INDEPENDENT AUDITOR'S REPORT

TO THE MEMBERS OF SPRAY ENGINEERING DEVICES LIMITED

Report on the Audit of the Consolidated Financial Statements Opinion

We have audited the accompanying consolidated financial statements of SPRAY ENGINEERING DEVICES LIMITED (the "Company") and its subsidiaries (the Company and its subsidiaries together referred to as the "Group") which comprise the Consolidated Balance Sheet as at March 31, 2025, and the Consolidated Statement of Profit and Loss (including Other Comprehensive Income), the Consolidated Statement of Changes in Equity and the Consolidated Statement of Cash Flows for the year ended on that date, and notes to the financial statements, including a summary of material accounting policies and other explanatory information (hereinafter referred to as the "Consolidated Financial Statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Consolidated Financial Statements, give the information required by the Companies Act, 2013 (the "Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act, ("Ind AS") and other accounting principles generally accepted in India, of the consolidated state of affairs of the Group as at March 31, 2025 and their consolidated profit, their consolidated total comprehensive income, their consolidated changes in equity and their consolidated cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit of the Consolidated Financial Statements in accordance with the Standards on Auditing ("SAs") specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ("ICAI") together with the ethical requirements that are relevant to our audit of the Consolidated Financial Statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the Consolidated Financial Statements.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the Consolidated Financial Statements of the current period. In our opinion, there is no Key Audit Matter to be reported.

Information Other than the Financial Statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report including Annexures to Board's Report, Business Responsibility and Sustainability Report, Corporate Governance and Shareholder's Information, but does not include the Consolidated Financial Statements, standalone financial statements and our auditor's report thereon.

Our opinion on the Consolidated Financial Statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Consolidated Financial Statements, our responsibility is to read the other information, consider whether the other information is materially inconsistent with the Consolidated Financial Statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation and presentation of these Consolidated Financial Statements that give a true and fair view of the consolidated financial position, consolidated financial performance including other comprehensive income, consolidated changes in equity and consolidated cash flows of the Group in accordance with the accounting principles generally accepted in India, including Ind AS specified under section 133 of the Act. The respective Boards of Directors/Trustees of the entities included in the Group are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the Consolidated Financial Statements by the Directors of the Company, as aforesaid.

In preparing the Consolidated Financial Statements, the respective Boards of Directors/Trustees of the entities included in the Group are responsible for assessing the ability of the respective entities to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the respective Boards of Directors either intends to liquidate their

respective entities or to cease operations, or have no realistic alternative but to do so.

The respective Boards of Directors/Trustees of the entities included in the Group are also responsible for overseeing the financial reporting process of the Group.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the Consolidated Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Consolidated Financial Statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Consolidated Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company and its subsidiary companies which are companies incorporated in India, has adequate internal financial controls with reference to Consolidated Financial Statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Group to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Consolidated Financial Statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the Consolidated Financial Statements, including the disclosures, and whether the Consolidated Financial Statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities within the Group to express an opinion on the Consolidated Financial Statements.

Materiality is the magnitude of misstatements in the Consolidated Financial Statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the Consolidated Financial Statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the Consolidated Financial Statements.

We communicate with those charged with governance of the Company and such other entities included in the Consolidated Financial Statements of which we are the independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal financial controls that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the Consolidated Financial Statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Other Matters

1. We have not carried out the audit of the two subsidiary Companies namely SED Engineers & Fabricators Private Limited and Sustainable Environment Developers Limited (collectively referred to as "Subsidiaries"), We have relied on the audited financial statements of these subsidiaries namely for the Year ended March 31, 2025, which have been incorporated in the consolidated financial statements. The annual financial statements of subsidiaries reflect total assets of Rs. 41.96 millions as at March 31, 2025 (Previous year Rs. 11.58 millions), total revenues of Rs 229.23 millions (Previous year Rs. 19.82 millions) and net cash inflows/(Outflows) amounting Rs. 1.30 million for the year ended on that date (Previous year Rs. 0.81 million).
2. As per the information and explanations given to us by the Management, the financial statements / financial information of one (1) associate namely, Ipro Sugar Engineering Private Limited, wherein the investment is at Rs. 0.25 million in the consolidated audited financial statements, has not been considered in the consolidated financial statements as it is not material to the Group. In our opinion and according to the information and explanations given to us by the management, the financial information of this associate is not material to the Group.
3. These annual financial statements, as approved by the Board of Directors of the subsidiary companies have been furnished to us by the

management, and our report, in so far as it relates to the amounts included in respect of the subsidiaries, is based solely on the reports of their auditors.

Our opinion on the consolidated financial statements, and our report on Other Legal and Regulatory

Requirements below, is not modified in respect of the above matter with respect to our reliance on the

work done and the report of the other auditors.

Report on Other Legal and Regulatory Requirements

1. As required by Section 143(3) of the Act, based on our audit we report that:

a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit of the aforesaid Consolidated Financial Statements.

b) In our opinion, proper books of account as required by law maintained by the Group, including relevant records relating to preparation of the aforesaid Consolidated Financial Statements have been kept so far as it appears from our examination of those books.

c) The Consolidated Balance Sheet, the Consolidated Statement of Profit and Loss including Other Comprehensive Income, Consolidated Statement of Changes in Equity and the Consolidated Statement of Cash Flows dealt with by this Report are in agreement with the relevant books of account maintained for the purpose of preparation of the Consolidated Financial Statements. In our opinion, the aforesaid Consolidated Financial Statements comply with the Ind AS specified under section 133 of the Act.

d) On the basis of the written representations received from the directors of the Company as on March 31, 2025 taken on record by the Board of Directors of the Company and the reports of the statutory auditors of its subsidiary companies incorporated in India, none of the directors of the Group companies incorporated in India is disqualified as on March 31, 2025 from being appointed as a director in terms of Section 164 (2) of the Act.

e) With respect to the adequacy of the internal financial controls with reference to Consolidated Financial Statements and the operating effectiveness of such controls, refer to our separate Report in "Annexure A" which is based on the auditors' reports of the Company and its subsidiary companies incorporated in India. Our report expresses an unmodified opinion on the adequacy and operating effectiveness of internal financial controls with reference to Consolidated Financial Statements of those companies.

f) With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of section 197(16) of the Act, as amended, in our opinion and to the best of our information and according to the explanations given to us, the remuneration paid by the Company to its directors during the year is in accordance with the provisions of section 197 of the Act.

g) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended in our opinion and to the best of our information and according to the explanations given to us:

h) The Consolidated Financial Statements disclose the impact of pending litigations on the consolidated financial position of the Group. Refer Note 35 to the Consolidated Financial Statements.

ii) The Group did not have any long-term derivative contracts.

iii) There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company and its subsidiary companies incorporated in India.

iv) (a) The respective Managements of the Company and its subsidiaries which are companies incorporated in India, whose financial statements have been audited under the Act, have represented to us that, to the best of their knowledge and belief, no funds (which are material either individually or in the aggregate) have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company or any of such subsidiaries to or in any other person or entity, outside the Group, including foreign entity ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company or any of such subsidiaries ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.

(b) The respective Managements of the Company and its subsidiaries which are companies incorporated in India, whose financial statements have been audited under the Act, have represented to us that, to the best of their knowledge and belief, no funds (which are material either individually or in the aggregate) have been received by the Company or any of such subsidiaries from any person or entity, including foreign entity ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company or any of such subsidiaries shall, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.

(c) Based on the audit procedures that have been considered reasonable and appropriate in the circumstances performed by us on the Company and its subsidiaries which are companies incorporated in India whose financial statements have been audited under the Act, nothing has come to our notice that has caused us to believe that the representations under sub-clause (i) and (ii) of Rule 11(e), as provided under (a) and (b) above, contain any material misstatement.

v) The company has not declared or paid any dividend during the year in contravention of the provisions of section 123 of the Companies Act, 2013. Accordingly, the clause is not applicable.

vi) Based on our examination which included test checks, performed by us on the Company and its subsidiaries incorporated in India, except for the instances mentioned below, have used accounting softwares for maintaining their respective books of account for the financial

year ended March 31, 2025 which has a feature of recording audit trail (edit log) facility and the same has operated throughout the year for all relevant transactions recorded in the softwares. Further, during the course of audit, we have not come across any instance of the audit trail feature being tampered with.

The financial statements of two subsidiaries which are also part to the Consolidated Financial Statements of the Group, have not been audited by us under the provisions of the Act as on date . However we have obtained Audit reports of these companies which have been audited by the Other Auditors, and the companies are in compliance of the reporting.

2. With respect to the matters specified in paragraphs 3(xxi) and 4 of the Companies (Auditor's Report) Order, 2020 (the "Order"/ "CARO") issued by the Central Government in terms of Section 143(11) of the Act, to be included in the Auditor's report, according to the information and explanations given to us, and based on the Auditor's Reports on the financial statements of Company and its subsidiaries as at and for the year ended March 31, 2025, included in the Consolidated Financial Statements of the Group, we report in respect of those companies where audits have been completed under section 143 of the Act, we have not reported any qualifications or adverse remarks. However one of the subsidiary financial statements had emphasis of matter paragraph regarding Net worth erosion.

ANNEXURE "A" TO THE INDEPENDENT AUDITOR'S REPORT

(Referred to in paragraph 1(f) under 'Report on Other Legal and Regulatory Requirements' section of our report to the Members of SPRAY ENGINEERING DEVICES Limited of even date)

Report on the Internal Financial Controls with reference to Consolidated Financial Statements under Clause (i) of sub-section 3 of Section 143 of the Companies Act, 2013 (the "Act")

In conjunction with our audit of the Consolidated Financial Statements of the Company as of and for the year ended March 31, 2025, we have audited the internal financial controls with reference to Consolidated Financial Statements of SPRAY ENGINEERING DEVICES LIMITED (hereinafter referred to as the "Company") and its subsidiary companies, which are companies incorporated in India, as of that date.

Management's Responsibility for Internal Financial Controls

The respective Boards of Directors of the Company and its subsidiary companies, which are companies incorporated in India, are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the respective Companies considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (the "ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor's Responsibility

Our responsibility is to express an opinion on the internal financial controls with reference to Consolidated Financial Statements of the Company and its subsidiary companies, which are companies incorporated in India, based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India ("ICAI") and the Standards on Auditing, prescribed under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls with reference to Consolidated Financial Statements. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to Consolidated Financial Statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to Consolidated Financial Statements and their operating effectiveness. Our audit of internal financial controls with reference to Consolidated Financial Statements included obtaining an understanding of internal financial controls with reference to Consolidated Financial Statements,

assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls with reference to Consolidated Financial Statements of the Company and its subsidiary companies, which are companies incorporated in India.

Meaning of Internal Financial Controls with reference to Consolidated Financial Statements

A company's internal financial control with reference to Consolidated Financial Statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control with reference to Consolidated Financial Statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls with reference to Consolidated Financial Statements

Because of the inherent limitations of internal financial controls with reference to Consolidated Financial Statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to Consolidated Financial Statements to future periods are subject to the risk that the internal financial control with reference to Consolidated Financial Statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the Company and its subsidiary companies, which are companies incorporated in India, have, in all material respects, an adequate internal financial controls system with reference to Consolidated Financial Statements and such internal financial controls with reference to Consolidated Financial Statements were operating effectively as at March 31, 2025, based on the criteria for internal financial control with reference to Consolidated Financial Statements established by the respective companies considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the ICAI.

Disclosure of significant accounting policies [TextBlock]	Textual information (2) [See below]

Textual information (2)

Disclosure of significant accounting policies [Text Block]

1 Corporate Information

Spray Engineering Devices Limited ('SEDL' or 'the company' / 'the parent company') is a public limited company domiciled in India and incorporated under the provisions of Indian Companies Act. The company's registered office is at Plot no. 25, Industrial Area, Phase – II, Chandigarh -160002, India and its corporate office is at Plot No. C-82, Industrial Area, Phase -VII, Mohali – 16055, Punjab, India. The Company is an "Innovative Technological Solutions" provider of manufacturing Equipment for Sugar & Allied Industries and Zero Liquid Discharge (ZLD) solution for Wastewater from two decades, specialized in Vaporization, Condensation, Evaporation, Heat Exchange, Crystallization and Sugar Refining.

The Company caters to both domestic and international markets. Further, the Company also provides design and engineering services.

The Company together with its subsidiaries is hereinafter referred to as "the Group".

2 Material Accounting Policies

This note provides a list of the material accounting policies adopted in the preparation of these financial statements.

2.1 Basis of preparation

(a) Statement of compliance

These consolidated financial statements have been prepared to comply in all material respects with the Indian Accounting Standards ("Ind AS") as prescribed under Section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015 (as amended from time to time), presentation requirements of Division II of Schedule III to the Companies Act, 2013, as applicable to the consolidated financial statements and other relevant provisions of the Act.

These financial statements were approved for issue by the Company's Board of Directors on October 7, 2025 .

Function and presentation currency

The functional currency of the Company is the Indian rupee. These consolidated financial statements are presented in Indian rupees. All amounts have been rounded-off to the nearest millions, up to two places of decimal, unless otherwise indicated.

Basis of measurement

These consolidated financial statements have been prepared on the historical cost basis except for the following items, which are measured on alternative basis on each reporting date:

Items	Measurement basis
Derivative financial instruments at fair value through profit or loss	Fair value
Certain non-derivative financial instruments at fair value through profit or loss and fair value through other comprehensive income	Fair value
Defined benefit plan assets	Fair value
Equity settled share-based payment transactions	Grant date Fair value

(b) Use of estimates and judgements

In preparation of these financial statements, management has made judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses and the disclosure of contingent liabilities on the date of the Consolidated Financial Statements. Actual results could differ from those estimates. Estimates and underlying assumptions are

reviewed on an ongoing basis. Any revision to accounting estimates is recognized prospectively in current and future periods.

Detailed information about each of these estimates and judgements is included in relevant notes.

The areas involving critical estimates and judgements are:

- Estimation of current tax expense and payable
- Estimation of defined benefit obligation
- Recognition of revenue
- Recognition of deferred tax assets for carried forward tax losses
- Impairment of trade receivables

(c) Current versus non-current classification

The Group presents assets and liabilities in the Consolidated Statement of Assets and Liabilities based on current/non-current classification.

An asset is treated as current when it is:

- Expected to be realized or intended to be sold or consumed in normal operating cycle.
- Held primarily for the purpose of trading.
- Expected to be realized within twelve months after the reporting period, or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is current when:

- It is expected to be settled in a normal operating cycle.
- It is held primarily for the purpose of trading.
- It is due to be settled within twelve months after the reporting period, or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

The Group classifies all other liabilities as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

The operating cycle is the time between the acquisition of assets for processing and their realization in cash and cash equivalents. The group has identified twelve months as its operating cycle.

(d) Basis of consolidation

The Consolidated Financial Statements comprises the financial statements of the Parent Company and its subsidiaries as at 31 March 2025. The Company determines the basis of control in line with the requirement of Ind AS 110 Consolidated Financial Statements. Subsidiaries are entities controlled by the Company.

The Company controls an entity when it is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity.

Specifically, the Company controls an entity if and only if the Company has:

- Power over the entity (i.e. existing rights that give it the current ability to direct the relevant activities of the entity)
 - Exposure, or rights, to variable returns from its involvement with the entity, and
 - The ability to use its power over the entity to affect its returns

Generally, there is a presumption that a majority of voting rights result in control. To support this presumption and when the Group has less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- The contractual arrangement with the other vote holders of the investee.
- Rights arising from other contractual arrangements
- The Group's voting rights and potential voting rights

- The size of the Group's holding of voting rights relative to the size and dispersion of the holdings of the other voting rights holders.

The Group re-assesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control.

Subsidiaries considered in consolidation :

Name of subsidiary	Country of incorporation	Percentage of ownership	
31 March 2025	31 March 2024		
SED Engineers & Fabricators Private Limited	India	100%	100%
Sustainable Environment Developers Limited	India	100%	100%

The financial statements/financial information of one (1) associate namely, IPRO Sugar Engineering Private Limited, wherein the parent invested INR 0.25 million has not been considered in the consolidated financial statements as it is not material to the Group.

Consolidation procedure:

The Consolidated financial statements are prepared using uniform accounting policies for like transactions and other events in similar circumstances. If a member of the Group uses accounting policies other than those adopted in the consolidated financial statements for like transactions and events in similar circumstances, appropriate adjustments are made to that Group member's financial statement in preparing the consolidated financial statements to ensure conformity with the Group's accounting policies.

The financial statements of all entities used for the purpose of consolidation are drawn up to same reporting date as that of the parent company. When the end of the reporting period of the parent is different from that of a subsidiary, the subsidiary prepares, for consolidation purposes, additional financial information as of the same date as the financial statements of the parent to enable the parent to consolidate the financial information of the subsidiary, unless it is impracticable to do so.

- Combine like items of assets, liabilities, equity, income, expenses and cash flows of the parent with those of its subsidiaries. For this purpose, the income and expenses of the subsidiary are based on the amounts of the assets and liabilities recognized in the consolidated financial statements at the acquisition date.
- Offset (eliminate) the carrying amount of the parent's investment in each subsidiary and the parent's portion of equity of each subsidiary. Business combinations policy explains how to account for any related goodwill.
- Intra-group balances and transactions, and any unrealized income and expenses arising from intra-group transactions, are eliminated. Unrealized gains arising from transactions with equity accounted investees are eliminated against the investment to the extent of the Group's interest in the investee. Unrealized losses are eliminated in the same way as unrealized gains, but only to the extent that there is no evidence of impairment.

Business Combinations

Business combinations are accounted for using the acquisition accounting method as at the date of the acquisition, which is the date at which control is transferred to the Group. The consideration transferred in the acquisition and the identifiable assets acquired and liabilities assumed are recognized at fair values on their acquisition date. Goodwill is initially measured at cost, being the excess of the aggregate of the consideration transferred and the amount recognized for non-controlling interests, and any previous interest held, over the net identifiable assets acquired and liabilities assumed. In case of leases acquired as part of business combination, the Group measures a right-of-use asset at the same amount as the lease liability. However, if the lease terms are favorable or unfavorable when compared with market terms, then the right-of-use asset is adjusted by the fair value of the off-market terms. The Group recognizes any non-controlling interest in the acquired entity on an acquisition-by acquisition basis either at fair value or at the non-controlling interest's proportionate share of the acquired entity's net identifiable assets. Consideration transferred does not include amounts related to settlement of pre-existing relationships. Such amounts are recognized in the Consolidated Statement of Profit and Loss. Transaction costs are expensed as incurred, other than those incurred in relation to the issue of debt or equity securities. Any contingent consideration payable is measured at fair value at the acquisition date. Subsequent changes in the fair value of contingent consideration are recognized in the Consolidated Statement of Profit and Loss.

Subsidiaries

Subsidiaries are entities controlled by the Group. The Group controls an entity when it is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. The financial statements of subsidiaries are included in the Consolidated Financial Statements from the date on which control commences until the date on which control ceases.

Loss of control

When the Group loses control over a subsidiary, it derecognizes the assets and liabilities of the subsidiary, and any related NCI and other components of equity. Any interest retained in the former subsidiary is measured at fair value at the date the control is lost. Any resulting gain or loss is recognized in the Consolidated Statement of Profit and Loss.

2.2 Property, plant and equipment

· Recognition and measurement

Items of property, plant and equipment are measured at cost of acquisition or construction less accumulated depreciation and/or accumulated impairment loss, if any. The cost of an item of property, plant and equipment comprises its purchase price, including import duties and other non-refundable taxes or levies and any directly attributable cost of bringing the asset to its working condition for its intended use; any trade discounts and rebates are deducted in arriving at the purchase price. Borrowing costs directly attributable to the construction of a qualifying asset are capitalized as part of the cost.

When parts of an item of property, plant and equipment have different useful lives, they are accounted for as separate items (major components) of property, plant and equipment.

Property, plant and equipment under construction are disclosed as capital work-in-progress.

Advances paid towards the acquisition of property, plant and equipment outstanding at each reporting date are disclosed under 'Other non-current assets'.

· Subsequent costs

The cost of replacing a part of an item of property, plant and equipment is recognized in the carrying amount of the item if it is probable that the future economic benefits embodied within the part will flow to the company and its cost can be measured reliably. The carrying amount of the replaced part is derecognized. The costs of the day-to-day servicing of property, plant and equipment are recognized in the statement of profit and loss as incurred.

· Disposal

An item of property, plant and equipment is derecognized upon disposal or when no future benefits are expected from its use or disposal. Net gains and losses on disposal of an item of property, plant and equipment are determined by comparing the proceeds from disposal with the carrying amount of property, plant and equipment, and are recognized net within other income/ expenses in the statement of profit and loss.

· Depreciation

Depreciation is calculated over the depreciable amount, which is the cost of an asset, or other amount substituted for cost, less its residual value. Depreciation is recognized in the statement of profit and loss on a straight-line basis over the estimated useful lives of each part of an item of property, plant and equipment as prescribed in Schedule II of the Companies Act, 2013, as assessed by the management of the company based on technical evaluation. Freehold land is not depreciated.

Property, plant and equipment acquired under finance leases is depreciated over the shorter of the lease term and their useful lives unless it is reasonably certain that the company will obtain ownership by the end of the lease term.

The estimated useful lives of items of property, plant and equipment for the current and comparative periods are as follows:

Asset	Useful life (in years)
Buildings	30-60
Plant and Machinery	7.5-15
Computers and office equipment	3-5
Motor Vehicles	8
Furniture and fixtures	10

2.3 Intangible assets

· Recognition and measurement

Intangible assets are recognized when the asset is identifiable, is within the control of the company, it is probable that the future economic benefits that are attributable to the asset will flow to the company and cost of the asset can be reliably measured.

Expenditure on research activities is recognized in the statement of profit and loss as incurred. Development expenditure is capitalized only if the expenditure can be measured reliably, the product or process is technically and commercially feasible, future economic benefits are probable, and the company intends to and has sufficient resources to complete development and to use or sell the asset.

Intangible assets acquired by the company that have finite useful lives are measured at cost less accumulated amortization and any accumulated impairment losses. Intangible assets with indefinite useful lives are not amortized, but are tested for impairment annually, either individually or at the cash-generating unit level.

· Subsequent measurement

Subsequent expenditure is capitalized only when it increases the future economic benefits embodied in the specific asset to which it relates.

· Amortization

Amortization is calculated on the cost of the asset, or other amount substituted for cost, less its residual value. Amortization is recognized in the statement of profit and loss on a straight-line basis over the estimated useful lives of intangible assets from the date that they are available for use, since this most closely reflects the expected pattern of consumption of the future economic benefits embodied in the asset.

The estimated useful lives for current and comparative periods are as follows:

Assets	Useful life (in years)
Software	3
Technical know-how	5-10

2.4 Investment Property

Property that is held for long-term rental yields or for capital appreciation or both, and that is not occupied by the company, is classified as investment property.

Investment property is initially measured at cost, including related transaction costs. The cost of investment property includes its purchase price and directly attributable expenditure, if any. Subsequent expenditure is capitalized to the asset's carrying amount only when it is probable that future economic benefits associated with expenditure will flow to the company and the cost of the item can be measured reliably. All other repairs and maintenance costs are expensed when incurred.

After the initial recognition, investment property is stated at cost less accumulated depreciation and accumulated impairment loss, if any. Depreciation on investment property has been provided in a manner that amortizes the cost of the assets over their estimated useful lives on straight line method as per the useful life prescribed under Schedule II to the Act. Investment property in the form of land is not depreciated.

Investment property is derecognized either when it is disposed off or permanently withdrawn from use and no future economic benefit is expected from its disposal. The difference between the net disposal proceeds and the carrying amount of the asset is recognized in the statement of profit and loss in the period of derecognition.

2.5 Impairment of non-financial assets

The company assesses at each balance sheet date whether there is any indication that an asset or cash generating unit (CGU) may be impaired. If any such indication exists, the company estimates the recoverable amount of the asset. The recoverable amount is the higher of an asset's or CGU's fair value less costs of disposal or its value in use. Where the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are considered.

An impairment loss is recognized if the carrying amount of an asset or CGU exceeds its recoverable amount.

Impairment losses are recognized in the statement of profit and loss. They are allocated first to reduce the carrying amount of any goodwill allocated to the CGU, and then to reduce the carrying amounts of the other assets in the CGU on a pro rata basis.

An impairment loss in respect of goodwill is not reversed. For other assets, an impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortization, if no impairment loss had been recognized.

2.6 Inventories

Raw materials, components, stores and spares, work-in-progress and finished goods are valued at lower of cost and net realizable value. However, materials and other items held for use in the production of inventories are not written down below cost if the finished products in which they will be incorporated are expected to be sold at or above cost.

Cost of raw materials, components, stores and spares comprises cost of purchases. Cost of work-in-progress and finished goods comprises direct materials, direct labor and an appropriate proportion of variable and fixed overhead expenditure, the latter being allocated based on normal operating capacity. Cost of inventories also includes all other costs incurred in bringing the inventories to their present location and condition. Costs are assigned to individual items of inventory based on weighted average basis.

Net realizable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and the estimated costs necessary to make the sale.

2.7 Cash and cash equivalents

Cash and cash equivalents in the balance sheet comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

2.8 Revenue recognition

Revenue is recognized when performance obligation is satisfied by transferring control of promised goods or services and to the extent that it is probable that the economic benefits will flow to the company and the revenue can be reliably measured, regardless of when the payment is being made.

Revenue is measured at the transaction price (consideration) allocated to performance obligation adjusted for returns, trade allowances, rebates, and excludes taxes collected from customer on behalf of government and amounts collected on behalf of third parties.

· Contract revenue

Revenue from fixed price contracts is recognized over time, when the outcome of the contract can be estimated reliably by reference to the percentage of completion of the contract on the reporting date under input method. Percentage of completion is determined as a proportion of costs incurred-to-date to the total estimated contract costs. In respect of process technology and design and engineering contracts percentage of completion is measured with reference to the milestones specified in the contract, which in the view of the management reflects the work performed and to the extent it is reasonably certain of recovery.

Contract costs include costs that relate directly to the specific contract and costs that are attributable to the contract activity and allocable to the contract. Costs that cannot be attributed to contract activity are expensed when incurred.

When the final outcome of a contract cannot be reliably estimated, contract revenue is recognized only to the extent of costs incurred that are expected to be recoverable. The provision for expected loss is recognized immediately when it is probable that the total estimated contract costs will exceed total contract revenue.

Variations, claims and incentives are recognized as a part of contract revenue to the extent it is probable that they will result in revenue and are capable of being reliably measured.

Determination of revenues under the percentage of completion method necessarily involves making estimates by the company, some of which are of a technical nature, concerning, where relevant, the percentage of completion, costs to completion, the expected revenues from the project/ activity and the foreseeable losses to completion.

Execution of contracts necessarily extends beyond accounting periods. Revision in costs and revenues estimated during the course of the contract are reflected in the accounting period in which the facts requiring the revision become known.

· Sale of goods and rendering of services

Revenue from sale of goods in the course of ordinary activities is recognized when control of goods is transferred to the customer and no significant uncertainty exists regarding the amount of the consideration that will be derived from the sale of the goods and regarding its collection.

Revenue from services is recognized as and when the related services are performed.

2.9 Other Income

Interest income

Interest income from debt instruments is recognized using effective interest rate method (EIR). EIR is the rate that exactly discounts the estimated future cash payments or receipts over the expected life of the financial instrument or a shorter period, where appropriate, to the gross carrying amount of the financial asset or to the amortized cost of a financial liability.

Dividends

Dividends are recognized in the statement of profit and loss only when the right to receive the payment is established, it is probable that the economic benefits associated with the dividend will flow to the company, and the amount can be measured reliably.

Export benefits

Export benefits in the form of Duty Draw Back/ Merchandise Exports Incentive Scheme (MEIS)/ Service Exports Incentive Scheme (SEIS) claims are recognized in the statement of profit and loss on receipt basis.

2.10 Foreign currency transactions and balances

Transactions in foreign currency are recorded at exchange rates prevailing at the date of transactions. Exchange differences arising on foreign exchange transactions settled during the year are recognized in the statement of profit and loss for the year.

Monetary assets and liabilities denominated in foreign currencies which are outstanding, as at the reporting period, are translated at the closing exchange rates and the resultant exchange differences are recognized in the statement of profit and loss.

Non-monetary assets and liabilities denominated in foreign currencies that are measured in terms of historical cost are translated using the exchange rate at the date of the transaction.

2.11 Employee benefits

· Short-term employee benefit

Employee benefits payable wholly within twelve months of rendering the service are classified as short-term employee benefits and are recognized in the period in which the employee renders the related service.

· Post-employment benefits

Defined contribution plans

Contributions to the provident fund, pension scheme, employee state insurance scheme and superannuation fund, which are defined contribution schemes, are recognized as an employee benefit expense in the statement of profit and loss in the period in which the contribution is due.

Defined benefit plans

The employees' gratuity scheme is a defined benefit plan. The present value of the obligation under such defined benefit plans is determined based on actuarial valuation using the projected unit credit method, which recognizes each period of service as giving rise to additional unit of employee benefit entitlement and measures each unit separately to build up the final obligation.

The obligation is measured at the present value of the estimated future cash flows. The discount rates used for determining the present value of the obligation under defined benefit plans, is based on the market yields on government securities as at the reporting date, having maturity periods approximating to the terms of related obligations.

Remeasurements, comprising of actuarial gains and losses, the effect of the asset ceiling, excluding amounts included in net interest on the net defined benefit liability and the return on plan assets (excluding amounts included in net interest on the net defined benefit liability), are

recognized immediately in the balance sheet with a corresponding debit or credit to retained earnings through other comprehensive income (OCI) in the period in which they occur. Remeasurements are not reclassified to the statement of profit and loss in subsequent periods.

In the case of funded plans, the fair value of the plan's assets is reduced from the gross obligation under the defined benefit plans, to recognize the obligation on net basis.

When the benefits of the plan are changed or when a plan is curtailed, the resulting change in benefits that relates to past service or the gain or loss on curtailment is recognized immediately in the statement of profit and loss. Net interest is calculated by applying the discount rate to the net defined benefit liability or asset. The company recognizes gains/ losses on settlement of a defined plan when the settlement occurs.

Other long-term employee benefits

The liabilities for earned leave are not expected to be settled wholly within twelve months after the end of the reporting period in which the employees render the related service. They are therefore measured as the present value of expected future payments to be made in respect of services provided by employees up to the end of the reporting period using the projected unit credit method as determined by actuarial valuation. The benefits are discounted using the market yields at the end of the reporting period that have terms approximating the terms of the related obligation. Remeasurements as a result of experience adjustments and change in actuarial assumptions are recognized in the statement of profit and loss. The obligations are presented as current liabilities in the balance sheet if the entity does not have an unconditional right to defer settlement for at least twelve months after the reporting period, regardless of when the actual settlement is expected to occur.

Termination benefits

Termination benefits are expensed at the earlier of when the company can no longer withdraw the offer of those benefits and when the company recognizes costs for a restructuring. If benefits are not expected to be settled wholly within 12 months of the reporting date, then they are stated at their present fair value.

2.12 Share-based payments

The grant fair value of equity settled share-based payment awards granted to employees is recognized as employee benefit expense with corresponding increase in equity. The total expense is recognized over the vesting period, which is the period over which all the specified vesting conditions are required to be satisfied. At the end of each reporting period, the company revises its estimates of the number of options that are expected to vest based on the service and non-vesting conditions. It recognizes the impact of the revision to original estimates, if any, in the statement of profit and loss, with a corresponding adjustment to equity.

2.13 Leases

Lease is a contract that provides to the customer (lessee) the right to use an asset for a period of time in exchange for consideration.

a. Company as a Lessee

A lessee is required to recognize assets and liabilities for all leases and to recognize depreciation of leased assets separately from interest on lease liabilities in the statement of Profit and Loss. The Company uses the practical expedient to apply the requirements of Ind as 116 - Leases to a portfolio of leases with similar characteristics if the effect on the financial statements of applying to the portfolio does not differ materially from applying the requirement to the individual leases within that portfolio.

However, according to Ind AS 116, the Company has elected not to recognize right-of-use assets and lease liabilities for leases with a lease term of 12 months or less (short-term leases) and for leases for which the underlying asset is of low value. The lease payments associated with these leases are generally recognized as an expense on a straight-line basis over the lease term or another systematic basis if appropriate.

a.1 Right-of-use asset

Right-of-use assets, which are included under property, plant and equipment, are measured at cost less any accumulated depreciation and, if necessary, any accumulated impairment. The cost of a right-of-use asset comprises the present value of the outstanding lease payments plus any lease payments made at or before the commencement date less any lease incentives received, any initial direct costs and an estimate of costs to be incurred in dismantling or removing the underlying asset. In this context, the Company also applies the practical expedient that the payments for non-lease components are generally recognized as lease payments. If the lease transfers ownership of the underlying asset to the lessee at the end of the lease term or if the cost of the right-of-use asset reflects that the lessee will exercise a purchase option, the right-of-use asset is depreciated to the end of the useful life of the underlying asset. Otherwise, the right-of-use asset is depreciated to the end of the lease term.

a.2 Lease liability

Lease liabilities, which are assigned to financing liabilities, are measured initially at the present value of the lease payments. Subsequent measurement of a lease liability includes the increase of the carrying amount to reflect interest on the lease liability and reducing the carrying amount to reflect the lease payments made.

b. Company as a Lessor

Leases in which the Company does not transfer substantially all the risks and rewards of ownership of an asset are classified as operating leases. Where the Company is a lessor under an operating lease, the asset is capitalized within property, plant and equipment and depreciated over its useful economic life. Payments received under operating leases are recognized in the Statement of profit and Loss on a straight-line basis over the term of the lease.

Critical accounting estimates and judgements

Critical judgements required in the application of Ind AS 116 may include, inter-alia, the following:

- Identifying whether a contract (or part of a contract) includes a lease;
- Determining whether it is reasonably certain that an extension or termination option will be exercised;
- Classification of lease agreements (when the entity is a lessor);
- Determination of whether variable payments are in-substance fixed ;
- Establishing whether there are multiple leases in an arrangement;
- Determining the stand-alone selling prices of lease and non-lease components.

Key sources of estimation uncertainty in the application of Ind AS 116 may include, inter-alia, the following:

- Estimation of the lease term;
- Determination of the appropriate rate to discount the lease payments;
- Assessment of whether a right-of-use asset is impaired.

2.14 Borrowing costs

Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds. Borrowing cost also includes exchange differences to the extent regarded as an adjustment to the borrowing costs.

Borrowing costs directly attributable to the acquisition, construction or production of a qualifying asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized during the period of time that is required to complete and prepare the asset for its intended use or sale. All other borrowing costs are expensed in the period in which they are incurred.

2.15 Income tax

Income tax expense comprises current and deferred tax. It is recognized in the statement of profit and loss except to the extent that it relates to a business combination, or items recognized directly in equity or in OCI.

· Current tax

Current tax assets and liabilities are measured at the amount expected to be recovered from or paid /payable to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted at the reporting date in the country where the company operates and generates taxable income. Current tax assets and liabilities are offset only if there is a legally enforceable right to set off the recognized amounts ,and it is intended to realize the asset and settle the liability on a net basis or simultaneously.

· Deferred tax

Deferred tax is provided using the balance sheet method on temporary differences between the tax base of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

Deferred tax liabilities are recognized for all taxable temporary differences, except:

- When the deferred tax liability arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss;
- Taxable temporary differences arising on the initial recognition of goodwill.

Deferred tax assets are recognized for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognized to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilized, except when the deferred tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilized. Unrecognized deferred tax assets are re-assessed at each reporting date and are recognized to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realized or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

Deferred tax relating to items recognized outside profit or loss is recognized outside profit or loss. Deferred tax items are recognized in correlation to the underlying transaction either in OCI or directly in equity.

In situations where the company is entitled to a tax holiday under the Income-tax Act, 1961 enacted in India or tax laws prevailing in the respective tax jurisdictions where it operates, no deferred tax (asset or liability) is recognized in respect of temporary differences which reverse during the tax holiday period, to the extent the company's gross total income is subject to the deduction during the tax holiday period. Deferred tax in respect of timing differences which reverse after the tax holiday period is recognized in the year in which the timing differences originate. However, the company restricts recognition of deferred tax assets to the extent that it has become reasonably certain or virtually certain, as the case may be, that sufficient future taxable income will be available against which such deferred tax assets can be realized. For recognition of deferred taxes, the temporary differences which originate first are considered to reverse first.

Minimum Alternate Tax ('MAT') under the provisions of the Income -tax Act, 1961 is recognized as current tax in the Statement of Profit and Loss. The credit available under the Act in respect of MAT paid is recognized as an asset only when and to the extent there is convincing evidence that the company will pay normal income tax during the period for which the MAT credit can be carried forward for set-off against the normal tax liability. MAT credit recognized as an asset is reviewed at each balance sheet date and written down to the extent the aforesaid convincing evidence no longer exists. MAT credit entitlement at year end is grouped with Deferred Tax Asset (net) in the Balance Sheet of an entity.

2.16 Provisions , Contingent Liabilities and Contingent assets

A provision is recognized when the company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

The expense relating to a provision is presented in the statement of profit and loss net of any reimbursement. If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognized as a finance cost in the statement of profit and loss.

The amount recognized as a provision is the best estimate of the consideration required to settle the present obligation at the reporting date, taking into account the risks and uncertainties surrounding the obligation. When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, the receivable is recognized as an asset if it is virtually certain that reimbursement will be received, and the amount of the receivable can be measured reliably.

Contingent liability is disclosed when there is:

- a present obligation arising from past events, but it is not probable that an outflow of resources will be required to settle the obligation.
- present obligation arising from past events, when no reliable estimate is possible
- a possible obligation arising from past events where the probability of outflow of resources is not remote.

Contingent assets are not recognized in the financial statements. A contingent asset is disclosed where an inflow of economic benefits is probable.

Contingent liabilities and contingent assets are reviewed at each reporting date and adjusted to reflect the current best estimates.

2.17 Earnings per share (EPS) Basic earnings/ (loss) per share are calculated by dividing the net profit/ (loss) for the period/ year attributable to equity shareholders by the weighted average number of equity shares outstanding during the period/ year. The weighted average number of equity shares outstanding during the period is adjusted for events of bonus issue and share split. For the purpose of calculating diluted earnings/ (loss) per share, the net profit or loss for the period/ year attributable to equity shareholders and the weighted average number of shares outstanding during the period/ year are adjusted for the effects of all dilutive potential equity shares. 2.18 Fair value measurement Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible by the company. The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest. A fair value measurement of a non-financial asset considers a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another. The company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

- Level 1 - Quoted (unadjusted) market prices in active markets for identical assets or liabilities.
- Level 2 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable.
- Level 3 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

For assets and liabilities that are recognized in the financial statements on a recurring basis, the company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

For fair value disclosures, the company has determined classes of assets and liabilities based on the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

2.19 Financial instruments

A financial instrument is any contract that gives rise to the financial asset of one entity and a financial liability or equity instrument of another entity.

Financial assets

Classification

The company classifies its financial assets in the following measurement categories:

- those to be measured subsequently at fair value (either through OCI, or through profit or loss);
- those measured at amortized cost.

The classification depends on the company's business model for managing the financial assets and the contractual terms of cash flows.

For assets measured at fair value, gains and losses will either be recorded in the statement of profit and loss or OCI. For investments in debt instruments, this will depend on the business model in which the investment is held. For investments in equity instruments, this will depend on whether the company has made an irrevocable election at the time of initial recognition to account for equity investment at fair value through OCI.

The company classifies debt investments when and only when its business model for managing those assets changes.

Measurement

All financial assets are initially measured at fair value except trade receivables, as the trade receivables do not contain significant financing components, they are initially measured at transaction price. In the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at fair value through profit or loss are expensed in the statement of profit and loss.

Debt instruments

Subsequent measurement of debt instruments depends on the company's business model for managing the asset and cash flow characteristics of the asset. There are three measurement categories into which the company classifies its debt instruments:

Debt instruments at amortized cost

A 'debt instrument' is measured at the amortized cost if both the following conditions are satisfied:

- The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- The contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

A gain or loss on a debt investment that is subsequently measured at amortized cost and is not part of a hedging relationship is recognized in the statement of profit and loss when the asset is derecognized or impaired. Interest income from these financial assets is included in finance income using effective interest rate (EIR) method.

Debt instruments at fair value through other comprehensive income (FVTOCI)

Assets that are held for collection of contractual cash flows and for selling the financial assets, where the assets' cash flows represent SPPI, are measured at FVTOCI. The movements in the carrying amount are recognized through OCI, except for the recognition of impairment gains and losses, interest revenue and foreign exchange gain or losses which are recognized in the statement of profit and loss. When the financial asset is derecognized, the cumulative gain or loss previously recognized in OCI is reclassified from equity to the statement of profit and loss and recognized in other gains/ losses. Interest income from these financial assets is included in other income using EIR method.

Debt instruments at fair value through profit or loss (FVTPL)

Assets that do not meet the criteria for amortized cost or FVTOCI are measured at FVTPL. A gain or loss on debt instrument that is subsequently measured at FVTPL and is not a part of hedging relationship is recognized in the statement of profit and loss within other gains/ losses in the period in which it arises. Interest income from these financial assets is included in the other income.

Equity investments

All equity investments falling within the definition of "Financial Instruments" as defined in 'Ind AS 109 - Financial instruments' are measured at fair value. Equity instruments which are held for trading are classified as at FVTPL. For all other equity instruments, the Company may make an irrevocable election to recognize subsequent changes in the fair value in OCI. The company makes such election on an instrument-by instrument basis. The classification is made on initial recognition and is irrevocable.

If the company decides to classify an equity instrument as at FVTOCI, then all fair value changes on the instrument, excluding dividends, are recognized in OCI. There is no re-classification of the amounts from OCI to the statement of profit and loss, even on sale of equity instruments.

Equity instruments included within the FVTPL category are measured at fair value with all changes recognized in the statement of profit and loss.

Derecognition

The company derecognizes a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the company neither transfers nor retain substantially all of the risks and rewards of ownership and it does not retain control of the financial assets.

Impairment of financial assets

The company applies expected credit loss (ECL) model for measurement and recognition of impairment loss on the assets carried at amortized cost and FVTOCI debt instruments. The impairment methodology applied depends on whether there has been a significant

increase in credit risk. Note 42 details how the company determines whether there has been a significant increase in credit risk.

For trade receivables only, the company applies the simplified approach permitted by 'Ind AS 109 - Financial instruments', which requires expected lifetime losses to be recognized from initial recognition of the receivables.

Non-derivative financial liabilities

Recognition

The company initially recognizes borrowings, trade payables and related financial liabilities on the date on which they originated.

All other financial instruments (including regular-way purchases and sales of financial assets) are recognized on the trade date, which is the date on which the company becomes a party to the contractual provisions of the instrument.

Measurement

Non-derivative financial liabilities are initially recognized at fair value, net of transaction costs incurred. After initial recognition, these liabilities are measured at amortized cost using EIR method.

Derecognition

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognized in the statement of profit or loss.

Financial guarantee contracts

Financial guarantee contracts are recognized as financial liability at the time the guarantee is issued. The liability is initially measured at fair value and subsequently at the higher of the amount determined in accordance with 'Ind AS 37 - Provisions, contingent liabilities and contingent assets' and the amount initially recognized less cumulative amortization, where appropriate.

The fair value of financial guarantees is determined as the present value of the difference in net cash flows between the contractual payments under the debt instrument and the payments that would be required without the guarantee, or the estimated amount that would be payable to a third party for assuming the obligations.

Offsetting of financial instruments

Financial assets and financial liabilities are offset, and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, to realize the assets and settle the liabilities simultaneously.

2.20 Cash dividend to equity holders

The Company recognizes a liability to make cash distributions to equity holders when the distribution is authorized, and the distribution is no longer at the discretion of the Company. As per the Companies Act, 2013, a distribution is authorized when it is approved by the shareholders. A corresponding amount is recognized directly in equity.

2.21 Government grant

Government grants are recognized at their fair value when there is a reasonable assurance that the grant will be received, and company will comply with all attached conditions.

Government grants relating to income are deferred and recognized in the statement of profit and loss over the period necessary to match them with costs that they are intended to compensate and presented within other income.

Government grants relating to purchase of property, plant and equipment are initially recognized as deferred income at fair value and subsequently recognized in the statement of profit and loss on a systematic basis over the useful life of the asset.

2.22 Recent accounting pronouncements

Ministry of Corporate Affairs ("MCA") notifies new standards or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. For the year ended 31 March 2025, MCA has not notified any new standards or amendments to the existing standards applicable to the Company.

Disclosure of significant accounting policies [Text Block]

1 Corporate Information

Spray Engineering Devices Limited ('SEDL' or 'the company' / 'the parent company') is a public limited company domiciled in India and incorporated under the provisions of Indian Companies Act. The company's registered office is at Plot no. 25, Industrial Area, Phase – II, Chandigarh -160002, India and its corporate office is at Plot No. C-82, Industrial Area, Phase -VII, Mohali – 16055, Punjab, India. The Company is an "Innovative Technological Solutions" provider of manufacturing Equipment for Sugar & Allied Industries and Zero Liquid Discharge (ZLD) solution for Wastewater from two decades, specialized in Vaporization, Condensation, Evaporation, Heat Exchange, Crystallization and Sugar Refining.

The Company caters to both domestic and international markets. Further, the Company also provides design and engineering services.

The Company together with its subsidiaries is hereinafter referred to as "the Group".

2 Material Accounting Policies

This note provides a list of the material accounting policies adopted in the preparation of these financial statements.

2.1 Basis of preparation

(a) Statement of compliance

These consolidated financial statements have been prepared to comply in all material respects with the Indian Accounting Standards ("Ind AS") as prescribed under Section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015 (as amended from time to time), presentation requirements of Division II of Schedule III to the Companies Act, 2013, as applicable to the consolidated financial statements and other relevant provisions of the Act.

These financial statements were approved for issue by the Company's Board of Directors on October 7, 2025 .

Function and presentation currency

The functional currency of the Company is the Indian rupee. These consolidated financial statements are presented in Indian rupees. All amounts have been rounded-off to the nearest millions, up to two places of decimal, unless otherwise indicated.

Basis of measurement

These consolidated financial statements have been prepared on the historical cost basis except for the following items, which are measured on alternative basis on each reporting date:

Items	Measurement basis
Derivative financial instruments at fair value through profit or loss	Fair value
Certain non-derivative financial instruments at fair value through profit or loss and fair value through other comprehensive income	Fair value
Defined benefit plan assets	Fair value
Equity settled share-based payment transactions	Grant date Fair value

(b) Use of estimates and judgements

In preparation of these financial statements, management has made judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses and the disclosure of contingent liabilities on the date of the Consolidated Financial Statements. Actual results could differ from those estimates. Estimates and underlying assumptions are

reviewed on an ongoing basis. Any revision to accounting estimates is recognized prospectively in current and future periods.

Detailed information about each of these estimates and judgements is included in relevant notes.

The areas involving critical estimates and judgements are:

- Estimation of current tax expense and payable
- Estimation of defined benefit obligation
- Recognition of revenue
- Recognition of deferred tax assets for carried forward tax losses
- Impairment of trade receivables

(c) Current versus non-current classification

The Group presents assets and liabilities in the Consolidated Statement of Assets and Liabilities based on current/non-current classification.

An asset is treated as current when it is:

- Expected to be realized or intended to be sold or consumed in normal operating cycle.
- Held primarily for the purpose of trading.
- Expected to be realized within twelve months after the reporting period, or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is current when:

- It is expected to be settled in a normal operating cycle.
- It is held primarily for the purpose of trading.
- It is due to be settled within twelve months after the reporting period, or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

The Group classifies all other liabilities as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

The operating cycle is the time between the acquisition of assets for processing and their realization in cash and cash equivalents. The group has identified twelve months as its operating cycle.

(d) Basis of consolidation

The Consolidated Financial Statements comprises the financial statements of the Parent Company and its subsidiaries as at 31 March 2025. The Company determines the basis of control in line with the requirement of Ind AS 110 Consolidated Financial Statements. Subsidiaries are entities controlled by the Company.

The Company controls an entity when it is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity.

Specifically, the Company controls an entity if and only if the Company has:

- Power over the entity (i.e. existing rights that give it the current ability to direct the relevant activities of the entity)
 - Exposure, or rights, to variable returns from its involvement with the entity, and
 - The ability to use its power over the entity to affect its returns

Generally, there is a presumption that a majority of voting rights result in control. To support this presumption and when the Group has less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- The contractual arrangement with the other vote holders of the investee.
- Rights arising from other contractual arrangements
- The Group's voting rights and potential voting rights

- The size of the Group's holding of voting rights relative to the size and dispersion of the holdings of the other voting rights holders.

The Group re-assesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control.

Subsidiaries considered in consolidation :

Name of subsidiary	Country of incorporation	Percentage of ownership	
31 March 2025	31 March 2024		
SED Engineers & Fabricators Private Limited	India	100%	100%
Sustainable Environment Developers Limited	India	100%	100%

The financial statements/financial information of one (1) associate namely, IPRO Sugar Engineering Private Limited, wherein the parent invested INR 0.25 million has not been considered in the consolidated financial statements as it is not material to the Group.

Consolidation procedure:

The Consolidated financial statements are prepared using uniform accounting policies for like transactions and other events in similar circumstances. If a member of the Group uses accounting policies other than those adopted in the consolidated financial statements for like transactions and events in similar circumstances, appropriate adjustments are made to that Group member's financial statement in preparing the consolidated financial statements to ensure conformity with the Group's accounting policies.

The financial statements of all entities used for the purpose of consolidation are drawn up to same reporting date as that of the parent company. When the end of the reporting period of the parent is different from that of a subsidiary, the subsidiary prepares, for consolidation purposes, additional financial information as of the same date as the financial statements of the parent to enable the parent to consolidate the financial information of the subsidiary, unless it is impracticable to do so.

- Combine like items of assets, liabilities, equity, income, expenses and cash flows of the parent with those of its subsidiaries. For this purpose, the income and expenses of the subsidiary are based on the amounts of the assets and liabilities recognized in the consolidated financial statements at the acquisition date.
- Offset (eliminate) the carrying amount of the parent's investment in each subsidiary and the parent's portion of equity of each subsidiary. Business combinations policy explains how to account for any related goodwill.
- Intra-group balances and transactions, and any unrealized income and expenses arising from intra-group transactions, are eliminated. Unrealized gains arising from transactions with equity accounted investees are eliminated against the investment to the extent of the Group's interest in the investee. Unrealized losses are eliminated in the same way as unrealized gains, but only to the extent that there is no evidence of impairment.

Business Combinations

Business combinations are accounted for using the acquisition accounting method as at the date of the acquisition, which is the date at which control is transferred to the Group. The consideration transferred in the acquisition and the identifiable assets acquired and liabilities assumed are recognized at fair values on their acquisition date. Goodwill is initially measured at cost, being the excess of the aggregate of the consideration transferred and the amount recognized for non-controlling interests, and any previous interest held, over the net identifiable assets acquired and liabilities assumed. In case of leases acquired as part of business combination, the Group measures a right-of-use asset at the same amount as the lease liability. However, if the lease terms are favorable or unfavorable when compared with market terms, then the right-of-use asset is adjusted by the fair value of the off-market terms. The Group recognizes any non-controlling interest in the acquired entity on an acquisition-by acquisition basis either at fair value or at the non-controlling interest's proportionate share of the acquired entity's net identifiable assets. Consideration transferred does not include amounts related to settlement of pre-existing relationships. Such amounts are recognized in the Consolidated Statement of Profit and Loss. Transaction costs are expensed as incurred, other than those incurred in relation to the issue of debt or equity securities. Any contingent consideration payable is measured at fair value at the acquisition date. Subsequent changes in the fair value of contingent consideration are recognized in the Consolidated Statement of Profit and Loss.

Subsidiaries

Subsidiaries are entities controlled by the Group. The Group controls an entity when it is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. The financial statements of subsidiaries are included in the Consolidated Financial Statements from the date on which control commences until the date on which control ceases.

Loss of control

When the Group loses control over a subsidiary, it derecognizes the assets and liabilities of the subsidiary, and any related NCI and other components of equity. Any interest retained in the former subsidiary is measured at fair value at the date the control is lost. Any resulting gain or loss is recognized in the Consolidated Statement of Profit and Loss.

2.2 Property, plant and equipment

· Recognition and measurement

Items of property, plant and equipment are measured at cost of acquisition or construction less accumulated depreciation and/or accumulated impairment loss, if any. The cost of an item of property, plant and equipment comprises its purchase price, including import duties and other non-refundable taxes or levies and any directly attributable cost of bringing the asset to its working condition for its intended use; any trade discounts and rebates are deducted in arriving at the purchase price. Borrowing costs directly attributable to the construction of a qualifying asset are capitalized as part of the cost .

When parts of an item of property, plant and equipment have different useful lives, they are accounted for as separate items (major components) of property, plant and equipment.

Property, plant and equipment under construction are disclosed as capital work-in- progress.

Advances paid towards the acquisition of property, plant and equipment outstanding at each reporting date are disclosed under 'Other non-current assets'.

· Subsequent costs

The cost of replacing a part of an item of property, plant and equipment is recognized in the carrying amount of the item if it is probable that the future economic benefits embodied within the part will flow to the company and its cost can be measured reliably. The carrying amount of the replaced part is derecognized. The costs of the day to-day servicing of property, plant and equipment are recognized in the statement of profit and loss as incurred.

· Disposal

An item of property, plant and equipment is derecognized upon disposal or when no future benefits are expected from its use or disposal. Net gains and losses on disposal of an item of property, plant and equipment are determined by comparing the proceeds from disposal with the carrying amount of property, plant and equipment, and are recognized net within other income/ expenses in the statement of profit and loss.

· Depreciation

Depreciation is calculated over the depreciable amount, which is the cost of an asset, or other amount substituted for cost, less its residual value. Depreciation is recognized in the statement of profit and loss on a straight-line basis over the estimated useful lives of each part of an item of property, plant and equipment as prescribed in Schedule II of the Companies Act, 2013, as assessed by the management of the company based on technical evaluation. Freehold land is not depreciated.

Property, plant and equipment acquired under finance leases is depreciated over the shorter of the lease term and their useful lives unless it is reasonably certain that the company will obtain ownership by the end of the lease term.

The estimated useful lives of items of property, plant and equipment for the current and comparative periods are as follows:

Asset	Useful life (in years)
Buildings	30-60
Plant and Machinery	7.5-15
Computers and office equipment	3-5
Motor Vehicles	8
Furniture and fixtures	10

2.3 Intangible assets

· Recognition and measurement

Intangible assets are recognized when the asset is identifiable, is within the control of the company, it is probable that the future economic benefits that are attributable to the asset will flow to the company and cost of the asset can be reliably measured.

Expenditure on research activities is recognized in the statement of profit and loss as incurred. Development expenditure is capitalized only if the expenditure can be measured reliably, the product or process is technically and commercially feasible, future economic benefits are probable, and the company intends to and has sufficient resources to complete development and to use or sell the asset.

Intangible assets acquired by the company that have finite useful lives are measured at cost less accumulated amortization and any accumulated impairment losses. Intangible assets with indefinite useful lives are not amortized, but are tested for impairment annually, either individually or at the cash-generating unit level.

· Subsequent measurement

Subsequent expenditure is capitalized only when it increases the future economic benefits embodied in the specific asset to which it relates.

· Amortization

Amortization is calculated on the cost of the asset, or other amount substituted for cost, less its residual value. Amortization is recognized in the statement of profit and loss on a straight-line basis over the estimated useful lives of intangible assets from the date that they are available for use, since this most closely reflects the expected pattern of consumption of the future economic benefits embodied in the asset.

The estimated useful lives for current and comparative periods are as follows:

Assets	Useful life (in years)
Software	3
Technical know-how	5-10

2.4 Investment Property

Property that is held for long-term rental yields or for capital appreciation or both, and that is not occupied by the company, is classified as investment property.

Investment property is initially measured at cost, including related transaction costs. The cost of investment property includes its purchase price and directly attributable expenditure, if any. Subsequent expenditure is capitalized to the asset's carrying amount only when it is probable that future economic benefits associated with expenditure will flow to the company and the cost of the item can be measured reliably. All other repairs and maintenance costs are expensed when incurred.

After the initial recognition, investment property is stated at cost less accumulated depreciation and accumulated impairment loss, if any. Depreciation on investment property has been provided in a manner that amortizes the cost of the assets over their estimated useful lives on straight line method as per the useful life prescribed under Schedule II to the Act. Investment property in the form of land is not depreciated.

Investment property is derecognized either when it is disposed off or permanently withdrawn from use and no future economic benefit is expected from its disposal. The difference between the net disposal proceeds and the carrying amount of the asset is recognized in the statement of profit and loss in the period of derecognition.

2.5 Impairment of non-financial assets

The company assesses at each balance sheet date whether there is any indication that an asset or cash generating unit (CGU) may be impaired. If any such indication exists, the company estimates the recoverable amount of the asset. The recoverable amount is the higher of an asset's or CGU's fair value less costs of disposal or its value in use. Where the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are considered.

An impairment loss is recognized if the carrying amount of an asset or CGU exceeds its recoverable amount.

Impairment losses are recognized in the statement of profit and loss. They are allocated first to reduce the carrying amount of any goodwill allocated to the CGU, and then to reduce the carrying amounts of the other assets in the CGU on a pro rata basis.

An impairment loss in respect of goodwill is not reversed. For other assets, an impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortization, if no impairment loss had been recognized.

2.6 Inventories

Raw materials, components, stores and spares, work-in-progress and finished goods are valued at lower of cost and net realizable value. However, materials and other items held for use in the production of inventories are not written down below cost if the finished products in which they will be incorporated are expected to be sold at or above cost.

Cost of raw materials, components, stores and spares comprises cost of purchases. Cost of work-in-progress and finished goods comprises direct materials, direct labor and an appropriate proportion of variable and fixed overhead expenditure, the latter being allocated based on normal operating capacity. Cost of inventories also includes all other costs incurred in bringing the inventories to their present location and condition. Costs are assigned to individual items of inventory based on weighted average basis.

Net realizable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and the estimated costs necessary to make the sale.

2.7 Cash and cash equivalents

Cash and cash equivalents in the balance sheet comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

2.8 Revenue recognition

Revenue is recognized when performance obligation is satisfied by transferring control of promised goods or services and to the extent that it is probable that the economic benefits will flow to the company and the revenue can be reliably measured, regardless of when the payment is being made.

Revenue is measured at the transaction price (consideration) allocated to performance obligation adjusted for returns, trade allowances, rebates, and excludes taxes collected from customer on behalf of government and amounts collected on behalf of third parties.

· Contract revenue

Revenue from fixed price contracts is recognized over time, when the outcome of the contract can be estimated reliably by reference to the percentage of completion of the contract on the reporting date under input method. Percentage of completion is determined as a proportion of costs incurred-to-date to the total estimated contract costs. In respect of process technology and design and engineering contracts percentage of completion is measured with reference to the milestones specified in the contract, which in the view of the management reflects the work performed and to the extent it is reasonably certain of recovery.

Contract costs include costs that relate directly to the specific contract and costs that are attributable to the contract activity and allocable to the contract. Costs that cannot be attributed to contract activity are expensed when incurred.

When the final outcome of a contract cannot be reliably estimated, contract revenue is recognized only to the extent of costs incurred that are expected to be recoverable. The provision for expected loss is recognized immediately when it is probable that the total estimated contract costs will exceed total contract revenue.

Variations, claims and incentives are recognized as a part of contract revenue to the extent it is probable that they will result in revenue and are capable of being reliably measured.

Determination of revenues under the percentage of completion method necessarily involves making estimates by the company, some of which are of a technical nature, concerning, where relevant, the percentage of completion, costs to completion, the expected revenues from the project/ activity and the foreseeable losses to completion.

Execution of contracts necessarily extends beyond accounting periods. Revision in costs and revenues estimated during the course of the contract are reflected in the accounting period in which the facts requiring the revision become known.

· Sale of goods and rendering of services

Revenue from sale of goods in the course of ordinary activities is recognized when control of goods is transferred to the customer and no significant uncertainty exists regarding the amount of the consideration that will be derived from the sale of the goods and regarding its collection.

Revenue from services is recognized as and when the related services are performed.

2.9 Other Income

Interest income

Interest income from debt instruments is recognized using effective interest rate method (EIR). EIR is the rate that exactly discounts the estimated future cash payments or receipts over the expected life of the financial instrument or a shorter period, where appropriate, to the gross carrying amount of the financial asset or to the amortized cost of a financial liability.

Dividends

Dividends are recognized in the statement of profit and loss only when the right to receive the payment is established, it is probable that the economic benefits associated with the dividend will flow to the company, and the amount can be measured reliably.

Export benefits

Export benefits in the form of Duty Draw Back/ Merchandise Exports Incentive Scheme (MEIS)/ Service Exports Incentive Scheme (SEIS) claims are recognized in the statement of profit and loss on receipt basis.

2.10 Foreign currency transactions and balances

Transactions in foreign currency are recorded at exchange rates prevailing at the date of transactions. Exchange differences arising on foreign exchange transactions settled during the year are recognized in the statement of profit and loss for the year.

Monetary assets and liabilities denominated in foreign currencies which are outstanding, as at the reporting period, are translated at the closing exchange rates and the resultant exchange differences are recognized in the statement of profit and loss.

Non-monetary assets and liabilities denominated in foreign currencies that are measured in terms of historical cost are translated using the exchange rate at the date of the transaction.

2.11 Employee benefits

· Short-term employee benefit

Employee benefits payable wholly within twelve months of rendering the service are classified as short-term employee benefits and are recognized in the period in which the employee renders the related service.

· Post-employment benefits

Defined contribution plans

Contributions to the provident fund, pension scheme, employee state insurance scheme and superannuation fund, which are defined contribution schemes, are recognized as an employee benefit expense in the statement of profit and loss in the period in which the contribution is due.

Defined benefit plans

The employees' gratuity scheme is a defined benefit plan. The present value of the obligation under such defined benefit plans is determined based on actuarial valuation using the projected unit credit method, which recognizes each period of service as giving rise to additional unit of employee benefit entitlement and measures each unit separately to build up the final obligation.

The obligation is measured at the present value of the estimated future cash flows. The discount rates used for determining the present value of the obligation under defined benefit plans, is based on the market yields on government securities as at the reporting date, having maturity periods approximating to the terms of related obligations.

Remeasurements, comprising of actuarial gains and losses, the effect of the asset ceiling, excluding amounts included in net interest on the net defined benefit liability and the return on plan assets (excluding amounts included in net interest on the net defined benefit liability), are

recognized immediately in the balance sheet with a corresponding debit or credit to retained earnings through other comprehensive income (OCI) in the period in which they occur. Remeasurements are not reclassified to the statement of profit and loss in subsequent periods.

In the case of funded plans, the fair value of the plan's assets is reduced from the gross obligation under the defined benefit plans, to recognize the obligation on net basis.

When the benefits of the plan are changed or when a plan is curtailed, the resulting change in benefits that relates to past service or the gain or loss on curtailment is recognized immediately in the statement of profit and loss. Net interest is calculated by applying the discount rate to the net defined benefit liability or asset. The company recognizes gains/ losses on settlement of a defined plan when the settlement occurs.

Other long-term employee benefits

The liabilities for earned leave are not expected to be settled wholly within twelve months after the end of the reporting period in which the employees render the related service. They are therefore measured as the present value of expected future payments to be made in respect of services provided by employees up to the end of the reporting period using the projected unit credit method as determined by actuarial valuation. The benefits are discounted using the market yields at the end of the reporting period that have terms approximating the terms of the related obligation. Remeasurements as a result of experience adjustments and change in actuarial assumptions are recognized in the statement of profit and loss. The obligations are presented as current liabilities in the balance sheet if the entity does not have an unconditional right to defer settlement for at least twelve months after the reporting period, regardless of when the actual settlement is expected to occur.

Termination benefits

Termination benefits are expensed at the earlier of when the company can no longer withdraw the offer of those benefits and when the company recognizes costs for a restructuring. If benefits are not expected to be settled wholly within 12 months of the reporting date, then they are stated at their present fair value.

2.12 Share-based payments

The grant fair value of equity settled share-based payment awards granted to employees is recognized as employee benefit expense with corresponding increase in equity. The total expense is recognized over the vesting period, which is the period over which all the specified vesting conditions are required to be satisfied. At the end of each reporting period, the company revises its estimates of the number of options that are expected to vest based on the service and non-vesting conditions. It recognizes the impact of the revision to original estimates, if any, in the statement of profit and loss, with a corresponding adjustment to equity.

2.13 Leases

Lease is a contract that provides to the customer (lessee) the right to use an asset for a period of time in exchange for consideration.

a. Company as a Lessee

A lessee is required to recognize assets and liabilities for all leases and to recognize depreciation of leased assets separately from interest on lease liabilities in the statement of Profit and Loss. The Company uses the practical expedient to apply the requirements of Ind as 116 - Leases to a portfolio of leases with similar characteristics if the effect on the financial statements of applying to the portfolio does not differ materially from applying the requirement to the individual leases within that portfolio.

However, according to Ind AS 116, the Company has elected not to recognize right-of-use assets and lease liabilities for leases with a lease term of 12 months or less (short-term leases) and for leases for which the underlying asset is of low value. The lease payments associated with these leases are generally recognized as an expense on a straight-line basis over the lease term or another systematic basis if appropriate.

a.1 Right-of-use asset

Right-of-use assets, which are included under property, plant and equipment, are measured at cost less any accumulated depreciation and, if necessary, any accumulated impairment. The cost of a right-of-use asset comprises the present value of the outstanding lease payments plus any lease payments made at or before the commencement date less any lease incentives received, any initial direct costs and an estimate of costs to be incurred in dismantling or removing the underlying asset. In this context, the Company also applies the practical expedient that the payments for non-lease components are generally recognized as lease payments. If the lease transfers ownership of the underlying asset to the lessee at the end of the lease term or if the cost of the right-of-use asset reflects that the lessee will exercise a purchase option, the right-of-use asset is depreciated to the end of the useful life of the underlying asset. Otherwise, the right-of-use asset is depreciated to the end of the lease term.

a.2 Lease liability

Lease liabilities, which are assigned to financing liabilities, are measured initially at the present value of the lease payments. Subsequent measurement of a lease liability includes the increase of the carrying amount to reflect interest on the lease liability and reducing the carrying amount to reflect the lease payments made.

b. Company as a Lessor

Leases in which the Company does not transfer substantially all the risks and rewards of ownership of an asset are classified as operating leases. Where the Company is a lessor under an operating lease, the asset is capitalized within property, plant and equipment and depreciated over its useful economic life. Payments received under operating leases are recognized in the Statement of profit and Loss on a straight-line basis over the term of the lease.

Critical accounting estimates and judgements

Critical judgements required in the application of Ind AS 116 may include, inter-alia, the following:

Identifying whether a contract (or part of a contract) includes a lease;

Determining whether it is reasonably certain that an extension or termination option will be exercised;

Classification of lease agreements (when the entity is a lessor);

Determination of whether variable payments are in-substance fixed ;

Establishing whether there are multiple leases in an arrangement;

Determining the stand-alone selling prices of lease and non-lease components.

Key sources of estimation uncertainty in the application of Ind AS 116 may include, inter-alia, the following:

Estimation of the lease term;

Determination of the appropriate rate to discount the lease payments;

Assessment of whether a right-of-use asset is impaired.

2.14 Borrowing costs

Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds. Borrowing cost also includes exchange differences to the extent regarded as an adjustment to the borrowing costs.

Borrowing costs directly attributable to the acquisition, construction or production of a qualifying asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized during the period of time that is required to complete and prepare the asset for its intended use or sale. All other borrowing costs are expensed in the period in which they are incurred.

2.15 Income tax

Income tax expense comprises current and deferred tax. It is recognized in the statement of profit and loss except to the extent that it relates to a business combination, or items recognized directly in equity or in OCI.

· Current tax

Current tax assets and liabilities are measured at the amount expected to be recovered from or paid /payable to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted at the reporting date in the country where the company operates and generates taxable income. Current tax assets and liabilities are offset only if there is a legally enforceable right to set off the recognized amounts ,and it is intended to realize the asset and settle the liability on a net basis or simultaneously.

· Deferred tax

Deferred tax is provided using the balance sheet method on temporary differences between the tax base of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

Deferred tax liabilities are recognized for all taxable temporary differences, except:

- When the deferred tax liability arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss;
- Taxable temporary differences arising on the initial recognition of goodwill.

Deferred tax assets are recognized for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognized to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilized, except when the deferred tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilized. Unrecognized deferred tax assets are re-assessed at each reporting date and are recognized to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realized or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

Deferred tax relating to items recognized outside profit or loss is recognized outside profit or loss. Deferred tax items are recognized in correlation to the underlying transaction either in OCI or directly in equity.

In situations where the company is entitled to a tax holiday under the Income-tax Act, 1961 enacted in India or tax laws prevailing in the respective tax jurisdictions where it operates, no deferred tax (asset or liability) is recognized in respect of temporary differences which reverse during the tax holiday period, to the extent the company's gross total income is subject to the deduction during the tax holiday period. Deferred tax in respect of timing differences which reverse after the tax holiday period is recognized in the year in which the timing differences originate. However, the company restricts recognition of deferred tax assets to the extent that it has become reasonably certain or virtually certain, as the case may be, that sufficient future taxable income will be available against which such deferred tax assets can be realized. For recognition of deferred taxes, the temporary differences which originate first are considered to reverse first.

Minimum Alternate Tax ('MAT') under the provisions of the Income -tax Act, 1961 is recognized as current tax in the Statement of Profit and Loss. The credit available under the Act in respect of MAT paid is recognized as an asset only when and to the extent there is convincing evidence that the company will pay normal income tax during the period for which the MAT credit can be carried forward for set-off against the normal tax liability. MAT credit recognized as an asset is reviewed at each balance sheet date and written down to the extent the aforesaid convincing evidence no longer exists. MAT credit entitlement at year end is grouped with Deferred Tax Asset (net) in the Balance Sheet of an entity.

2.16 Provisions , Contingent Liabilities and Contingent assets

A provision is recognized when the company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

The expense relating to a provision is presented in the statement of profit and loss net of any reimbursement. If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognized as a finance cost in the statement of profit and loss.

The amount recognized as a provision is the best estimate of the consideration required to settle the present obligation at the reporting date, taking into account the risks and uncertainties surrounding the obligation. When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, the receivable is recognized as an asset if it is virtually certain that reimbursement will be received, and the amount of the receivable can be measured reliably.

Contingent liability is disclosed when there is:

- a present obligation arising from past events, but it is not probable that an outflow of resources will be required to settle the obligation.
- present obligation arising from past events, when no reliable estimate is possible
- a possible obligation arising from past events where the probability of outflow of resources is not remote.

Contingent assets are not recognized in the financial statements. A contingent asset is disclosed where an inflow of economic benefits is probable.

Contingent liabilities and contingent assets are reviewed at each reporting date and adjusted to reflect the current best estimates.

2.17 Earnings per share (EPS) Basic earnings/ (loss) per share are calculated by dividing the net profit/ (loss) for the period/ year attributable to equity shareholders by the weighted average number of equity shares outstanding during the period/ year. The weighted average number of equity shares outstanding during the period is adjusted for events of bonus issue and share split. For the purpose of calculating diluted earnings/ (loss) per share, the net profit or loss for the period/ year attributable to equity shareholders and the weighted average number of shares outstanding during the period/ year are adjusted for the effects of all dilutive potential equity shares. 2.18 Fair value measurement Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible by the company. The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest. A fair value measurement of a non-financial asset considers a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another. The company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

- Level 1 - Quoted (unadjusted) market prices in active markets for identical assets or liabilities.
- Level 2 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable.
- Level 3 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

For assets and liabilities that are recognized in the financial statements on a recurring basis, the company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

For fair value disclosures, the company has determined classes of assets and liabilities based on the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

2.19 Financial instruments

A financial instrument is any contract that gives rise to the financial asset of one entity and a financial liability or equity instrument of another entity.

Financial assets

Classification

The company classifies its financial assets in the following measurement categories:

- those to be measured subsequently at fair value (either through OCI, or through profit or loss);
- those measured at amortized cost.

The classification depends on the company's business model for managing the financial assets and the contractual terms of cash flows.

For assets measured at fair value, gains and losses will either be recorded in the statement of profit and loss or OCI. For investments in debt instruments, this will depend on the business model in which the investment is held. For investments in equity instruments, this will depend on whether the company has made an irrevocable election at the time of initial recognition to account for equity investment at fair value through OCI.

The company classifies debt investments when and only when its business model for managing those assets changes.

Measurement

All financial assets are initially measured at fair value except trade receivables, as the trade receivables do not contain significant financing components, they are initially measured at transaction price. In the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at fair value through profit or loss are expensed in the statement of profit and loss.

Debt instruments

Subsequent measurement of debt instruments depends on the company's business model for managing the asset and cash flow characteristics of the asset. There are three measurement categories into which the company classifies its debt instruments:

Debt instruments at amortized cost

A 'debt instrument' is measured at the amortized cost if both the following conditions are satisfied:

- The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- The contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

A gain or loss on a debt investment that is subsequently measured at amortized cost and is not part of a hedging relationship is recognized in the statement of profit and loss when the asset is derecognized or impaired. Interest income from these financial assets is included in finance income using effective interest rate (EIR) method.

Debt instruments at fair value through other comprehensive income (FVTOCI)

Assets that are held for collection of contractual cash flows and for selling the financial assets, where the assets' cash flows represent SPPI, are measured at FVTOCI. The movements in the carrying amount are recognized through OCI, except for the recognition of impairment gains and losses, interest revenue and foreign exchange gain or losses which are recognized in the statement of profit and loss. When the financial asset is derecognized, the cumulative gain or loss previously recognized in OCI is reclassified from equity to the statement of profit and loss and recognized in other gains/ losses. Interest income from these financial assets is included in other income using EIR method.

Debt instruments at fair value through profit or loss (FVTPL)

Assets that do not meet the criteria for amortized cost or FVTOCI are measured at FVTPL. A gain or loss on debt instrument that is subsequently measured at FVTPL and is not a part of hedging relationship is recognized in the statement of profit and loss within other gains/ losses in the period in which it arises. Interest income from these financial assets is included in the other income.

Equity investments

All equity investments falling within the definition of "Financial Instruments" as defined in 'Ind AS 109 - Financial instruments' are measured at fair value. Equity instruments which are held for trading are classified as at FVTPL. For all other equity instruments, the Company may make an irrevocable election to recognize subsequent changes in the fair value in OCI. The company makes such election on an instrument-by instrument basis. The classification is made on initial recognition and is irrevocable.

If the company decides to classify an equity instrument as at FVTOCI, then all fair value changes on the instrument, excluding dividends, are recognized in OCI. There is no re-classification of the amounts from OCI to the statement of profit and loss, even on sale of equity instruments.

Equity instruments included within the FVTPL category are measured at fair value with all changes recognized in the statement of profit and loss.

Derecognition

The company derecognizes a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the company neither transfers nor retain substantially all of the risks and rewards of ownership and it does not retain control of the financial assets.

Impairment of financial assets

The company applies expected credit loss (ECL) model for measurement and recognition of impairment loss on the assets carried at amortized cost and FVTOCI debt instruments. The impairment methodology applied depends on whether there has been a significant

increase in credit risk. Note 42 details how the company determines whether there has been a significant increase in credit risk.

For trade receivables only, the company applies the simplified approach permitted by 'Ind AS 109 - Financial instruments', which requires expected lifetime losses to be recognized from initial recognition of the receivables.

Non-derivative financial liabilities

Recognition

The company initially recognizes borrowings, trade payables and related financial liabilities on the date on which they originated.

All other financial instruments (including regular-way purchases and sales of financial assets) are recognized on the trade date, which is the date on which the company becomes a party to the contractual provisions of the instrument.

Measurement

Non-derivative financial liabilities are initially recognized at fair value, net of transaction costs incurred. After initial recognition, these liabilities are measured at amortized cost using EIR method.

Derecognition

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognized in the statement of profit or loss.

Financial guarantee contracts

Financial guarantee contracts are recognized as financial liability at the time the guarantee is issued. The liability is initially measured at fair value and subsequently at the higher of the amount determined in accordance with 'Ind AS 37 - Provisions, contingent liabilities and contingent assets' and the amount initially recognized less cumulative amortization, where appropriate.

The fair value of financial guarantees is determined as the present value of the difference in net cash flows between the contractual payments under the debt instrument and the payments that would be required without the guarantee, or the estimated amount that would be payable to a third party for assuming the obligations.

Offsetting of financial instruments

Financial assets and financial liabilities are offset, and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, to realize the assets and settle the liabilities simultaneously.

2.20 Cash dividend to equity holders

The Company recognizes a liability to make cash distributions to equity holders when the distribution is authorized, and the distribution is no longer at the discretion of the Company. As per the Companies Act, 2013, a distribution is authorized when it is approved by the shareholders. A corresponding amount is recognized directly in equity.

2.21 Government grant

Government grants are recognized at their fair value when there is a reasonable assurance that the grant will be received, and company will comply with all attached conditions.

Government grants relating to income are deferred and recognized in the statement of profit and loss over the period necessary to match them with costs that they are intended to compensate and presented within other income.

Government grants relating to purchase of property, plant and equipment are initially recognized as deferred income at fair value and subsequently recognized in the statement of profit and loss on a systematic basis over the useful life of the asset.

2.22 Recent accounting pronouncements

Ministry of Corporate Affairs ("MCA") notifies new standards or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. For the year ended 31 March 2025, MCA has not notified any new standards or amendments to the existing standards applicable to the Company.

[611800] Notes - Revenue

Unless otherwise specified, all monetary values are in Millions of INR

	01/04/2024 to 31/03/2025
Disclosure of revenue [TextBlock]	Textual information (6) [See below]

Textual information (6)

Disclosure of revenue [Text Block]

2.2 Revenue recognition

Revenue is recognized when performance obligation is satisfied by transferring control of promised goods or services and to the extent that it is probable that the economic benefits will flow to the company and the revenue can be reliably measured, regardless of when the payment is being made.

Revenue is measured at the transaction price (consideration) allocated to performance obligation adjusted for returns, trade allowances, rebates, and excludes taxes collected from customer on behalf of government and amounts collected on behalf of third parties.

· Contract revenue

Revenue from fixed price contracts is recognized over time, when the outcome of the contract can be estimated reliably by reference to the percentage of completion of the contract on the reporting date under input method. Percentage of completion is determined as a proportion of costs incurred-to-date to the total estimated contract costs. In respect of process technology and design and engineering contracts percentage of completion is measured with reference to the milestones specified in the contract, which in the view of the management reflects the work performed and to the extent it is reasonably certain of recovery.

Contract costs include costs that relate directly to the specific contract and costs that are attributable to the contract activity and allocable to the contract. Costs that cannot be attributed to contract activity are expensed when incurred.

When the final outcome of a contract cannot be reliably estimated, contract revenue is recognized only to the extent of costs incurred that are expected to be recoverable. The provision for expected loss is recognized immediately when it is probable that the total estimated contract costs will exceed total contract revenue.

Variations, claims and incentives are recognized as a part of contract revenue to the extent it is probable that they will result in revenue and are capable of being reliably measured.

Determination of revenues under the percentage of completion method necessarily involves making estimates by the company, some of which are of a technical nature, concerning, where relevant, the percentage of completion, costs to completion, the expected revenues from the project/ activity and the foreseeable losses to completion.

Execution of contracts necessarily extends beyond accounting periods. Revision in costs and revenues estimated during the course of the contract are reflected in the accounting period in which the facts requiring the revision become known.

· Sale of goods and rendering of services

Revenue from sale of goods in the course of ordinary activities is recognized when control of goods is transferred to the customer and no significant uncertainty exists regarding the amount of the consideration that will be derived from the sale of the goods and regarding its collection.

Revenue from services is recognized as and when the related services are performed.

2.3 Other Income

Interest income

Interest income from debt instruments is recognized using effective interest rate method (EIR). EIR is the rate that exactly discounts the estimated future cash payments or receipts over the expected life of the financial instrument or a shorter period, where appropriate, to the gross carrying amount of the financial asset or to the amortized cost of a financial liability.

Dividends

Dividends are recognized in the statement of profit and loss only when the right to receive the payment is established, it is probable that the economic benefits associated with the dividend will flow to the company, and the amount can be measured reliably.

Export benefits

Export benefits in the form of Duty Draw Back/ Merchandise Exports Incentive Scheme (MEIS)/ Service Exports Incentive Scheme (SEIS) claims are recognized in the statement of profit and loss on receipt basis.

Disclosure of employee benefits [Text Block]

2.2 Employee benefits

· Short-term employee benefit

Employee benefits payable wholly within twelve months of rendering the service are classified as short-term employee benefits and are recognized in the period in which the employee renders the related service.

· Post-employment benefits

Defined contribution plans

Contributions to the provident fund, pension scheme, employee state insurance scheme and superannuation fund, which are defined contribution schemes, are recognized as an employee benefit expense in the statement of profit and loss in the period in which the contribution is due.

Defined benefit plans

The employees' gratuity scheme is a defined benefit plan. The present value of the obligation under such defined benefit plans is determined based on actuarial valuation using the projected unit credit method, which recognizes each period of service as giving rise to additional unit of employee benefit entitlement and measures each unit separately to build up the final obligation.

The obligation is measured at the present value of the estimated future cash flows. The discount rates used for determining the present value of the obligation under defined benefit plans, is based on the market yields on government securities as at the reporting date, having maturity periods approximating to the terms of related obligations.

Remeasurements, comprising of actuarial gains and losses, the effect of the asset ceiling, excluding amounts included in net interest on the net defined benefit liability and the return on plan assets (excluding amounts included in net interest on the net defined benefit liability), are recognized immediately in the balance sheet with a corresponding debit or credit to retained earnings through other comprehensive income (OCI) in the period in which they occur. Remeasurements are not reclassified to the statement of profit and loss in subsequent periods.

In the case of funded plans, the fair value of the plan's assets is reduced from the gross obligation under the defined benefit plans, to recognize the obligation on net basis.

When the benefits of the plan are changed or when a plan is curtailed, the resulting change in benefits that relates to past service or the gain or loss on curtailment is recognized immediately in the statement of profit and loss. Net interest is calculated by applying the discount rate to the net defined benefit liability or asset. The company recognizes gains/ losses on settlement of a defined plan when the settlement occurs.

Other long-term employee benefits

The liabilities for earned leave are not expected to be settled wholly within twelve months after the end of the reporting period in which the employees render the related service. They are therefore measured as the present value of expected future payments to be made in respect of services provided by employees up to the end of the reporting period using the projected unit credit method as determined by actuarial valuation. The benefits are discounted using the market yields at the end of the reporting period that have terms approximating the terms of the related obligation. Remeasurements as a result of experience adjustments and change in actuarial assumptions are recognized in the statement of profit and loss. The obligations are presented as current liabilities in the balance sheet if the entity does not have an unconditional right to defer settlement for at least twelve months after the reporting period, regardless of when the actual settlement is expected to occur.

Termination benefits

Termination benefits are expensed at the earlier of when the company can no longer withdraw the offer of those benefits and when the company recognizes costs for a restructuring. If benefits are not expected to be settled wholly within 12 months of the reporting date, then they are stated at their present fair value.

Textual information (8)

Disclosure of defined benefit plans [Text Block]

40. Employee benefits

(a) Defined contribution plans

The Company has recognized INR 21.79 (31 March 2024: INR 17.22) towards post-employment defined contribution plans comprising provident fund and Employee state insurance scheme in the statement of profit and loss.

Particulars	31 March 2025	31 March 2024
Provident Fund	20.67	16.12
ESI Contribution	1.12	1.10

(b) Defined benefit plans

i) Gratuity

The Company operates a Gratuity fund trust which in turn has taken Group Gratuity cum Life Assurance policies with Life Insurance Corporation of India for all the employees. Gratuity is a post-employment benefit and is in the nature of a defined benefit plan.

The liability determined by actuarial valuation using projected unit credit method is recognized in the balance sheet in respect of gratuity is the present value of the defined benefit/obligation at the balance sheet date less the fair value of plan assets, together with adjustment for unrecognized actuarial gains or losses and past service costs. Gains and losses through re-measurements of the net defined benefit liability/(asset) are recognized in other comprehensive income.

In accordance with the standard, the disclosure relating to the Company's gratuity plan are provided below: -

Change in present value of obligations:

Particulars	31 March 2025	31 March 2024
Present value of obligation at the beginning of the year	47.62	35.32
Interest cost	3.19	2.55
Current service cost	7.43	5.92
Benefits Paid	(1.26)	(2.27)
Actuarial (Gain)/Loss	3.82	6.10

Present value of obligation at the end of the year	60.80	47.62
--	-------	-------

Change in the fair value of plan assets:

Particulars	31 March 2025	31 March 2024
Fair value of plan assets at the beginning of the year	1.47	0.76
Expected Interest income	0.10	0.06
Contribution paid by employer	5.12	1.00
Benefits paid	1.26	0.37
Actuarial gain/(loss) on plan assets	-	-
Return on plan assets excluding interest income	0.20	0.02
Fair value of plan assets at the end of the year	5.63	1.47

Amount recognized in Balance sheet:

Particulars	31 March 2025	31 March 2024
Present value of obligation at the end of the year	60.80	47.62
Fair value of plan assets at the end of the year	5.63	1.47
Amount recognized in balance sheet	55.18	46.15
- Current	8.80	7.05
- Non-current	46.38	39.10

Expenses recognized in the statement of profit and loss:

Particulars	31 March 2025	31 March 2024
-------------	---------------	---------------

Current service cost	7.43	5.92
Net interest cost	3.09	2.50
Actuarial (gain)/loss	-	-
Employer's direct benefit payment cost	-	-
Total expense recognized in the profit & loss	10.52	8.42

Amounts recognized in other comprehensive income:

Particulars	31 March 2025	31 March 2024
Actuarial (Gain)/Loss on Obligations	3.82	6.10
Return on plan assets other than amounts included in net interest cost	(0.20)	(0.02)
Net (income)/expense for the period recognized in other comprehensive income	3.62	6.08

Principal actuarial assumptions used in determining gratuity benefit obligations are as follows:

Particulars	31 March 2025	31 March 2024
Discount rate	6.69%	7.24%
Expected rate of increase in compensation levels*	5.96%	7.00%
Expected rate of return on plan assets	6.69%	7.24%
Attrition	10.00%	10.00%

*The estimated rate of increase in compensation levels takes into account inflation, seniority, promotion and other relevant factors such as demand and supply in the employment market.

ii) Leave Encashment

The expected cost of accumulated leaves is determined by actuarial valuation performed by an independent actuary at each balance sheet date

using projected unit credit method on the amount expected to be paid/ availed as a result of the unused entitlement that has accumulated at the balance sheet date. The Company treats the accumulated leave, which is expected to be utilized or paid in next twelve months, as short-term employee benefits. The Company treats accumulated leaves expected to be carried forward beyond twelve months, as long-term employee benefits for measurement purposes. Any gains and losses on actuarial valuation are recognized as expense in the statement of profit and loss.

The disclosure relating to Leave encashment are provided below: -

Change in present value of obligations:

Particulars	31 March 2025	31 March 2024
Present value of obligation at the beginning of the year	16.56	16.40
Interest cost	1.11	1.19
Current service cost	8.56	6.77
Benefits Paid	(3.92)	(5.73)
Actuarial (Gain)/Loss	(4.12)	(2.07)
Present value of obligation at the end of the year	18.19	16.56

Change in the fair value of plan assets:

Particulars	31 March 2025	31 March 2024
Fair value of plan assets at the beginning of the year	-	-
Expected Interest income	-	-
Contribution paid by employer	-	-
Benefits paid	-	-
Actuarial gain/(loss) on plan assets	-	-
Return on plan assets excluding interest income	-	-
Fair value of plan assets at the end of the year	-	-

Amount recognized in Balance sheet:

Particulars	31 March 2025	31 March 2024
Present value of obligation at the end of the year	18.18	16.56
Fair value of plan assets at the end of the year	-	-
Amount recognized in balance sheet	18.18	16.56
- Current	4.36	3.39
- Non-current	13.82	13.17

Expenses recognized in the statement of profit and loss:

Particulars	31 March 2025	31 March 2024
Current service cost	8.56	6.77
Net interest cost	1.11	1.19
Actuarial (gain)/loss	(4.12)	(2.07)
Employer's direct benefit payment cost	-	-
Total expense recognized in the profit & loss	5.55	5.89

Amounts recognized in other comprehensive income:

Particulars	31 March 2025	31 March 2024
Actuarial (Gain)/Loss on Obligations	-	-
Return on plan assets other than amounts included in net interest cost	-	-

Net (income)/expense for the period recognized in other comprehensive income	-	-
--	---	---

Principal actuarial assumptions used in determining leave encashment obligations are as follows:

Particulars	31 March 2025	31 March 2024
Discount rate	6.69%	7.24%
Expected rate of increase in compensation levels*	5.96%	7.00%
Attrition	10.00%	10.00%

*The estimated rate of increase in compensation levels takes into account inflation, seniority, promotion and other relevant factors such as demand and supply in the employment market.
