome of the transactions involving rendering of services can be estimated reliably. Percentage-of-completion method requires the Company to estimate the services performed to date as a proportion of the total services to be performed.

Other Income:

Incentives on exports and other Government incentives related to operations are recognised in the statement of profit or loss after due consideration of certainty of utilization/receipt of such incentives.

The quantum of accruals in respect of claims receivable such as from Railways, Insurance, Electricity, Customs Excise and the like are accounted for on receipt basis.

Interest Income:

Interest income from a financial asset is recognised when it is probable that the economic benefits will flow to the Company and the amount of income can be measured reliably. Interest income is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount on initial recognition.

Dividend Income:

Dividend Income is recognised when the right to receive the payment is established.

Corporate Guarantee Income:

Corporate Guarantee Income is as per the terms of arrangement in the normal course of business and settled through receipt.

Contract Balances

Contract assets:

Contract assets are recognized when there is excess of revenue earned over billings on contracts. Contract assets are classified as unbilled receivables (only act of invoicing is pending) when there is unconditional right to receive cash, and only passage of time is required, as per contractual terms.

Contract liabilities:

A contract liability is the obligation to transfer goods or services to a customer for which the company has received consideration (or an amount of consideration is due) from the customer. If a customer pays consideration before the company transfers goods or services to the customer, a contract liability is recognised when the payment is made or the payment is due (whichever is earlier). Contract liabilities are recognised as revenue when the company performs under the contract.

3.10 Foreign currency transactions

Initial recognition:

Foreign currency transactions are recorded on initial recognition in the functional currency, using the exchange rate at the date of the transaction.

Conversion:

Foreign currency monetary items are translated using the exchange rate prevailing at the reporting date. Non-monetary items, which are measured in terms of historical cost denominated in a foreign currency, are reported using the exchange rate at the date of the transaction. Non-monetary items, which are measured at fair value or other similar valuation denominated in a foreign currency, are translated using the exchange rate at the date when such value was determined.

Exchange differences:

The gain or loss arising on translation of non-monetary items measured at fair value is treated in line with the recognition of the gain or loss on the change in fair value of the item (i.e., translation differences on items whose fair value gain or loss is recognized in other comprehensive income or profit or loss are also recognized in other comprehensive income or profit or loss, respectively). Foreign exchange differences regarded as an adjustment to borrowing costs are presented in the statement of profit and loss, within finance costs. All other finance gains / losses are presented in the statement of profit and loss on a net basis.

3.11 Taxes

Tax expense comprises current and deferred tax.

Current income-tax:

Current income tax is measured at the amount expected to be paid to the tax authorities in accordance with the Income-Tax Act, 1961 enacted in India. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date.

Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. Current income tax relating to items recognized directly in equity is recognised in equity and not in the statement of profit and loss. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

Deferred tax:

Deferred tax is provided using the balance sheet approach on temporary differences at the reporting date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purpose at reporting date. Deferred income tax assets and liabilities are measured using tax rates and tax laws that have been enacted or substantively enacted by the balance sheet date and are expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect of changes in tax rates on deferred income tax assets and liabilities is recognized as income or expense in the period that includes the enactment or the substantive enactment date. A deferred income tax asset is recognized to the extent that it is probable that future taxable profit will be available against which the deductible temporary differences and tax losses can be utilized.

The carrying amount of deferred tax assets are reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax assets to be utilised. Unrecognised deferred tax assets are reassessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow deferred tax assets to be recovered.

The Company offsets current tax assets and current tax liabilities, where it has a legally enforceable right to set off the recognized amounts and where it intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously.

3.12 Provisions, contingent liabilities and contingent assets:

Provisions are recognized when the Company has a present obligation (legal or constructive) as a result of a past event and it is probable that the outflow of resources embodying economic benefits will be required to settle the obligation in respect of which reliable estimate can be made of the amount of the obligation. When the Company expects some or all of a provision to be reimbursed, the expense relating to provision presented in the statement of profit & loss is net of any reimbursement.

If the effect of the time value of money is material, provisions are disclosed using a current pre-tax rate that reflects, when appropriate, the risk specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognized as finance cost.

Mines reclamation liability

The Company records a provision for mines reclamation cost until the closure of mine. Mines reclamation costs are provided at the present value of expected costs to settle the obligation using estimated cash flows, with a corresponding amount being capitalised at the start of each project. The cash flows are discounted at a current pre-tax rate that reflects the risks specific to the mine reclamation liability. The unwinding of the discount is expensed as incurred and recognised in the statement of profit and loss as a finance cost. The estimated future costs of mine reclamation are reviewed annually and adjusted as appropriate. Changes in the estimated future costs or in the discount rate applied are capitalised in property, plant and equipment and are depreciated over the estimated commercial life of the related asset based on the unit of production method.

Contingent liability:

Contingent liability is disclosed in the notes in case of:

- a. There is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company.
- b. A present obligation arising from past event, when it is not probable that an outflow of resources will be required to settle the obligation.
- c. A present obligation arises from the past event, when no reliable estimate is possible.
- d. A present obligation arises from the past event, unless the probability of outflow are remote.

Contingent assets:

A contingent asset is disclosed, where an inflow of economic benefits is probable.

3.13 Cash and cash equivalents

Cash and cash equivalents includes cash on hand and at bank, deposits held at call with banks, other short-term highly liquid investments with original maturities of three months or less that are readily convertible to a known amount of cash and are subject to an insignificant risk of changes in value.

3.14 Financial Instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instruments of another entity.

(a) Investment and other Financial Assets

(i) Classification

The Company classifies its financial assets in the following measurement categories:

- those to be measured subsequently at fair value (either through Other Comprehensive Income or through profit or loss) and
- those measured at amortised cost.

The classification depends on the entity's business model for managing the financial assets and the contractual terms of the cash flows.

For assets measured at fair value, gains and losses will either be recorded in the statement of profit and loss or Other Comprehensive Income. For investments in debt instruments, this will depend on the business model in which the investment is held. For investments in equity instruments in subsidiaries, the Company has made an irrevocable election at the time of initial recognition to account for the equity investment at cost.

The Company reclassifies debt investments when and only when its business model for managing those assets changes.

(ii) *Measurement*

At initial recognition, the Company measures financial assets at its fair value plus, in the case of financial asset not at fair value through profit or loss, transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at fair value through profit or loss are expensed in the statement of profit and loss.

Debt instruments

Subsequent measurement of debt instruments depends on the Company's business model for managing the asset and the cash flow characteristics of the asset. There are three measurement categories into which the Company classifies its debt instruments:

Amortised cost: Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortised cost. A gain or loss on a debt investment that is subsequently measured at amortised cost is recognised in the statement of profit and loss when the asset is derecognised or impaired. Interest income from these financial assets is included in other income using the effective interest rate method.

Fair Value through Other Comprehensive Income (FVOCI): Assets that are held for collection of contractual cash flows and for selling the financial assets, where the assets' cash flows represent solely payments of principal and interest, are measured at FVOCI. Movements in the carrying amount are taken through OCI, except for the recognition of impairment gains or losses, interest revenue and foreign exchange gains and losses which are recognised in the statement of profit and loss. When the financial asset is derecognised, the cumulative gain or loss previously recognised in OCI is reclassified from equity to profit or loss and recognised in other gains/ (losses). Interest income from these financial assets is included in other income using the effective interest rate method.

Fair Value through Profit or Loss (FVTPL): Assets that do not meet the criteria for amortised cost or FVOCI are measured at FVTPL. A gain or loss on a debt investment that is subsequently measured at fair value through profit or loss is recognised in the statement of profit and loss in the period in which it arises. Interest income from these financial assets is included in other income.

Equity investments:

The Company subsequently measures all equity investments, other than investments in subsidiaries, either through FVTPL or FVOCI. Dividends from such investments are recognised in the Statement of profit and loss as other income when the Company's right to receive payments is established.

Investment in subsidiaries representing equity interest are carrying at cost in accordance with Ind AS 27

Changes in the fair value of financial assets at FVTPL are recognised in the statement of profit and loss. Impairment losses (and reversal of impairment losses) on equity investments measured at FVOCI are not reported separately from other changes in fair value.

(iii) *Impairment of financial assets*

The Company assesses on a forward looking basis the expected credit losses associated with its assets carried at amortised cost. The impairment methodology applied depends on whether there has been a significant increase in credit risk.

For trade receivables only, the Company applies the simplified approach permitted by Ind AS 109, 'Financial Instruments', which requires expected lifetime losses to be recognised from initial recognition of the receivables.

(iv) *Derecognition of financial assets*

A financial asset is derecognised only when:

- The Company has transferred the rights to receive cash flows from the financial asset or
- Retains the contractual rights to receive the cash flows of the financial asset, but assumes a contractual obligation to pay the cash flows to one or more recipients.

Where the entity has transferred an asset, the Company evaluates whether it has transferred substantially all risks and rewards of ownership of the financial asset. In such cases, the financial asset is derecognised. Where the entity has not transferred substantially all risks and rewards of ownership of the financial asset, the financial asset is not derecognised. Where the entity has neither transferred a financial asset nor retains substantially all risks and rewards of ownership of the financial asset, the financial asset is derecognised if the Company has not retained control of the financial asset. Where the Company retains control of the financial asset, the asset is continued to be recognised to the extent of continuing involvement in the financial asset.

(v) *Contributed equity*

Equity shares are classified as equity. Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax from the proceeds.

(b) Financial liabilities and Equity

(i) *Classification as debt or equity:*

Debt and equity instruments issued by the Company are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definition of a financial liability and an equity instrument.

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities.

(ii) *Initial recognition and measurement:*

All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs. The Company's financial liabilities include trade and other payables, loans and borrowings including bank overdrafts.

(iii) *Subsequent measurement*

The measurement of financial liabilities depends on their classification, as described below:

Borrowings: Borrowings are subsequently carried at amortised cost; any difference between the proceeds (net of transaction costs) and the redemption value is recognised in the statement of profit and loss over the period of the borrowings using the effective interest rate method.

Fees paid on the establishment of loan facilities are recognised as transaction costs of the loan to the extent that it is probable that some or all of the facility will be drawdown. In this case, the fee is deferred until the drawdown occurs. To the extent there is no evidence that it is probable that some or all of the facility will be drawdown, the fee is capitalised as a pre-payment for liquidity services and amortised over the period of the facility to which it relates.

Trade and other payables: These amounts represent obligations to pay for goods or services that have been acquired in the ordinary course of business from suppliers. Those payable are classified as current liabilities if payment is due within one year or less otherwise they are presented as non-current liabilities. Trade and other payables are subsequently measured at amortised cost using the effective interest rate method.

(iv) *Derecognition:*

Borrowings are removed from the balance sheet when the obligation specified in the contract is discharged, cancelled or expired. The difference between the carrying amount of a financial liability that has been extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognised in profit or loss as other gains / (losses). When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit and loss.

Borrowings are classified as current liabilities unless the Company has an unconditional right to defer settlement of the liability for at least 12 months after the reporting period. Where there is a breach of a material provision of a long-term loan arrangement on or before the end of the reporting period with the effect that the liability becomes payable on demand on the reporting date, the entity does not classify the liability as current, if the lender agreed, after the reporting period and before the approval of the financial statements for issue, not to demand payment as a consequence of the breach.

Offsetting of financial instrument

Financial assets and Financial liabilities are offset and the net amount is reported in the balance sheet if there is a legal enforceable right to offset the recognised amounts and there is an intention to settle on a net basis, to realize the assets and settle the liabilities simultaneously.

3.15 Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants on the measurement date. The Company uses valuation techniques that are appropriate in the circumstances for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the special purpose financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole.

Level 1 - Quoted (unadjusted) market prices in active markets for identical assets or liabilities.

Level 2 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable.

Level 3 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

3.16 Dividend distribution

Annual dividend distribution to the shareholders is recognised as a liability in the period in which the dividends are approved by the shareholders. Any interim dividend paid is recognised on approval by Board of Directors. Dividend payable is recognised directly in other equity.

3.17 Discontinued operation

A discontinued operation is a component of an entity that either has been disposed of, or is classified as held for sale, and:

- represents a separate major line of business or geographical area of operations,

- is part of a single co-ordinated plan to dispose of a separate major line of business or geographical area of operations.

Discontinued operations are excluded from the results of continuing operations and are presented as profit or loss before / after tax from discontinued operation in the statement of profit and loss.

32 (a) Acquisition of Birla Tyres Limited and Tyre Undertaking

Pursuant to Order dated October 19, 2023 of Hon'ble National Company Law Tribunal, Kolkata Bench (NCLT), Dalmia Bharat Refractories Limited ('the Company' or 'Transferee Company' or 'Successful Resolution Applicant'), along with Himadri Speciality Chemical Limited ('HSCL') as 'Strategic Partner' had completed the acquisition of Birla Tyres Limited ('Corporate Debtor' or 'Transferor Company') which had undergone the Corporate Insolvency Resolution Process under the Insolvency and Bankruptcy Code, 2016 which was initiated on May 05, 2022. The Resolution Plan dated March 27, 2023 and modified as on July 27, 2023 ('Approved Resolution Plan') was submitted by the Company with HSCL as 'Strategic Partner' and was approved by the NCLT on October 19, 2023. The Approved Resolution Plan also contains Financial Restructuring Scheme (referred to as "FRS Scheme") (Schedule 7 of the Approved Resolution Plan) which provides for treatment of select existing assets and liabilities of the Transferor Company from the Restructuring Appointed Date (i.e. May 05, 2022) and eventual capital reduction of the share capital of the Transferor Company. The above schemes were filed with Registrar of Companies on November 04, 2023.

Under the Approved Resolution Plan, the Company along with the Strategic Partner became the 100% shareholder of the Corporate Debtor through fresh issue of equity shares. As per the Approved Resolution Plan, the Company and the Strategic Partner acquired 9,999 and 1 equity shares in Birla Tyres Limited respectively.

Pursuant to the approved Resolution Plan and NCLT Order dated October 19, 2023, the Tyre Undertaking (as defined in the Approved Resolution Plan and Schedule 8 - Scheme of Demerger therein) (hereinafter referred to as "Demerger Scheme") of the Corporate Debtor has been demerged into the Company with effect from the Demerger Appointed Date i.e., May 06, 2022. To give the effect of the Demerger Scheme, the financial statements of the Company have been restated from appointed date.

The Company has given effect to accounting in terms of the Approved Resolution Plan and the Scheme of Demerger which provides for accounting as per 'Acquisition Method' method in accordance with Ind AS 103 - Business Combinations read with other accounting standards prescribed under section 133 of the Companies Act, 2013. Accordingly, the assets and liabilities pertaining to the Tyre Undertaking are recorded at their respective fair value as per the Purchase Price Allocation report taken from the Registered Valuer. The difference between the fair value of net identifiable assets acquired and consideration paid on the demerger has been accounted for as Capital Reserve amounting to ₹ 460.25 crore. In accordance with the Scheme, the purchase consideration of ₹ 10/- will be discharged by issue and allotment of 1 (one) redeemable preference shares of face value ₹ 10/- of the Company to the shareholders of the Transferor Company, other than the Company itself i.e. Strategic Partner namely Himadri Speciality Chemical Limited.

36 Employee Benefits

Gratuity

The Company has a defined benefit gratuity plan. The gratuity is governed by the Payment of Gratuity Act, 1972. Under the Act, employee who has completed five years of service is entitled to gratuity on departure at 15 days salary (last drawn salary) for each completed year of service. The Scheme during the year ended March 31, 2023 was funded through Gratuity Fund Trust with an insurance company in the form of a qualifying insurance policy. During the year ended March 31, 2024, the Scheme is funded only towards Gratuity liability acquired pursuant to Scheme of Demerger {refer note 32(a)}. The Trust is responsible for the administration of the plan assets and for the determination of investment strategy. The Company makes provision of such gratuity asset/ liability in the books of account on the basis of actuarial valuation carried out by an independent actuary.

Post-retirement medical benefits plan ('PRMB')

The Company provides post-retirement medical benefits to its certain retired employees. The plan is not funded by the Company.

The following tables summarize the components of defined benefit costs recognised in the statement of profit and loss and amounts recognised in the balance sheet for the above mentioned plan:

The weighted average duration (based on discounted cash flows) of the defined benefit plan obligation for gratuity at the end of the reporting period is 10.53 years (March 31, 2023: 3 -10.51 years) and for PMRB is 9 years (March 31, 2023: 9 years).

Risk Exposure

Defined benefit plans typically expose the Company to actuarial risks such as: Investment Risk, Interest Risk, Longevity Risk and Salary Risk.

Investment Risk

The present value of the defined benefit plan liability is calculated using a discount rate which is determined by reference to market yields at the end of the reporting period on government bonds.

Interest Risk

A decrease in the bond interest rate will increase the plan liability; however, this will be partially offset by an increase in the return on the plan's debt investments.

Longevity Risk

The present value of the defined benefit plan liability is calculated by reference to the best estimate of the mortality of plan participants both during and after their employment. An increase in the life expectancy of the plan participants will increase the plan's liability.

Salary Risk

The present value of the defined plan liability is calculated by reference to the future salaries of plan participants. As such, an increase in the salary of the plan participants will increase the plan's liability.

Financial Risk Factors

The Company's operational activities expose to various financial risks i.e. market risk, credit risk and risk of liquidity. The Company realizes that risks are inherent and integral aspect of any business. The primary focus is to foresee the unpredictability of financial markets and seek to minimize potential adverse effects on its financial performance. The Company's senior management oversees the management of these risks and devise appropriate risk management framework for the Company. The senior management provides assurance that the Company's financial risk activities are governed by appropriate policies and procedures and that financial risks are identified, measured and managed in accordance with the Company's policies and risk objectives.

A. Credit Risk :

Credit risk is the risk that a counter party will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Company is exposed to credit risk from its operating activities (primarily trade receivables and advances to suppliers) and from its financing activities, including deposits, investments and other financial instruments.

To manage this, Company periodically assesses the financial reliability of customers, taking into account factors such as credit track record in the market and past dealings with the Company for extension of credit to customer Company monitors the payment track record of the customers Outstanding customer receivables are regularly monitored. An impairment analysis is performed at each quarter end on an individual basis for major customers In addition, a large number of minor receivables are grouped into homogenous groups and assessed for impairment collectively. The maximum exposure to credit risk at the reporting date is the carrying value of each class of financial assets disclosed in note 44. The Company evaluates the concentration of risk with respect to trade receivables as low, the trade receivables are located in several jurisdictions and operate in largely independent markets.

A The Company has opted to fair value its mutual fund investment through profit & loss.

B The Company has opted to fair value its quoted investments in equity share through OCI.

C The Company has opted to value its investments in subsidiaries at cost.

D The Company has adopted effective rate of interest for calculating Interest. This has been calculated as the weighted average of effective interest rates calculated for each loan. In addition processing fees and transaction cost relating to each loan has also been considered for calculating effective interest rate.

(ii) Fair Valuation techniques used to determine fair value

The Company maintains procedures to value financial assets or financial liabilities using the best and most relevant data available. The fair values of the financial assets and liabilities are included at the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

The following methods and assumptions were used to estimate the fair values:

- Fair value of trade receivable, cash and cash equivalents, other bank balances, trade payables, loans, other financial assets and liabilities are approximate at their carrying amounts largely due to the short-term maturities of these instruments.
- The fair values of non-current borrowings, lease liabilities and other financial liabilities are approximate at their carrying amount due to interest bearing features of these instruments.
- The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.
- Fair values of quoted financial instruments are derived from quoted market prices in active markets.
- The fair value for level 3 instruments is valued using inputs based on information about market participants assumptions and other data that are available.
- The fair value of the remaining financial instruments is determined using discounted cash flow analysis.
- Equity Investments in subsidiaries are stated at cost.

(iii) Fair value hierarchy

The Company uses the following hierarchy for determining and disclosing the fair value of financial instruments by valuation techniques:

Level 1 - Quoted prices in active markets for identical assets. It includes fair value of financial instruments traded in active markets and are based on quoted market prices at the balance sheet date.

Level 2 - Inputs, other than quoted prices included within level 1, that are observable for the asset, either directly (that is, as prices) or indirectly (that is, derived from prices). It includes fair value of the financial instruments that are not traded in an active market is determined by using valuation techniques. These valuation techniques maximise the use of observable market data where it is available and rely as little as possible on the Company specific estimates. If all significant inputs required to fair value an instrument are observable then instrument is included in level 2.

Level 3 - Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs). If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3.

(iv) Description of the inputs used in the fair value measurement:

Following table describes the valuation techniques used and key inputs to valuation for level 3 of the fair value hierarchy as at March 31, 2024, March 31, 2023 respectively:

Particulars	As at March 31, 2024	Valuation Technique	Inputs Used	Sensitivity
- Investment in Equity shares (Unquoted)	57.28	DCF Method	Growth rate - 4.5% Weighted average cost of capital (WACC) -18.50%	1% increase/(decrease) in growth rate would result in increase/(decrease) in fair value by ₹ 2.73 / ₹ (2.37). 1% increase/(decrease) in WACC would result in (decrease)/increase in fair value by ₹ (5.92) / ₹ 1.72.
- Investments in debt instruments (Unquoted)	266.75	Black Schole Option	Volatility - 35.39% Risk free rate - 7.05%	5% increase/(decrease) in volatility would result increase/(decrease) in fair value by ₹ 7.98 / ₹ (8.25) . 1% increase/(decrease) in Risk free rate would result in increase/(decrease) in fair value by ₹ 5.23/ ₹ (5.23) .

Reconciliation of fair value measurement categorised within level 3 of the fair value hierarchy:

Financial assets designated at fair value through other comprehensive income.

Particulars	For the year ended	
	March 31, 2024	March 31, 2023
Opening balance	-	-
Purchase / (Sale) of financial instruments	325.00	-
(Loss) on financial instruments measured at fair value through profit or loss (net)	(0.97)	-
Closing balance	324.03	-

(v) Description of the valuation processes used by the Company for fair value measurement categorised within level 3:

At each reporting date, the Company analyses the movements in the values of financial assets and liabilities which are required to be remeasured or reassessed as per the accounting policies. For this analysis, the Company verifies the major inputs applied in the latest valuation by agreeing the information in the valuation computation to contracts and other relevant documents.

The Company also compares the change in the fair value of each financial asset and liability with relevant external sources to determine whether the change is reasonable. The Company also discusses of the major assumptions used in the valuations.

For the purpose of fair value disclosures, the Company has determined classes of financial assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

45 Capital Management

For the purpose of the Company's capital management, equity includes issued equity capital, securities premium and all other equity reserves attributable to the equity shareholders and net debt includes interest bearing loans and borrowings less cash and cash equivalents. The primary objective of the Company's capital management is to safeguard continuity, maintain a strong credit rating and healthy capital ratios in order to support its business and provide adequate return to shareholders through continuing growth.

The Company manages its capital structure and makes adjustments in light of changes in economic conditions and the requirements of the financial covenants. The funding requirement is met through a mixture of equity, internal accruals, long term borrowings and short term borrowings. The Company monitors capital using a gearing ratio, which is net debt divided by total capital plus net debt.

In order to achieve this overall objective, the Company's capital management, amongst other things, aims to ensure that it meets financial covenants attached to the interest-bearing loans and borrowings that define capital structure requirements.

EMPHASIS OF MATTER

We draw attention to note no. 33 to the accompanying the consolidated financial statements, regarding accounting of approved resolution plan under the Insolvency and Bankruptcy Code, 2016 in the matter of Birla Tyres Limited ("BTL") which consist of i) the financial restructuring scheme from appointed date being 5th May 2022, ii) Scheme of Demerger (tyre undertaking) and iii) Scheme of Arrangement (transfer of non-operational unit of tyre undertaking), being appointed date 6th May 2022 as approved by the National Company Law Tribunal, though the Schemes has become effective on 4th November 2023 and restatement of comparatives for the previous year by the management of the Company. Our opinion is not modified in respect of above said matter.

KEY AUDIT MATTER

Key audit matter is that matter that, in our professional judgment, were of most significance in our audit of the consolidated financial statements for the year ended 31st March 2024. This matter was addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on this matter. We have determined the matter described below to be the key audit matter to be

Key Audit Matter	How our audit addressed the key audit matter
Acquisitions of Birla Tyre Limited (BTL) and Demerger Scheme of Tyre Undertaking from BTL to the Holding Company (As described in note no. 33 of the Consolidated financial statements)	
The Board of Directors of the Holding Company in its meeting held on 10th March 2023 has approved submission of the resolution plan under the Insolvency and Bankruptcy Code, 2016 in the matter of Corporate Insolvency Resolution Process of Birla Tyre Limited (BTL). Pursuant to order dated 19th October 2023 of Hon'ble National Company Law Tribunal (NCLT), Kolkata Bench the Company along with Strategic Partner namely Himadri Speciality Chemical Ltd had completed the acquisition of BTL. The above were filed with Registrar of Companies on 4th November 2023. The approved resolution plan contains Financial Restructuring Scheme which provides for treatment of select existing assets and liabilities of the BTL from the restructuring appointed date (i.e. 5th May 2022) and capital reduction of BTL. The Tyre Undertaking of the BTL has been demerged into the Holding Company with effect from the demerger appointed date i.e. 6th May 2022 in accordance with approved resolution plan. Accordingly, on acquisition date, the assets and liabilities pertaining to tyre undertaking are accounted at fair value in accordance with INDAS 103 on Business Combinations. The differential amount between fair value of net identifiable assets acquired and consideration paid on demerger has been credited to capital reserve after considering effects of deferred tax assets. As acquisitions of BTL and other related matters are significant event during the year, we considered it to be a key audit matter.	In view of the significance of the matter we applied the following audit procedures in this area, among others to obtain sufficient audit evidence: • Performed inquiry procedures with the key managerial persons of the Holding Company with reference to above said acquisition. • Obtained and read the minutes of board of directors, approved resolution plan and NCLT order, for acquisitions of BTL. • Understanding the process followed by the Holding Company for the accounting treatment pursuant to the approved resolution plan. • Evaluating whether the measurement, recognition and disclosure of the said transaction is in line with the applicable Indian Accounting Standards. • We obtained management's workings for the accounting of the acquisitions and evaluated management's determination of the fair value of the assets acquired, which is based on independent valuer's report engaged by the Management. • Assessing whether the accounting entries recorded in the books is in line with the accounting treatment assessed above, including the arithmetical accuracy of the same. • Review of disclosures provided in the consolidated financial statements in this regard.

communicated in our report.

INFORMATION OTHER THAN THE FINANCIAL STATEMENTS AND AUDITOR'S REPORT THEREON

The Holding Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Annual Report but does not include the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. Other information so far as it relates to the subsidiaries and associates not audited by us, is traced from their financial statements audited by the other auditors.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

RESPONSIBILITIES OF MANAGEMENT FOR THE CONSOLIDATED FINANCIAL STATEMENTS

The Holding Company's Board of Directors is responsible for the preparation and presentation of these consolidated financial statements in terms of the requirements of the Companies Act, 2013 that give a true and fair view of the consolidated financial position, consolidated financial performance and consolidated cash flows of the Group in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under section 133 of the Act. The respective Board of Directors of the companies included in the Group are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group and for preventing and detecting frauds and other irregularities; the selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error; which have been used for the purpose of preparation of the consolidated financial statements by the Directors of the Holding Company, as aforesaid.

In preparing the consolidated financial statements, the respective Board of Directors of the companies included in

the Group are responsible for assessing the ability of the Group to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

The respective Board of Directors of the companies included in the Group are responsible for overseeing the financial reporting process of the Group.

AUDITORS' RESPONSIBILITY FOR AUDIT OF CONSOLIDATED FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain Professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3) (i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls with reference to consolidated financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Group to continue as a going concern. If we conclude that a material

uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group of which we are the independent auditors and whose financial information we have audited, to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the audit of the financial statements of such entities included in the consolidated financial statements of which we are the independent auditors. For the other entities included in the consolidated financial statements, which have been audited by other auditors, such other auditors remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion.

We communicate with those charged with governance of the Holding Company and such other entities included in the consolidated financial statements of which we are the independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements for the year ended 31st March 2024 and are therefore the key audit matter. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Other Matter

We did not audit the financial statements / financial

information of 5 subsidiaries, whose financial statements / financial information reflect total assets of Rs. 350.25 Crore as at 31st March, 2024, total revenues of Rs. 136.04 Crore and net cash inflow/outflows amounting to Rs. ANNEXURE-A

TO THE INDEPENDENT AUDITOR'S REPORT

(Referred to in paragraph 1 (f) under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)

Report on the Internal Financial Controls with reference to the aforesaid consolidated financial statements under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

In conjunction with our audit of the consolidated financial statements of the Company as of and for the year ended 31st March, 2024, we have audited the internal financial controls with reference to consolidated financial statements of Dalmia Bharat Refractories Limited ("hereinafter referred to as the Holding Company") and its subsidiaries incorporated in India, as of that date.

Management's Responsibility for Internal Financial Controls

The respective Board of Directors of the Holding Company, its subsidiaries, which are company incorporated in India, are responsible for establishing and maintaining internal financial controls based on the internal control with reference to consolidated financial statements criteria established by the respective companies considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the internal financial controls with reference to consolidated financial statements of the Holding company, its subsidiaries, which are company, incorporated in India, based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India and the Standards on Auditing, prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to consolidated financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system with reference to consolidated financial statements and their operating effectiveness. Our audit of internal financial controls with reference to consolidated financial statements included obtaining an understanding of internal financial controls, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained and the audit evidence obtained by the other auditor of the subsidiary company, which is company incorporated in India, in terms of their reports referred to in the Other Matters paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls system with reference to consolidated financial statements of the Holding Company, its subsidiary company, which is a company incorporated in India.

Meaning of Internal Financial Controls with reference to consolidated financial statements

A company's internal financial control with reference to consolidated financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control with reference to consolidated financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls with reference to consolidated financial statements

Because of the inherent limitations of internal financial

controls with reference to consolidated financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to consolidated financial statements to future periods are subject to the risk that the internal financial control with reference to consolidated financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion to the best of our information and according to the explanations given to us and based on the consideration of the reports of the other auditors referred to in the Other Matters paragraph below, the Holding and its subsidiaries which are company incorporated in India, have, in all material respects, an adequate internal financial controls system with reference to consolidated financial statements

and such internal financial controls with reference to financial statements were operating effectively as at 31st March, 2024, based on the criteria for internal financial control with reference to consolidated financial statements established by the Group considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Other Matter

Our aforesaid report under Section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls with reference to consolidated financial statements in so far as it relates to two subsidiaries companies, which are companies incorporated in India, is based solely on the corresponding report of the auditors of such companies incorporated in India. Our opinion is not modified in respect of the above matter.

The Group also comprised of subsidiaries namely Dalmia OCL India Limited (till January 5, 2023) and Dalmia Seven Refractories Limited (till January 5, 2023) along with above subsidiaries as at March 31, 2023.

These consolidated financial statements of the Group as at and for the year ended March 31, 2024 were approved and adopted by board of directors of the Parent Company in their meeting held on May 28, 2024.

2 Basis of preparation, critical accounting estimates and judgement

The financial statements have been prepared on the following basis:

2.1 Compliance with Ind AS

These consolidated financial statements have been prepared to Comply with Indian accounting Standards ("Ind AS") including the Rules notified under the relevant provision of the Companies Act, 2013, (as amended from time to time) and presentation and disclosure requirements of Division II of Schedule III to the Companies Act, 2013 (Ind AS compliant Schedule III) as amended from time to time. The Group follows indirect method prescribed in Ind AS - 7 "Statement of Cash Flow" for presentation of its cash flows.

Historical cost convention:

The financial statements have been prepared under the historical cost convention, except for the certain financial assets and liabilities, and Defined Benefit Plan – Plan Assets which have been measured at fair value

Assets acquired and liability assumed in business combination are fair valued at appointed date & accounted accordingly.

2.2 Basis of preparation

The material accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

Functional and presentation currency:

These consolidated financial statements are presented in Indian rupees (₹), functional currency of the Group. All amounts have been rounded off to two decimal places to the nearest crores, unless otherwise stated. Items included in the consolidated financial statements of the Group are measured using the currency of the primary economic environment in which the entity operates are presented in ₹ which is also the Parent Company functional currency. All amounts are rounded to the nearest crores, unless otherwise stated. The functional currency for all the entities in the Group is Indian Rupees except following subsidiaries:-

- a) Dalmia GSB Refractories GmbH - EURO
- b) OCL China Limited - RMB
- c) OCL Global Limited - USD

Current vis-à-vis non-current classification:

The Group presents assets and liabilities in statement of financial position based on current/non-current classification, consisting an operating cycle of 12 months being the time elapsed between deployment of Resources and Realization in cash and cash equivalents there against.

2.3 Basis of Consolidation

The consolidated financial statements of the Group comprise the financial statements of the Group and its subsidiaries as at 31 March 2024. Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee.

Generally, there is a presumption that a majority of voting rights result in control. To support this presumption and when the Group has less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including the contractual arrangement with the other vote holders of the investee, rights arising from other contractual arrangements, the Group's voting rights and potential voting rights and the size of the Group's holding of voting rights relative to the size and dispersion of the holdings of the other voting rights holders.

The Group re-assesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control. Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Assets, liabilities, income and expenses of a subsidiary acquired during the year are included in the consolidated financial statements from the date the Group obtains control and assets, liabilities, income and expenses of a subsidiary disposed off during the year are included in the consolidated financial statements till the date the Group ceases to control the subsidiary.

Consolidation procedure:

Combine like items of assets, liabilities, equity, income, expenses and cash flows of the parent with those of its subsidiaries. For this purpose, income and expenses of the subsidiaries are based on the amounts of the assets and liabilities recognised in the consolidated financial statements at the acquisition date.

Offset (eliminate) the carrying amount of the parent's investment in each subsidiary and the Parent's portion of equity of each subsidiary. The difference between the cost of investment in the subsidiaries and the Parent's share of net assets at the time of acquisition of control in the subsidiaries is recognised in the consolidated financial statement as goodwill. However, resultant gain (bargain purchase) is recognized in other comprehensive income on the acquisition date and accumulated to capital reserve in equity.

Intra-Group balances and transactions, and any unrealized income and expenses arising from intra Group transactions, are eliminated in preparing the consolidated financial statements.

Consolidated financial statements are prepared using uniform accounting policies for like transactions and other events in similar circumstances. If an entity of the Group uses accounting policies other than those adopted in the consolidated financial statements for like transactions and events in similar circumstances, appropriate adjustments are made to that Group member's financial statements in preparing the consolidated financial statements to ensure conformity with the Group's accounting policies.

Consolidated financial statements of all entities used for the purpose of consolidation are drawn up to same reporting date as that of the parent company, i.e., year ended on 31st March. When the end of the reporting period of the parent is different from that of a subsidiary, if any, the subsidiary prepares, for consolidation purposes, additional financial information as of the same date as the consolidated financial statements of the parent to enable the parent to consolidate the financial information of the subsidiary, unless it is impracticable to do so.

For the acquisition of additional interests in subsidiaries, where there is no change in the control, the Group recognises a reduction to the non-controlling interest of the respective subsidiary with the difference between this figure and the cash paid, inclusive of transaction fees, being recognised in equity. In addition, upon dilution of controlling interests, the difference between the cash received from sale or listing of the subsidiary shares and the increase to non-controlling interest is also recognised in equity. If the Group loses control over a subsidiary, it derecognises the related assets (including goodwill), liabilities, non-controlling interest and other components of equity, while any resultant gain or loss is recognised in consolidated statement of profit and loss. Any investment retained is recognised at fair value. The results of subsidiaries acquired or disposed off during the year are included in the consolidated statement of profit and loss from the effective date of acquisition or up to the effective date of disposal, as appropriate.

2.4 Critical accounting estimates and judgements:

The presentation of financial statements under Ind AS requires management to take decisions and make estimates and assumptions that may impact the value of revenues, costs, assets and liabilities and the related disclosures concerning the items involved as well as contingent assets and liabilities at the balance sheet date. Estimates and judgements are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

The Group makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, seldom equal the related actual results. The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below:

a. Property, plant and equipment and intangible assets

The useful life and residual value of plant, property equipment and intangible assets are determined based on technical evaluation made by the management of the expected usage of the asset, the physical wear and tear and technical or commercial obsolescence of the asset. Due to the judgements involved in such estimations, the useful life and residual value are sensitive to the actual usage in future period.

b. Recognition and measurement of defined benefit obligations

The cost of the defined benefit plan and other post-employment benefits and the present value of such obligation are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases, mortality rates and attrition rate. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

c. Fair value measurement of financial instruments

When the fair value of the financial assets and liabilities recorded in the balance sheet cannot be measured based on the quoted market price in active markets, their fair value is measured using valuation technique. The input to these models are taken from the observable market where possible, but this is not feasible, a review of judgment is required in establishing fair values. Changes in assumption relating to these assumption could affect the fair value of financial instrument.

d. Provisions

Provisions and liabilities are recognized in the period when it becomes probable that there will be a future outflow of funds resulting from past operations or events and the amount of cash outflow can be reliably estimated. The timing of recognition and quantification of the liability require the application of judgement to existing facts and circumstances, which can be subject to change. Since the cash outflows can take place many years in the future, the carrying amounts of provisions and liabilities are reviewed regularly and adjusted to take account of changing facts and circumstances.

e. Impairment of Financial and Non-Financial Assets

The impairment provision for financial assets are based on assumptions about risk of default and expected losses. The Group uses judgement in making these assumptions and selecting the inputs to the impairment calculation, based on Group's past history, existing market conditions as well as forward looking estimates at the end of each reporting period. The Group assesses at each reporting date whether there is an indication that a Non-financial asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Group estimates the asset's recoverable amount which is higher of an asset's or CGU's fair value less costs of disposal and its value in use. Where the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

f. Recoverability of trade receivables:

Judgements are required in assessing the recoverability of overdue trade receivables and determining whether a provision against those receivables is required. Factors considered include the credit rating of the counterparty, the amount and timing of anticipated future payments and any possible actions that can be taken to mitigate the risk of non-payment.

g. Income Tax:

The Group reviews at each Balance sheet date the carrying amount of deferred tax assets. The factors used in estimates may differ from actual outcome which could lead to an adjustment to the amounts reported in Financial Statements. Deferred tax asset are recognized only to the extent that it is probable that taxable profit will be available against which the unused tax losses or tax credits can be utilized. This involves assessment of when those assets are likely to reverse and a judgement as to whether or not there will be sufficient taxable profits available to offset the asset. This requires assumptions regarding future profitability, which is inherently uncertain. To the extent assumptions regarding future profitability change, there can be an increase or decrease in the amounts recognized in respect of deferred tax assets and consequential impact in the statement of profit and loss.

h. Contingencies:

Management has estimated the possible outflow of resources at the end of each annual reporting financial year, if any, in respect of contingencies/claim/litigations against the Group as it is not possible to predict the outcome of pending matters with accuracy.

i. Fair value business combinations:

On acquisition date May 05, 2022, the Group fair valued the asset acquired and liabilities assumed as part of business combination; valuation by registered valuer to comply with the provision of arrangement under section 230 to 232 of the Companies Act, 2013 and to comply with the reporting requirements of Ind AS as per section 133 of the Companies Act 2013 to incorporate effect of scheme of demerger and arrangement approved by NCLT. (Refer note 33).

j. Exceptional items

Exceptional items are those items that management considers, by virtue of their size or incidence, should be disclosed separately to ensure that the financial information allows an understanding of the underlying performance of the business in the year, so as to facilitate comparison with prior periods. Such items are material by nature or amount to the year's result and / or require separate disclosure in accordance with Ind AS. The determination as to which items should be disclosed separately requires a degree of judgement.

3 Material Accounting Policies

3.1 Business combinations, goodwill and capital reserve

Business combinations are accounted for using the acquisition method. The cost of an acquisition is measured as the aggregate of the consideration transferred measured at acquisition date fair value and the amount of any non-controlling interests in the acquiree. For each business combination, Group elects whether to measure the non-controlling interests in the acquiree at fair value or at the proportionate share of the acquiree's identifiable net assets. Acquisition-related costs are expensed as incurred.

At the acquisition date, the identifiable assets acquired and the liabilities assumed are recognised at their acquisition date fair values, except certain assets and liabilities required to be measured as per the applicable standard. For this purpose, the liabilities assumed include contingent liabilities representing present obligation and they are measured at their acquisition fair values irrespective of the fact that outflow of resources embodying economic benefits is not probable.

Goodwill is initially measured at cost, being the excess of the aggregate of the consideration transferred and the amount recognised for non-controlling interests, and any previous interest held, over the net identifiable assets acquired and liabilities assumed. If the fair value of the net assets acquired is in excess of the aggregate consideration transferred, the Group re-assesses whether it has correctly identified all of the assets acquired and all of the liabilities assumed and reviews the procedures used to measure the amounts to be recognised at the acquisition date. If the reassessment still results in an excess of the fair value of net assets acquired over the aggregate consideration transferred, then the gain is recognised in other comprehensive income and accumulated in equity as capital reserve. However, if there is no clear evidence of bargain purchase, the entity recognises the gain directly in equity as capital reserve, without routing the same through other comprehensive income.

After initial recognition, goodwill is measured at cost less any impairment losses. For the purpose of impairment testing, goodwill acquired in a business combination is, from the acquisition date, allocated to each of the Group's cash-generating units that are expected to benefit from the combination, irrespective of whether other assets or liabilities of the acquiree are assigned to those units.

A cash generating unit to which goodwill has been allocated is tested for impairment annually, or more frequently when there is an indication that the unit may be impaired. If the recoverable amount of the cash generating unit is less than its carrying amount, the impairment loss is allocated first to reduce the carrying amount of any goodwill allocated to the unit and then to the other assets of the unit pro rata based on the carrying amount of each asset in the unit. Any impairment loss for goodwill is recognised in consolidated statement of profit and loss. An impairment loss recognised for goodwill is not reversed in subsequent periods.

3.2 Property, plant and equipment

All items of Property, plant and equipment are stated at historical cost net of tax/ duty credit availed which includes capitalised borrowing cost, less depreciation and impairment loss, if any. Historical cost includes expenditure that is directly attributable to the acquisition of the items. Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognised when replaced. All other repairs and maintenance are charged to profit or loss during the reporting period in which they are incurred. The present value of the expected cost for the decommissioning of the asset after its use is included in the cost of the respective asset if the recognition criteria for a provision are met.

Expenditure incurred on assets which are not ready for their intended use comprising direct cost, related incidental expenses and attributable borrowing cost are disclosed under Capital Work-in-Progress.

Depreciation methods, estimated useful lives and residual value:

Depreciation on property, plant and equipment (PPE) is provided over the useful life of assets on straight line basis specified in schedule II to the Act. The useful life of Asset which are different from those prescribed under Schedule II are based on the technical advice as under. PPE which are added / disposed off during the year, depreciation is provided pro-rata basis with reference to the month of addition / deletion. leasehold land is amortised over the period of lease.

Estimated useful lives, residual values and depreciation methods are reviewed annually, taking into account commercial and technological obsolescence as well as normal wear and tear.

The useful life of asset acquired as a part of business acquisition which are different from those prescribed under Schedule II to the Companies Act, 2013, are as follows:-

Assets	Useful life
Buildings	3-20 Years
Plant and Machinery	1 to 14 Years

3.3 Intangible assets

Intangible assets that the Group controls and from which it expects future economic benefits are capitalised upon acquisition and measured initially:

- for assets acquired in a business combination i.e. brand, customer relationship, technology intellectual property, mining rights; at fair value on the date of acquisition
- for separately acquired assets, at cost comprising the purchase price and directly attributable costs to prepare the asset for its intended use.

Intangible assets are carried at cost less accumulated amortisation and accumulated impairment losses, if any.

Intangible assets that have finite lives are amortized over their estimated useful lives by the straight line method unless it is practical to reliably determine the pattern of benefits arising from the asset. Computer softwares are capitalised at the amounts paid to acquire the respective license for use and are amortised over the period of useful lives or period of three years, whichever is less. An intangible asset with an indefinite useful life is not amortized.

Assets	Useful life
Customer Relationship	20 Year
Technology Intellectual Property	8 Year
Mining rights	10 Year
Brand	18 Year

All intangible assets are tested for impairment. Amortization expenses and impairment losses and reversal of impairment losses are taken to the consolidated statement of profit and loss. Thus, after initial recognition, an intangible asset is carried at its cost less accumulated amortization and / or impairment losses.

The useful lives of intangible assets are reviewed annually to determine if a reset of such useful life is required for assets with finite lives and to confirm that business circumstances continue to support an indefinite useful life assessment for assets so classified. Based on such review, the useful life may change or the useful life assessment may change from indefinite to finite. The impact of such changes is accounted for as a change in accounting estimate.

Gains or losses arising from derecognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognised in the statement of profit and loss when the asset is derecognised.

3.4 Impairment of non-financial assets:

Assets which are subject to depreciation or amortisation are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs of disposal and value in use. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash inflows which are largely independent of the cash inflows from other assets or groups of assets (cash-generating units). Non-financial assets that suffered an impairment are reviewed for possible reversal of the impairment at the end of each reporting period.

3.5 Trade receivables

Trade receivables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest rate method. However, trade receivables that do not contain a significant financing component are recognised at their transaction price, less provision for impairment.

3.6 Borrowing cost

Borrowing costs specifically relating to the acquisition or construction of qualifying assets that necessarily takes a substantial period of time to get ready for its intended use are capitalized (net of income on temporarily deployment of funds) as part of the cost of such assets. Borrowing costs consist of interest and other costs that the Group incurs in connection with the borrowing of funds. For general borrowing used for the purpose of obtaining a qualifying asset, the amount of borrowing costs eligible for capitalization is determined by applying a capitalization rate to the expenditures on that asset. The capitalization rate is the weighted average of the borrowing costs applicable to the borrowings of the Group that are outstanding during the period, other than borrowings made specifically for the purpose of obtaining a qualifying asset. The amount of borrowing costs capitalized during a period does not exceed the amount of borrowing cost incurred during that period. All other borrowing costs are expensed in the period in which they occur.

3.7 Employee benefits

Expenses and liabilities in respect of employee benefits are recorded in accordance with Indian Accounting Standard (Ind AS)-19 - 'Employee Benefits'.

a. Short-term employee benefits

Short-term employee benefits in respect of salaries and wages, including non-monetary benefits are recognised as an expense at the undiscounted amount in the consolidated statement of profit and loss for the year in which the related service is rendered.

b. Defined contribution plan

Retirement benefits in the form of provident fund, pension scheme and superannuation scheme and ESI are a defined contribution plan and the contributions are charged to the consolidated statement of profit and loss of the year when the contributions to the respective funds are due. There are no other obligations other than the contribution payable to the provident fund.

c. Defined benefit plan

The Group's liabilities on account of gratuity and earned leaves on retirement of employees are determined at the end of each financial year on the basis of actuarial valuation certificates obtained from registered actuary in accordance with the measurement procedure as per Indian Accounting Standard (INDAS)-19- 'Employee Benefits'. Gratuity liability is funded through Gratuity Fund Trust with an insurance company in the form of a qualifying insurance policy. The costs of providing benefits under these plans are also determined on the basis of actuarial valuation at each year end. Actuarial gains and losses for defined benefit plans are recognized through other comprehensive income in the period in which they occur. Re-measurements are not reclassified to profit or loss in subsequent periods.

Accumulated leaves, which is expected to be utilized within the next 12 months, is treated as short-term employee benefit. The Group measures the expected cost of such absences as the additional amount that it expects to pay as a result of the unused entitlement that has accumulated at the reporting date. The Group treats accumulated leave expected to be carried forward beyond twelve months, as long-term employee benefit for measurement purposes. Such long term compensated absences are provided for based on actuarial valuation. The actuarial valuation is done as per projected unit credit method at the year-end.

3.8 Inventories

Inventories are valued at lower of historical cost or net realizable value. Cost of inventories comprises of cost of purchase, cost of conversion and other costs incurred in bringing them to their respective present location and condition. Materials and other supplies held for use in the production of inventories are not written down below cost if the finished products in which they will be incorporated are expected to be sold at or above cost. However, when there has been a decline in the price of materials and it is estimated that the cost of the finished products will exceed net realizable value, the materials are written down to net realizable value. In such circumstances, the replacement cost of the material may be the best available measure of their net realizable value.

Historical cost is determined on the basis of real time weighted average method.

Net realizable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and estimated costs necessary to make the sale.

3.9 Revenue recognition and other income:

Group derives revenues primarily from sale of manufactured goods, traded goods and related services.

Revenue towards satisfaction of a performance obligation is measured at the amount of transaction price (net of variable consideration) allocated to that performance obligation. The transaction price of goods sold and services rendered is net of variable consideration on account of discounts.

Revenue is recognised on satisfaction of performance obligation upon transfer of control of promised products or services to customers in an amount that reflects the consideration the Group expects to receive in exchange for those products or services.

Revenue is measured based on transaction price which is fair value of the consideration received or receivable, after deduction of any discounts, sales incentives / schemes and any taxes or duties collected on behalf of the government such as goods and services tax, etc. Accumulated experience is used to estimate the provision for such discounts and sales incentives / schemes. Revenue is only recognised to the extent that it is highly probable a significant reversal will not occur.

Sale of goods:

Revenue from operations is recognised in respect of export sales on the basis of shipment of goods to customer and in respect of domestic sales on dispatch from factory.

Sale of services:

Revenues from sale of services are recognized as per the term of contract with customers based on stage of completion when the outcome of the transactions involving rendering of services can be estimated reliably. Percentage-of-completion method requires the Group to estimate the services performed to date as a proportion of the total services to be performed.

Other income:

Incentives on exports and other Government incentives related to operations are recognised in the statement of profit or loss after due consideration of certainty of utilization/receipt of such incentives.

The quantum of accruals in respect of claims receivable such as from Railways, Insurance, Electricity, Customs Excise and the like are accounted for on receipt basis.

Interest income:

Interest income from a financial asset is recognised when it is probable that the economic benefits will flow to the Group and the amount of income can be measured reliably. Interest income is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount on initial recognition.

Dividend income:

Dividend Income is recognised when the right to receive the payment is established.

Corporate guarantee income:

Corporate Guarantee Income is as per the terms of arrangement in the normal course of businesses and settled through receipt.

Contract balances:

Contract assets:

Contract assets are recognized when there is excess of revenue earned over billings on contracts. Contract assets are classified as unbilled receivables (only act of invoicing is pending) when there is unconditional right to receive cash, and only passage of time is required, as per contractual terms.

Contract liabilities:

A contract liability is the obligation to transfer goods or services to a customer for which the Group has received consideration (or an amount of consideration is due) from the customer. If a customer pays consideration before the Group transfers goods or services to the customer, a contract liability is recognised when the payment is made or the payment is due (whichever is earlier). Contract liabilities are recognised as revenue when the Group performs under the contract.

3.10 Foreign currency transactions

Initial recognition

Foreign currency transactions are recorded on initial recognition in the functional currency, using the exchange rate at the date of the transaction.

Conversion:

Foreign currency monetary items are translated using the exchange rate prevailing at the reporting date. Non-monetary items, which are measured in terms of historical cost denominated in a foreign currency, are reported using the exchange rate at the date of the transaction. Non-monetary items, which are measured at fair value or other similar valuation denominated in a foreign currency, are translated using the exchange rate at the date when such value was determined.

Exchange differences:

The gain or loss arising on translation of non-monetary items measured at fair value is treated in line with the recognition of the gain or loss on the change in fair value of the item (i.e., translation differences on items whose fair value gain or loss is recognized in other comprehensive income (OCI) or profit or loss are also recognized in OCI or profit or loss, respectively). Foreign exchange differences regarded as an adjustment to borrowing costs are presented in the statement of profit and loss, within finance costs. All other finance gains / losses are presented in the statement of profit and loss on a net basis.

3.11 Taxes

Tax expense comprises current and deferred tax.

Current income-tax:

Current income tax is measured at the amount expected to be paid to the tax authorities in accordance with the Income-Tax Act, 1961 enacted in India. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date.

Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. Current income tax relating to items recognized directly in equity is recognised in equity and not in the statement of profit and loss. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

Deferred tax:

Deferred tax is provided using the balance sheet approach on temporary differences at the reporting date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purpose at reporting date. Deferred income tax assets and liabilities are measured using tax rates and tax laws that have been enacted or substantively enacted by the balance sheet date and are expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect of changes in tax rates on deferred income tax assets and liabilities is recognized as income or expense in the period that includes the enactment or the substantive enactment date. A deferred income tax asset is recognized to the extent that it is probable that future taxable profit will be available against which the deductible temporary differences and tax losses can be utilized.

The carrying amount of deferred tax assets are reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax assets to be utilised. Unrecognised deferred tax assets are reassessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow deferred tax assets to be recovered.

The Group offsets current tax assets and current tax liabilities, where it has a legally enforceable right to set off the recognized amounts and where it intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously.

3.12 Provisions, contingent liabilities and contingent assets

Provisions are recognized when the Group has a present obligation (legal or constructive) as a result of a past event and it is probable that the outflow of resources embodying economic benefits will be required to settle the obligation in respect of which reliable estimate can be made of the amount of the obligation. When the Group expects some or all of a provision to be reimbursed, the expense relating to provision presented in the statement of profit & loss is net of any reimbursement.

If the effect of the time value of money is material, provisions are disclosed using a current pre-tax rate that reflects, when appropriate, the risk specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognized as finance cost.

Mines reclamation liability

The Group records a provision for mines reclamation cost until the closure of mine. Mines reclamation costs are provided at the present value of expected costs to settle the obligation using estimated cash flows, with a corresponding amount being capitalised at the start of each project. The cash flows are discounted at a current pre-tax rate that reflects the risks specific to the mine reclamation liability. The unwinding of the discount is expensed as incurred and recognised in the statement of profit and loss as a finance cost. The estimated future costs of mine reclamation are reviewed annually and adjusted as appropriate. Changes in the estimated future costs or in the discount rate applied are capitalised in property, plant and equipment and are depreciated over the estimated commercial life of the related asset based on the unit of production method.

Contingent liability:

Contingent liability is disclosed in the notes in case of:

- a. There is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Group.
- b. A present obligation arising from past event, when it is not probable that an outflow of resources will be required to settle the obligation.
- c. A present obligation arises from the past event, when no reliable estimate is possible.
- d. A present obligation arises from the past event, unless the probability of outflow are remote.

Contingent assets:

A contingent asset is disclosed, where an inflow of economic benefits is probable.

3.13 Cash and cash equivalents

Cash and cash equivalents includes cash on hand and at bank, deposits held at call with banks, other short-term highly liquid investments with original maturities of three months or less that are readily convertible to a known amount of cash and are subject to an insignificant risk of changes in value.

3.14 Financial Instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instruments of another entity.

Investment and other Financial Assets

Classification

The Group classifies its financial assets in the following measurement categories:

- those to be measured subsequently at fair value (either through Other Comprehensive Income or through profit or loss) and
- those measured at amortised cost.

The classification depends on the entity's business model for managing the financial assets and the contractual terms of the cash flows.

For assets measured at fair value, gains and losses will either be recorded in the statement of profit and loss or Other Comprehensive Income. For investments in debt instruments, this will depend on the business model in which the investment is held. For investments in equity instruments in subsidiaries, the Group has made an irrevocable election at the time of initial recognition to account for the equity investment at cost.

The Group reclassifies debt investments when and only when its business model for managing those assets changes.

Measurement

At initial recognition, the Group measures financial assets at its fair value plus, in the case of financial asset not at fair value through profit or loss, transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at fair value through profit or loss are expensed in the statement of profit and loss.

Debt instruments

Subsequent measurement of debt instruments depends on the Group's business model for managing the asset and the cash flow characteristics of the asset. There are three measurement categories into which the Group classifies its debt instruments:

Amortised cost: Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortised cost. A gain or loss on a debt investment that is subsequently measured at amortised cost is recognised in the statement of profit and loss when the asset is derecognised or impaired. Interest income from these financial assets is included in other income using the effective interest rate method.

Fair Value through Other Comprehensive Income (FVOCI): Assets that are held for collection of contractual cash flows and for selling the financial assets, where the assets' cash flows represent solely payments of principal and interest, are measured at FVOCI. Movements in the carrying amount are taken through OCI, except for the recognition of impairment gains or losses, interest revenue and foreign exchange gains and losses which are recognised in the Statement of profit and loss. When the financial asset is derecognised, the cumulative gain or loss previously recognised in OCI is reclassified from equity to profit or loss and recognised in other gains/ (losses). Interest income from these financial assets is included in other income using the effective interest rate method.

Fair Value through Profit or Loss (FVTPL): Assets that do not meet the criteria for amortised cost or FVOCI are measured at FVTPL. A gain or loss on a debt investment that is subsequently measured at fair value through profit or loss is recognised in the Statement of profit and loss in the period in which it arises. Interest income from these financial assets is included in other income.

Equity investments

The Group subsequently measures all equity investments at fair value either through FVTPL or FVOCI. Dividends from such investments are recognised in the Statement of profit and loss as other income when the Group's right to receive payments is established.

Changes in the fair value of financial assets at FVTPL are recognised in the statement of profit and loss. Impairment losses (and reversal of impairment losses) on equity investments measured at FVOCI are not reported separately from other changes in fair value.

Impairment of financial assets:

The Group assesses on a forward looking basis the expected credit losses associated with its assets carried at amortised cost. The impairment methodology applied depends on whether there has been a significant increase in credit risk.

For trade receivables only, the Group applies the simplified approach permitted by Ind AS 109, 'Financial Instruments', which requires expected lifetime losses to be recognised from initial recognition of the receivables.

Derecognition of financial assets

A financial asset is derecognised only when:

- The Group has transferred the rights to receive cash flows from the financial asset or
- Retains the contractual rights to receive the cash flows of the financial asset, but assumes a contractual obligation to pay the cash flows to one or more recipients.

Where the entity has transferred an asset, the Group evaluates whether it has transferred substantially all risks and rewards of ownership of the financial asset. In such cases, the financial asset is derecognised. Where the entity has not transferred substantially all risks and rewards of ownership of the financial asset, the financial asset is not derecognised. Where the entity has neither transferred a financial asset nor retains substantially all risks and rewards of ownership of the financial asset, the financial asset is derecognised if the Group has not retained control of the financial asset. Where the Group retains control of the financial asset, the asset is continued to be recognised to the extent of continuing involvement in the financial asset.

Contributed equity

Equity shares are classified as equity. Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax from the proceeds.

Financial Liabilities & Equity

Classification as debt or equity

Debt and equity instruments issued by the Group are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definition of a financial liability and an equity instrument.

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities.

Initial recognition and measurement:

All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs. The Group's financial liabilities include trade and other payables, loans and borrowings including bank overdrafts.

Subsequent measurement:

The measurement of financial liabilities depends on their classification, as described below:

Borrowings: Borrowings are subsequently carried at amortised cost; any difference between the proceeds (net of transaction costs) and the redemption value is recognised in the Statement of Profit and Loss over the period of the borrowings using the effective interest rate method.

Fees paid on the establishment of loan facilities are recognised as transaction costs of the loan to the extent that it is probable that some or all of the facility will be drawdown. In this case, the fee is deferred until the drawdown occurs. To the extent there is no evidence that it is probable that some or all of the facility will be drawdown, the fee is capitalised as a pre-payment for liquidity services and amortised over the period of the facility to which it relates.

Trade and other payables: These amounts represent obligations to pay for goods or services that have been acquired in the ordinary course of business from suppliers. Those payable are classified as current liabilities if payment is due within one year or less otherwise they are presented as non-current liabilities. Trade and other payables are subsequently measured at amortised cost using the effective interest rate method.

Derecognition:

Borrowings are removed from the balance sheet when the obligation specified in the contract is discharged, cancelled or expired. The difference between the carrying amount of a financial liability that has been extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognised in profit or loss as other gains / (losses). When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit and loss.

Borrowings are classified as current liabilities unless the Group has an unconditional right to defer settlement of the liability for at least 12 months after the reporting period. Where there is a breach of a material provision of a long-term loan arrangement on or before the end of the reporting period with the effect that the liability becomes payable on demand on the reporting date, the entity does not classify the liability as current, if the lender agreed, after the reporting period and before the approval of the financial statements for issue, not to demand payment as a consequence of the breach.

Offsetting of financial instrument

Financial Assets and Financial Liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realize the assets and settle the liabilities simultaneously.

Compound Instruments

An issued financial instrument that comprises of both the liability and equity components are accounted as compound financial instruments. The fair value of the liability component is separated from the compound instrument and the residual value is recognised as equity component of other financial instrument. The liability component is subsequently measured at amortised cost, whereas the equity component is not remeasured after initial recognition. The transaction costs related to compound instruments are allocated to the liability and equity components in the proportion to the allocation of gross proceeds. Transaction costs related to equity component is recognised directly in equity and the cost related to liability component is included in the carrying amount of the liability component and amortised using effective interest method.

3.15 Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants on the measurement date. The Group uses valuation techniques that are appropriate in the circumstances for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole.

Level 1 - Quoted (unadjusted) market prices in active markets for identical assets or liabilities.

Level 2 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable.

Level 3 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

3.16 Dividend Distribution

Annual dividend distribution to the shareholders is recognised as a liability in the period in which the dividends are approved by the shareholders. Any interim dividend paid is recognised on approval by Board of Directors. Dividend payable is recognised directly in other equity.

3.17 Discontinued Operation:

A discontinued operation is a component of an entity that either has been disposed of, or is classified as held for sale, and:

- represents a separate major line of business or geographical area of operations,
- is part of a single co-ordinated plan to dispose of a separate major line of business or geographical area of operations.

Discontinued operations are excluded from the results of continuing operations and are presented as profit or loss before / after tax from discontinued operation in the statement of profit and loss.

33 (a) Acquisition of Tyre Undertaking

Pursuant to Order dated October 19, 2023 of Hon'ble National Company Law Tribunal, Kolkata Bench (NCLT), Dalmia Bharat Refractories Limited ('the Parent Company' or 'Transferee Company' or 'Successful Resolution Applicant'), along with Himadri Speciality Chemical Limited ('HSCL') as 'Strategic Partner' had completed the acquisition of Birla Tyres Limited ('Corporate Debtor' or 'Transferor Company') which had undergone the Corporate Insolvency Resolution Process under the Insolvency and Bankruptcy Code, 2016 which was initiated on May 05, 2022. The Resolution Plan dated March 27, 2023 and modified as on July 27, 2023 ('Approved Resolution Plan') was submitted by the Company with HSCL as 'Strategic Partner' and was approved by the NCLT on October 19, 2023. The Approved Resolution Plan also contains Financial Restructuring Scheme (referred to as "FRS Scheme") (Schedule 7 of the Approved Resolution Plan) which provides for treatment of select existing assets and liabilities of the Transferor Company from the Restructuring Appointed Date (i.e. May 05, 2022) and eventual capital reduction of the share capital of the Transferor Company. The above Schemes were filed with Registrar of Companies on November 04, 2023.

Under the Approved Resolution Plan, the Parent Company along with the Strategic Partner became the 100% shareholder of the Corporate Debtor through fresh issue of equity shares.

Pursuant to the approved Resolution Plan and NCLT Order dated October 19, 2023, the Tyre Undertaking (as defined in the Approved Resolution Plan and Schedule 8 - Scheme of Demerger therein) (hereinafter referred to as "Demerger Scheme") of the Corporate Debtor has been demerged into the Company with effect from the Demerger Appointed Date i.e., May 06, 2022. To give effects of the Demerger Scheme, the financial statements of the Group have been restated from the appointed date.

The Group has given effect to accounting in terms of the Approved Resolution Plan and the Scheme of Demerger which provides for accounting as per 'Acquisition Method' method in accordance with Ind AS 103 - Business Combinations read with other accounting standards prescribed under section 133 of the Companies Act, 2013. Accordingly, the assets and liabilities pertaining to the Tyre Undertaking are recorded at their respective fair value as per the Purchase Price Allocation report taken from the Registered Valuer. The difference between the fair value of net identifiable assets acquired and consideration paid on the demerger has been accounted for as Capital Reserve amounting to ₹ 460.25 Crores. In accordance with the Scheme, the purchase consideration of ₹ 10/- will be discharged by issue and allotment of 1 (one) redeemable preference shares of face value ₹ 10/- of the Company to the shareholders of the Transferor Company, other than the Company itself i.e. Strategic Partner namely Himadri Speciality Chemical Ltd.

(ii) Impairment of goodwill

The Group is carrying goodwill (before impairment) in respect of subsidiary companies as follows:

	As at March 31, 2024	As at March 31, 2023
Dalmia GSB Refractories GmbH	-	97.69
Himadri Birla Tyre Manufacturer Private Limited	31.14	31.14
Total Goodwill before impairment	31.14	128.83

The Group performed its annual impairment test for years ended March 31, 2024 and March 31, 2023 on respective dates. The Group considers the relationship between its market value and its book value, among other factors, when reviewing for indicators of impairment. As at March 31, 2023, the market value of the assets held through HBTMPL was below the book value, indicating a potential impairment of goodwill pertaining to HBTMPL.

The recoverable amount of HBTMPL has been determined based on market value of its assets as on March 31, 2023. Basis, the value determined, it was concluded that fair value did not exceed the value in use. As a result of this analysis, management has recognised an impairment charge of ₹ 31.12 crore for the year ended March 31, 2023. The impairment charge has been recorded in Statement of profit and loss.

(e) The impact of above restatement on Profit and Earnings per share, as reported for the previous year figures is as follows:

36 Segment Information

Based on internal reorganization of its business segments, acquisition of Birla Tyres Limited pursuant to Resolution Plan, increased focus and business review carried out by the Whole-time director and CEO (Chief Operating Decision Maker - CODM) of the Group, changed the reportable segments. Now, the Group has identified the two reportable segments, i.e. refractories and tyres. Pursuant to the above change, the Group has restated segment information of comparative year ended March 31, 2023 in consonance with Ind AS 108 - "Operating Segments", including related disclosures.

In view of transfer of its Indian Refractory Business to RHI Magnesita India Ltd ("RHI") which was concluded on January 4, 2023 and disposal of subsidiary company namely Dalmia DSB Germany GmbH, then the Indian Refractory Business and business of subsidiary company have been considered as discontinued operations in accordance with Ind AS 105 (Non-current Assets Held for Sale and Discontinued Operations).

Revenue and expenses directly attributable to segments are reported under each reportable segment. All other expenses which are not attributable or allocable to segments have been disclosed as unallocable expenses.

Assets and liabilities that are directly attributable or allocable to segments are disclosed under each reportable segment. All other assets and liabilities are disclosed as unallocable.

37 Employee Benefits

Gratuity

The Group has a defined benefit gratuity plan. The gratuity is governed by the Payment of Gratuity Act, 1972. Under the Act, employee who has completed five years of service is entitled to gratuity on departure at 15 days salary (last drawn salary) for each completed year of service. The Scheme during the year ended March 31, 2023 was funded through Gratuity Fund Trust with an insurance company in the form of a qualifying insurance policy. During the year ended March 31, 2024, the Scheme is funded only towards Gratuity liability acquired pursuant to Scheme of Demerger {refer note 33(a)}. The Trust is responsible for the administration of the plan assets and for the determination of investment strategy. The Group makes provision of such gratuity asset/ liability in the books of account on the basis of actuarial valuation carried out by an independent actuary.

Post-retirement medical benefits plan ('PRMB')

The Parent Company provides post-retirement medical benefits to its certain retired employees. The plan is not funded by the Parent Company.

Risk Exposure

Defined benefit plans typically expose the Company to actuarial risks such as: Investment Risk, Interest Risk, Longevity Risk and Salary Risk.

Investment Risk

The present value of the defined benefit plan liability is calculated using a discount rate which is determined by reference to market yields at the end of the reporting period on government bonds.

Interest Risk

A decrease in the bond interest rate will increase the plan liability; however, this will be partially offset by an increase in the return on the plan's debt investments.

Longevity Risk

The present value of the defined benefit plan liability is calculated by reference to the best estimate of the mortality of plan participants both during and after their employment. An increase in the life expectancy of the plan participants will increase the plan's liability.

Salary Risk

The present value of the defined plan liability is calculated by reference to the future salaries of plan participants. As such, an increase in the salary of the plan participants will increase the plan's liability.

46 Financial Risk Management

Financial Risk Factors

The Group's operational activities expose to various financial risks i.e. market risk, credit risk and risk of liquidity. The Group realizes that risks are inherent and integral aspect of any business. The primary focus is to foresee the unpredictability of financial markets and seek to minimize potential adverse effects on its financial performance. The Group's senior management oversees the management of these risks and devise appropriate risk management framework for The Group. The senior management provides assurance that The Group's financial risk activities are governed by appropriate policies and procedures and that financial risks are identified, measured and managed in accordance with The Group's policies and risk objectives.

A. Credit Risk :

Credit risk is the risk that a counter party will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Group is exposed to credit risk from its operating activities (primarily trade receivables and advances to suppliers) and from its financing activities, including deposits, investments and other financial instruments.

To manage this, Group periodically assesses the financial reliability of customers, taking into account factors such as credit track record in the market and past dealings with the Group for extension of credit to customer. Company monitors the payment track record of the customers. Outstanding customer receivables are regularly monitored. An impairment analysis is performed at each quarter end on an individual basis for major customers. In addition, a large number of minor receivables are grouped into homogenous groups and assessed for impairment collectively. The maximum exposure to credit risk at the reporting date is the carrying value of each class of financial assets disclosed in note 47. The Group evaluates the concentration of risk with respect to trade receivables as low, the trade receivables are located in several jurisdictions and operate in largely independent markets.

Particulars	As at March 31, 2024		As at March 31, 2023	
	Upto 6 months	More than 6 months	Upto 6 months	More than 6 months
Gross carrying amount (A)	9.61	14.65	144.98	4.94
Expected Credit Losses (B)	-	(0.72)	(0.34)	(1.32)
Net Carrying Amount (A-B)	9.61	13.93	144.64	3.62

Credit risk from balances with banks and financial institutions is managed by The Group's treasury department in accordance with the Group's policy. Investments of surplus funds are made only with approved authorities. Credit limits of all authorities are reviewed by the management on regular basis. All balances with banks and financial institutions is subject to low credit risk due to good credit ratings assigned to The Group. The Group's maximum exposure to credit risk for the components of the balance sheet at March 31, 2024 and March 31, 2023 is the carrying amounts as illustrated in note 47.

B. Liquidity Risk :

The Group's objective is to maintain a balance between continuity of funding and flexibility through the use of debentures, term loan, cash credit facilities and short term loans. The table below summarises the maturity profile of the Group's financial liabilities based on contracted undiscounted payments (excluding transaction cost on borrowings).

Table hereunder provides the current ratios of the Group as at the year end:

Particulars	As at March 31, 2024	As at March 31, 2023
Total current assets	559.51	1,010.23
Total current liabilities	75.40	630.50

C. Market Risk :

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. The Group is exposed to the risk of movements in interest rates, inventory price and foreign currency exchange rates that affects its assets, liabilities and future transactions. The Group is exposed to following key market risks:

i. Interest Rate Risk :

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Group's exposure to the risk of changes in market interest rates relates primarily to the Group's non-current borrowing obligations in the form of non-convertible debentures and term loan carrying floating interest rates.

Particulars	Fixed Rate Borrowing	Variable Rate Borrowing	Total Borrowing
As at March 31, 2024	92.58	489.40	581.98
As at March 31, 2023	89.39	-	89.39

Interest rate sensitivity

The following table demonstrates the sensitivity to a reasonably possible change in interest rates on the unhedged portion of loans and borrowings. With all other variables held constant, the Group's profit before tax is affected through the impact on floating rate borrowings, as follows:

Particulars	Impact on Statement of Profit & Loss	
	For the year ended March 31, 2024	For the year ended March 31, 2023
Interest rate increase by 1%	0.91	-
Interest rate decrease by 1%	(0.91)	-

ii. Foreign Currency Risk :

Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in foreign exchange rates. The Group is exposed to the effects of fluctuation in the prevailing foreign currency exchange rates on its financial position and cash flows. Exposure arises primarily due to exchange rate fluctuations between the functional currency and other currencies from the Group's operating, investing and financing activities.

The details of foreign currency exposure is as follows:

Particulars	Foreign Currency (FC)	FY 2023-24 (in crore)		FY 2022-23 (in crore)	
		In FC	In ₹	In FC	In ₹
Unhedged Foreign Currency

(ii) Fair Valuation techniques used to determine fair value

The Group maintains procedures to value financial assets or financial liabilities using the best and most relevant data available. The fair values of the financial assets and liabilities are included at the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

The following methods and assumptions were used to estimate the fair values:

- Fair value of trade receivable, cash and cash equivalents, other bank balances, trade payables, loans, other financial assets and liabilities are approximate at their carrying amounts largely due to the short-term maturities of these instruments.
- The fair values of non-current borrowings, lease liabilities and other financial liabilities are approximate at their carrying amount due to interest bearing features of these instruments.
- The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.
- Fair values of quoted financial instruments are derived from quoted market prices in active markets.
- The fair value for level 3 instruments is valued using inputs based on information about market participants assumptions and other data that are available.
- The fair value of the remaining financial instruments is determined using discounted cash flow analysis.

(iii) Fair value hierarchy

The Group uses the following hierarchy for determining and disclosing the fair value of financial instruments by valuation techniques:

Level 1 - Quoted prices in active markets for identical assets. It includes fair value of financial instruments traded in active markets and are based on quoted market prices at the balance sheet date.

Level 2 - Inputs, other than quoted prices included within level 1, that are observable for the asset, either directly (that is, as prices) or indirectly (that is, derived from prices). It includes fair value of the financial instruments that are not traded in an active market is determined by using valuation techniques. These valuation techniques maximise the use of observable market data where it is available and rely as little as possible on the Group specific estimates. If all significant inputs required to fair value an instrument are observable then instrument is included in level 2.

Level 3 - Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs). If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3.

(iv) Description of the inputs used in the fair value measurement:

Following table describes the valuation techniques used and key inputs to valuation for level 3 of the fair value hierarchy as at March 31, 2024, March 31, 2023 respectively:

Particulars	As at March 31, 2024	Valuation Technique	Inputs Used	Sensitivity
- Investment in Equity shares (Unquoted)	57.28	DCF Method	Growth rate 4.5% Weighted average cost of capital (WACC) - 18.50%	- 1% increase/(decrease) in growth rate would result in increase/(decrease) in fair value by ₹ 2.73 / ₹ (2.37). 1% increase/(decrease) in WACC would result in (decrease)/increase in fair value by ₹ (5.92) / ₹ 1.72.
- Investments in debt instruments (Unquoted)	266.75	Black Schole Option	Volatility - 35.39% Risk free rate 7.05%	5% increase/(decrease) in volatility would result increase/(decrease) in fair value by ₹ 7.98 / ₹ (8.25) . 1% increase/(decrease) in Risk free rate would result in increase/(decrease) in fair value by ₹ 5.23 / ₹ (5.23) .

Reconciliation of fair value measurement categorised within level 3 of the fair value hierarchy:

Financial assets designated at fair value through other comprehensive income.

Particulars	For the year ended	
	March 31, 2024	March 31, 2023
Opening balance	-	-
Purchase / (Sale) of financial instruments	325.00	-
(Loss) on financial instruments measured at fair value through profit or loss (net)	(0.97)	-
Closing balance	324.03	-

(v) Description of the valuation processes used by the Group for fair value measurement categorised within level 3:

At each reporting date, the Group analyses the movements in the values of financial assets and liabilities which are required to be remeasured or reassessed as per the accounting policies. For this analysis, the Group verifies the major inputs applied in the latest valuation by agreeing the information in the valuation computation to contracts and other relevant documents.

The Group also compares the change in the fair value of each financial asset and liability with relevant external sources to determine whether the change is reasonable. The Group also discusses of the major assumptions used in the valuations.

For the purpose of fair value disclosures, the Group has determined classes of financial assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

48 Capital Management

For the purpose of the Group's capital management, equity includes issued equity capital, securities premium and all other equity reserves attributable to the equity shareholders and net debt includes interest bearing loans and borrowings less cash and cash equivalents. The primary objective of The Group's capital management is to safeguard continuity, maintain a strong credit rating and healthy capital ratios in order to support its business and provide adequate return to shareholders through continuing growth.

The Group manages its capital structure and makes adjustments in light of changes in economic conditions and the requirements of the financial covenants. The funding requirement is met through a mixture of equity, internal accruals, long term borrowings and short term borrowings. The Group monitors capital using a gearing ratio, which is net debt divided by total capital plus net debt.

In order to achieve this overall objective, the Group's capital management, amongst other things, aims to ensure that it meets financial covenants attached to the interest-bearing loans and borrowings that define capital structure requirements.
