\*Deferred tax assets are recognised based on reasonable certainty, to the extent that it is probable taxable profits will be available against which deductible temporary differences, carry forward of unabsorbed depreciation and unused tax losses can be utilised. Accordingly, based on reasonable certainty of future estimated taxable profit for next 3 years, the Group has recognised deferred tax assets in certain entities on carry forward losses, unabsorbed depreciation and other temporary differences amounting to INR 4,797.85 million (31 March 2025: INR 7,749.00 million, 31 March 2024: INR 170.80 million and 31 March 2023: INR 158.78 million). Further, the Group has not recognised deferred tax assets amounting to INR 31,398.33 million, INR 32,298.35 million, INR 38,610.50 million and INR 40,024.93 million as of 31 December 2025, 31 March 2025, 31 March 2024 and 31 March 2023, respectively in respect of deductible temporary differences, carry forward of unabsorbed depreciation and available unexpired tax losses as it is not probable that taxable profits will be available in future. The above unexpired tax losses can be carried forward for periods ranging from 3 years to an indefinite period, depending on the region in which the Company or its subsidiaries operate.

The deferred tax liability on temporary differences associated with investments in joint venture has not been recognised. The Group has determined that undistributed profits of its joint venture will not be distributed in the foreseeable future. The Group's joint venture will not distribute its profits until it obtains the consent from all venture partners.

**Notes:**

A contract asset is an entity's right to consideration from a customer for goods or services that have been transferred, where that right is conditional on something other than the passage of time, such as the company's future performance. It is recognized when the entity has performed before receiving payment, but the right to payment is not yet unconditional, so it cannot be recognized as a trade receivable. A contract asset arises when the right to payment is contingent on future performance or events, unlike a trade receivable, which represents an unconditional right to receive cash. An entity recognizes a contract asset when it has satisfied a performance obligation by transferring goods or services to a customer, but the right to payment is condition. This is recorded on the balance sheet until the condition is met, at which point it is reclassified as a receivable.

Contract liabilities are recognised when there is excess of invoicing over revenue earned on contracts with customers. Deferred revenue are classified as contract liabilities where invoicing was made in advance or the advance received from the customers while performance of services is pending. Deferred revenue includes INR 1,347.37 million (31 March 2025: INR 1,060.00, million, 31 March 2024: INR 34.65 million and 31 March 2023: INR 29.81 million) which will realise in more than one year.

However in accordance with Ind AS 102, the Company has recorded employee benefits expense by way of share based payments to employees of INR 661.91 million for the period ended 31 December 2025 (31 March 2025: INR 474.69 million, 31 March 2024: INR 1,806.43 million and 31 March 2023: INR 6,303.86 million).

# on account of termination of lease.

The Group has lease contracts for buildings, software, vehicles and hotel properties. Leases of buildings generally have lease terms between 1 and 9 years, while hotel rooms generally have lease terms between 1 and 11 years and some contracts require the Group to maintain certain financial ratios.

The Group has several lease contracts that include extension and termination options. These options are negotiated by management to provide flexibility in managing the leased-asset portfolio and align with the Group's business needs. Management exercises significant judgement in determining whether these extension and termination options are reasonably certain to be exercised (refer note 45). The Group has several lease contracts with variable lease payments. The Group has used effective interest rate ranging from 12.4% to 13.4% for the purpose of initial recognition of lease. There is no residual value guarantee.

The Group also has certain leases with lease terms of 12 months or less. The Group applies the 'short-term lease' recognition exemptions for these leases.

In September 2016, both parties mutually discussed to terminate the NBTS due to various issues and agreed to execute a fresh term sheet to capture the new construct of the proposed transaction being discussed between the parties, the new terms never materialized.

In January 2018, Zostel invoked the arbitration clause in the NBTS and sought several relief in the arbitration, which included, amongst others, specific performance of the NBTS by the Company by transferring or issuing 7% of its shareholding in its favour. The Company, based on legal advice, disputed the claims in their entirety and contended, among other things, that: (i) the NBTS was non-binding and was merely exploratory in nature, (ii) no definitive documents were executed, (iii) several commercial aspects of the transaction were not finalized, (iv) no part of Zostel's business was transferred to the Company, (v) no key employees were transferred, and (vi) that the relief of specific performance for a determinable contract as sought could not be granted. The Sole Arbitrator has ruled that the NBTS was binding in nature and that the Claimant was entitled to initiate appropriate proceedings for specific performance and execution of the definitive agreements. No further relief(s) were granted to Zostel.

The Group based on legal advice believes that the award is not tenable and the arbitrator neither did pass any directions for issuance of shares of the Company to the shareholders of Zostel and nor did he grant any monetary relief to them, except costs towards the arbitration proceedings which were not quantified. The Company has filed an appeal before the Hon'ble High Court of Delhi challenging the arbitral award and seeking a stay on the implementation of the award on several grounds including but not limited to the Tribunal having no jurisdiction to decide the dispute so raised by Zostel ("Appeal"). On 23 July 2021, Zostel filed an execution petition before the Hon'ble High Court of Delhi followed by an application under section 9 of the Arbitration and Conciliation Act, 1996 seeking interim relief under the award for issue of 7% of the shares of the Company's subsidiary, OYO Hotels and Homes Private Limited, in addition to the issue of 7% of the shareholding of the Company, along with reimbursement of legal costs. The Hon'ble High Court of Delhi issued notice in the Appeal and the aforementioned petitions filed by Zostel.

In August 2021, Zostel filed another application under section 9 of the Arbitration and Conciliation Act, 1996 for restraining the Company from going ahead with its IPO. This application filed by Zostel was dismissed by the Single Judge of the Delhi High Court on 14 February 2022, on the basis that the Award did not grant any right to Zostel to receive shares of OYO ("Section 9 Judgment").

Zostel filed an appeal against the Section 9 Judgment before the Delhi High Court. On March 14, 2022, the Delhi High Court with the consent of the parties, summarily disposed off Zostel's Appeal without going into merits of the case ("Zostel Appeal Order"). As per the Zostel Appeal Order, in the event the Company's petition under Section 34 of the Arbitration and Conciliation Act, 1996 Act is dismissed and Zostel's petition under Section 36 of the Arbitration and Conciliation Act, 1996 is allowed, then Zostel shall either be issued up to 7% of shareholding in the Company or shall be paid the value of such shareholding. While clarifying that the aforesaid arrangement shall abide by the final order to be passed in Sections 34 and 36 petitions filed by the parties, the Delhi High Court in its order noted that the parties are at liberty to pursue appropriate proceedings to protect their respective rights and obligations in accordance with law (including any revisional, writ and/or appellate procedures) in light of the pending Section 34 and Section 36 petitions under the Arbitration and Conciliation Act, 1996. Zostel has agreed to not publicise or communicate the Zostel Appeal Order to any statutory authority.

On 13 May 2025, the Hon'ble High Court of Delhi allowed Oravel's application to set aside the arbitral award under Section 34(2)(b)(ii) of the Arbitration and Conciliation Act, 1996, holding that the award was in conflict with public policy provision. This decision followed a detailed examination of the arbitral award and arguments presented by both parties. Consequently, Zostel's Enforcement Petition was dismissed. Further, Zostel has not filed any appeal against the judgment dated 13 May 2025, which was passed in favour of Oravel by the Hon'ble Delhi High Court.

Following the dismissal of the enforcement petition, Zostel had filed a Special Leave Petition ("SLP") before the Hon'ble Supreme Court of India. The SLP was subsequently dismissed as withdrawn, with liberty granted to Zostel to approach the appropriate forum to pursue available remedies. Thereafter, Zostel filed a petition under Section 37 of the Arbitration and Conciliation Act, 1996 before the Hon'ble High Court on August 12, 2025, challenging the High Court's 2025 order. The Group has already filed its reply to the said application, and the Hon'ble High Court of Delhi. The matter is next listed for hearing on July 08, 2026 for arguments.

- (iv) During 2018, the management of Belvilla (Formerly known as 'Leisure') decided to move a part of assets and functions of Belvilla's VRMC business to Switzerland effective from 1 December 2018, therefore, the tour operating activities were transferred from Netherland to Switzerland. As a result, Belvilla AG ("Newly established Swiss tour operator") in Switzerland acquired those relevant assets & liabilities related to the VRMC business from Belvilla Services B.V. in the Netherlands and entered into service agreements with Belvilla Services B.V. for providing services such as customer services, technical & data services, sales & marketing services and organisational support etc. Effective from 1 December 2018, Belvilla Services B.V. acts solely as a full-service provider to Belvilla AG.
- (a) Above transfer of assets and functions took place prior to acquisition on 'OYO Vacation Homes Holding B.V.' (OVH) (Formerly known as '@Leisure Holdings B.V.') by OYO Group whereby any tax liability upto the extent of Euro 3.75 million has been indemnified by erstwhile shareholder under share purchase agreement. However, during current year, as three years assessment period was getting time barred, in order to retain their rights, Dutch tax authority ("DTA") has sent a communication indicating a potential valuation of such transfer at Euro 67 million (considering 100% transfer of business to Switzerland), which if concluded may result into tax liability in Netherlands at the tax rate of 25%. As of now, the outcome cannot be ascertained as the discussion is ongoing with tax authorities. The management, along with its tax consultant, is engaged with DTA for providing relevant information and replies to their queries. The management is confident of a favourable resolution on this matter.
- (b) Belvilla AG was considered as new supplier of services to the guest. Based on the new business model and in accordance with Dutch and EU VAT law, those services fall within the scope of the "Tour Operator Margin Scheme" and as a result the VAT on those services is to be declared in Switzerland, and not in the Netherlands, or in any other EU member state. Key employees and Board of Directors of Belvilla AG reside in Switzerland, all the Board Meeting and key decision making happened in Switzerland. Belvilla AG does not have a fixed establishment in the Netherlands. Supplies of service made from the Dutch and other EU related entities to Belvilla AG are taxable in Switzerland and not in the Netherlands, or in any other EU member state for that matter.

During the year ended 31 March 2023, as part of employee restructuring process, Group has moved certain functions from Switzerland to India, however, key decision making is still happening from Switzerland. Group believes that such change does not impact the current business model and business substance continues to exist at Switzerland. Hence, the risk of an additional VAT charge from the Dutch tax authorities is not envisaged by management. In its recent communication the DTA communicated, its intent to link the conclusions on the exit taxes to the place of establishment of Belvilla AG for VAT. Based on legal counsel's advice that likelihood of success is high, management believes the proceedings will not significantly impact the Group's financial position

- (v) In case of OYO Hotel Management (Shanghai) Co. Ltd. (one of subsidiary company of the Group) has Value-added Tax ("VAT") contingency amounted to INR 529.33 million (RMB 45.89 million) due to the differences in accounting and tax basis in China geography. Currently the subsidiary company conducts Value-added Tax ("VAT") reporting and payment based on net basis income, while it recognises revenue on gross basis in the financial statements. The different methodologies followed by the subsidiary company in China may be challenged by

the PRC Tax Bureau and may result in additional tax liabilities. After the assessment of the tax position, the directors concluded it is not probable that PRC Tax Bureau will require the subsidiary company to pay tax on gross revenue basis and no provision are required. The subsidiary company has involved leading tax specialist to seek advance ruling from the Tax department. Based on legal counsel's advice that likelihood of success is high, management believes the proceedings will not significantly impact the Group's financial position.

(All amount in INR Millions unless otherwise stated)

During the financial year ended 31 March 2022, the Group has granted ESOPs to few employees based on a criteria which was based on combination of service period and performance based vesting. While the effective date of the grant was 1 October 2021, the communicated related to grant was done on 1 February 2022. In accordance with Ind AS 102, Group has ascertained that the grant date of these options being 1 February 2022, which was date of communication and finalisation of performance goals by Holding Company and costs has been calculated accordingly. During the year ended 31 March 2024, the Holding Company has incurred INR 423.54 million (31 March 2023: INR 3,016.89 million) in respect of these options.

- a. In case of performance linked options, the Group has vested 75% of second tranche of performance linked options and lapsed remaining 25% of options basis approval from Nomination and Remuneration Committee despite the fact that the adjusted EBITDA target achieved 58% during the period.
- b. In case of time-based ESOP, the original vesting condition was 50% of grant at end of year 1 and remaining 50% in equal instalments (12.5%) at end of each quarter during 2nd year. The same was accounted accordingly in earlier quarters. During the year ended 31 March 2023, the Company has revised vesting schedule for this grant as 33% of grant at end of year 1 and 67% of grant during Year 2 (as 6.7% in Quarter 1, 13.4% in Quarter 2, 20.1% in Quarter 3, 26.8% in Quarter 4). Since the extension in vesting period is not beneficial to its employees and total fair value on the modification date has not been increased from fair value on grant date, accordingly, the Company believes that this modification should not be given any effect in books for such modification in the current period.

**The following methods/assumption were used to estimate the fair values;**

- The carrying value of cash and cash equivalents, bank deposit, trade receivable (net of allowance), trade payable, other financial assets and other financial liabilities measured at amortized cost approximate their fair value, due to their short term nature.
- Fair value of quoted mutual fund is based on quoted market price at the reporting date.
- The fair values of the Group's interest-bearing borrowings are determined by using discount rate that reflects the issuer's borrowing rate as at the end of the reporting period.
- The fair value of financial liabilities determined by use of quoted market prices or dealer quotes for similar instruments and generally accepted pricing models based on a discounted cash flow analysis using rates currently available for debt on similar terms, credit risk and remaining maturities.
- The fair value of unquoted equity investments are based on Discounted Cash Flow approach. Multiple of Free Cash Flow (FCF) are considered after applying suitable discounts for size, liquidity and other company specific discounts.

**42. Fair value hierarchy**
**a. The following table provides the fair value measurement hierarchy of the Group's assets and liabilities;**

Specific valuation techniques used to value financial instrument include:

Level 1: Quoted prices (unadjusted) in active market for identical assets and liabilities

Level 2: Input other than quoted prices included within Level 1 that are observable for the assets or liability, either directly (i.e. prices) or indirectly (i.e. derived from prices)

Level 3: Input for the assets or liabilities that are not based on observable market data (unobservable input)

**43. Financial risk management objectives and policies**

The Group's financial liabilities comprise borrowings, trade payables and employee related liabilities. The main purpose of these financial liabilities is to finance the Group's operations and to provide guarantees to support its operations. The Group's financial assets include trade and other receivables and cash and deposits that derive directly from its operations.

The Group is exposed to market risk, credit risk and liquidity risk. The Group's senior management oversees the management of these risks. The Group's senior management is responsible to ensure that Group's financial risk activities are governed by appropriate policies and procedures and that financial risks are identified, measured and managed in accordance with the Group's policies and risk objectives. All activities for risk management purposes are carried out by specialist teams that have the appropriate skills, experience and supervision. It is the Group's policy that no trading in derivatives for speculative purposes may be undertaken. The Board of Directors reviews and agrees policies for managing each of these risks, which are summarized below.

**Market risk**

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: interest rate risk, currency risk and other price risk, such as equity price risk. Financial instruments affected by market risk include borrowings, bank deposits, investments and derivative financial instruments.

The sensitivity of the relevant profit or loss item is the effect of the assumed changes in respective market risks. This is based on the financial assets and financial liabilities held as at 31 December 2025, 31 March 2025, 31 March 2024 and 31 March 2023.

**a. Interest rate risk**

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Group's exposure to the risk of changes in market interest rates relates primarily to the Group's long-term debt obligations with floating interest rates. The Group's investments includes both long term and short term investments, which do not expose it to significant interest rate risk. As at 31 December 2025, 31 March 2025, 31 March 2024 and 31 March 2023, the Group has borrowing at variable rate of interest.

**Interest rate sensitivity**

The following table demonstrates the sensitivity to a reasonably possible change in interest rates on that portion of loans and borrowings affected. With all other variables held constant, the Group's profit before tax is affected through the impact on floating rate borrowings as follows:

**b. Foreign currency risk**

Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in foreign exchange rates. The Group's exposure to the risk of changes in foreign exchange rates relates primarily to the Group's operating activities (when revenue or expense is denominated in a foreign currency), payables for capital expenditure denominated in foreign currency, foreign currency borrowing and the Group's net investments in foreign subsidiaries.

The exchange rate risk primarily arises from assets and liabilities denominated in currencies other than the functional currency of the respective entities and foreign currency forecasted revenue and cash flows. A significant portion of the Group revenue is in Indian Rupees, Chinese Yuan (CNY), Euro (EUR), Singapore Dollar (SGD), Arab Emirates Dirham (AED), United States Dollar (USD) and Great Britain Pound (GBP). The fluctuation in exchange rates in respect to Indian Rupee (INR) may have potential impact on the statement of profit and loss and other comprehensive income and equity. The Group has not hedged any of its foreign exposure.

The rate sensitivity is calculated by aggregation of the net foreign exchange exposure and a simultaneous parallel foreign exchange rates shift of major currencies by 5% against the respective functional currencies of the Company and its subsidiaries. The sensitivity analysis presented below may not be representative of the actual change.

Appreciation/depreciation of 5% in respective foreign currencies with respect to functional currency of the Company and its subsidiaries would result in increase/decrease in the Group's profit/(loss) (including other comprehensive income/(expense)) by approximately INR 5,135.08 million, INR 6,564.28 million, INR 3,967.52 million and INR 3,889.45 million for the period/year ended 31 December 2025, 31 March 2025, 31 March 2024 and 31 March 2023 respectively.

**c. Credit risk**
**-Trade receivable and contract assets**

Credit risk is the risk that counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. Customer credit risk is managed in accordance with the Group's established policy, procedures and controls relating to customer credit risk management. Trade receivables are non-interest bearing and are generally on 30 to 60 days' credit terms. Outstanding customer receivables are regularly monitored. The Group follows a 'simplified approach' (i.e. based on lifetime Expected credit losses (ECL) for

recognition of impairment loss allowance on Trade receivables. A large number of minor receivables are grouped into homogeneous groups and assessed for impairment collectively. For the purpose of measuring lifetime ECL allowance for trade receivables, the Group estimates irrecoverable amounts based on the ageing of the receivable balances and historical experience. The Group, based on past trends, recognises allowance for trade receivables remaining unpaid beyond 90 days (after adjusting subsequent collection) from due date. Further, allowance is also recognised for cases indicating any specific trail of credit loss within the ageing brackets mentioned above. Individual trade receivables are written off when management deems them not to be collectible. Refer Note 9 for the carrying amount of credit exposure as on the reporting date

#### -Other financial assets and cash deposits

Credit risk from balances with banks is managed by the Group's treasury department. Investments of surplus funds are made only with approved counterparties and within credit limits assigned to each counter party. Counterparty credit limits are reviewed by the Group's Treasury Department periodically, and may be updated throughout the year. The limits are intended to minimise the concentration of risks and therefore mitigate financial loss through counterparty's potential failure to make payments. The Group's maximum exposure to credit risk for the components of the balance sheet as at 31 December 2025, 31 March 2025, 31 March 2024 and 31 March 2023 on its carrying amounts as disclosed in notes 6, 7, 10 and 11.

#### d. Price risk

The Group invests its surplus funds in various mutual funds. These comprise of mainly liquid schemes of mutual funds (liquid investments). Mutual fund investments are susceptible to market price risk, mainly arising from changes in the interest rates or market yields which may impact the return and value of such investments. At the reporting date, the fair value of investments in mutual funds is INR 1,417.40 million (31 March 2025: INR 2,808.14 million, 31 March 2024: INR 993.23 million and 31 March 2023: INR 573.01 million). However due to the very short tenor of the underlying portfolio in the liquid schemes, these do not pose any significant price risk.

#### Liquidity risk

Liquidity risk is defined as the risk that the Group will not be able to settle or meet its obligation on time or at a reasonable price. The Group's corporate treasury department is responsible for liquidity and funding as well as settlement management. In addition, processes and policies related to such risk are overseen by Senior management. Management monitors Group net liquidity position through rolling forecasts on the basis of expected cash flows. As at 31 December 2025, 31 March 2025, 31 March 2024 and 31 March 2023, cash and cash equivalents are held with major bank and financial institutions.

The table below provides details regarding the remaining contractual maturities of financial liabilities at the reporting date.

**44. Capital management**

The key objective of the Group's capital management is to ensure that it maintains a stable capital structure with the focus on total equity to uphold investors, creditor and customer confidence and to ensure future development of its business. The Group's focus is to keep strong total equity base to ensure independence, security, as well as a high financial flexibility for potential future borrowings, if required without impacting the risk profile of the Group.

The Group manages its capital structure and makes adjustments in light of changes in economic conditions. To maintain or adjust the capital structure, the Group may return capital to shareholders or issue new shares. The Group monitors capital using a debt equity ratio, which is net debt divided by total equity. The Group's policy is to keep the debt equity ratio at an optimum level to ensure that the debt related covenant are complied with. The Group includes within net debt, all financial liabilities less cash and cash equivalents, other bank balances and investments in mutual funds, bonds and commercial paper.

**45. Key accounting estimates and assumptions**

The preparation of the Group's financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

**Critical accounting estimates and assumptions**

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below.

**a) Impairment of non-financial asset**

Impairment exists when the carrying value of an asset or cash generating unit exceeds its recoverable amount, which is the higher of its fair value less costs of disposal and its value in use. The fair value less costs of disposal calculation is based on available data from binding sales transactions, conducted at arm's length, for similar assets or observable market prices less incremental costs for disposing of the asset. The value in use calculation is based on a discounted cash flow model which are based on the budget for five years. The recoverable amount is sensitive to the discount rate used for the discounted cash flow model as well as the expected future cash-inflows and the growth rate used for extrapolation purposes. For longer periods, a long-term growth rate is calculated and applied to project future cash flows after the fifth year. To estimate cash flow projections beyond periods covered by the most recent budgets/forecasts, the Group extrapolates cash flow projections in the budget using a steady or declining growth rate for subsequent years, unless an increasing rate can be justified. In any case, this growth rate does not exceed the long-term average growth rate for the products, industries, or country or countries in which

the Group operates, or for the market in which the asset is used. Refer note 4 for carrying amount of goodwill and other intangible assets and note 53 for impairment testing of goodwill and other intangible assets.

**b) Defined benefit liabilities (gratuity benefits)**

The cost and present value of the defined benefit gratuity plan are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

The parameter most subject to change is the discount rate. In determining the appropriate discount rate for plans operated in India, the management considers the interest rates of government bonds in currencies consistent with the currencies of the post-employment benefit obligation. For plans operated outside India, the management considers the interest rates of high quality corporate bonds in currencies consistent with the currencies of the post-employment benefit obligation with at least an 'AA' rating or above, as set by an internationally acknowledged rating agency, and extrapolated as needed along the yield curve to correspond with the expected term of the defined benefit obligation. The underlying bonds are further reviewed for quality. Those having excessive credit spreads are excluded from the analysis of bonds on which the discount rate is based, on the basis that they do not represent high quality corporate bonds.

The mortality rate is based on publicly available mortality tables for the specific countries. Those mortality tables tend to change only at interval in response to demographic changes. Future salary increases and changes in gratuity are based on expected future inflation rates for the respective countries.

For further details about employee benefit obligations, refer note 33.

**c) Employee stock option reserve**

The Group initially measures the cost with employees using a binomial model to determine the fair value of the liability incurred. Estimating fair value for share-based payment transactions requires determination of the most appropriate valuation model, which is dependent on the terms and conditions of the grant. This estimate also requires determination of the most appropriate inputs to the valuation model including the expected life of the share option, volatility, employees attrition and dividend yield and making assumptions about them. The Group also needs to estimate the achievement of performance criteria for determination of cost for performance based grants. The assumptions and models used for estimating fair value for share-based payment transactions are disclosed in refer note 40.

**d) Fair value measurement of financial instruments**

When the fair values of financial assets and financial liabilities recorded in the balance sheet cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques including the discounted cash flow model. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgement is required in establishing fair values. Refer note 42 for further details.

**e) Deferred tax asset**

In assessing the realisability of deferred tax assets, the management of the Group estimates whether the Group will earn sufficient taxable profit in future periods. The ultimate realization of deferred tax assets is dependent upon the generation of future taxable income during the periods in which the temporary differences become deductible. The amount of the deferred tax assets considered realizable could be reduced in the near term, if estimates of future taxable income during the carry forward period are reduced. Refer note 17 for further details.

**f) Determining the lease term with renewal and termination option**

The Group determines the lease term as the non-cancellable of the lease, together with any periods covered by an option to extend the lease if it is reasonably certain to be exercised, or any periods covered by an option to terminate the lease if it is reasonably certain not to be exercised. The Group has several lease contracts that include extension and termination options. The Group applies judgement in evaluating whether it is reasonably certain whether or not to exercise the option to renew or terminate the lease. That is, it considers all relevant factors that create an economic incentive for it to exercise either the renewal or termination. After the commencement date, the Group reassesses the lease than if there is a significant event or change in circumstances that is within its control and affects its ability to exercise or not to exercise the option to renew or to terminate (e.g., construction of significant leasehold improvements or significant customization to the leased asset). Lease payments on short-term leases and leases of low-value assets are recognized as expense on a straight-line basis over the lease term. (Refer note 35)

**g) Estimating the incremental borrowing rate**

The Group cannot readily determine the interest rate implicit in the lease, therefore, it uses its incremental borrowing rate (IBR) to measure lease liabilities. The IBR is the rate of interest that the Group would have to pay to borrow over a similar term, and with a similar security, the funds necessary to obtain an asset of a similar value to the right-of-use asset in a similar economic environment. The Group estimates the IBR using observable inputs (such as market interest rates) when available and is required to make certain specific estimates such as Group's credit rating.

**h) Allowance for trade receivable/advances**

For the purpose of measuring the expected credit loss for trade receivables, the Group estimates irrecoverable amounts based on the ageing of the receivable balances and historical experience. Further, a large number of minor receivables are grouped into homogeneous groups and assessed for impairment collectively depending on their significance. Individual trade receivables are written off when management deems them not to be collectible on assessment of facts and circumstances. Refer note 9 for further details

**i) Useful life of property, plant and equipment and intangible assets**

The useful life to depreciate property, plant and equipment and intangible assets are based on technical obsolescence, nature of assets, estimated usage of the assets, operating conditions of the asset, and manufacturers' warranties, maintenance and support period, etc. The charge for the depreciation is derived after considering the expected residual value at end of the useful life. The residual values, useful lives and methods of depreciation/amortisation of property, plant and equipment and intangible assets are reviewed by the management at each financial year end and adjusted prospectively, if appropriate. Further details about property, plant and equipment and intangibles assets are given in note 3 and 4 respectively.

Based on technical evaluation life of certain brands are considered indefinite.

**j) Evaluation of control on investment**

The Group hold certain investments where the group has concluded that the Group doesn't have practical ability to direct the relevant activities of these companies though equity interest held by the group is more than 50% and vice versa.

**k) Revenue from Commission**

The Group recognises revenue on booking, net of a provision for expected sales cancellations. The provision is estimated using historical cancellation patterns, forward-looking information, and other relevant assumptions to ensure that the recognised revenue appropriately reflects the consideration expected to be received.

**l) Business combination assumption**

The purchase price allocation ("PPA") has been carried out in accordance with the requirements of Ind AS 103-"Business Combinations". The determination of the fair values of assets acquired, liabilities assumed and identifiable intangible assets is based on management's best estimates and independent valuer's assessment, using generally accepted valuation methodologies.

Key assumptions and considerations include:

**Valuation Methodologies**

**Relief from royalty method:** is considered the most appropriate to value the Brands. This determination is based on the nature of the asset and the intangible components assumed to reside within the intangible.

**Multi-Period Excess Earnings Method:** was considered the most appropriate to value the Customer Relations. This determination is based on the nature of the asset and the intangible components assumed to reside within the intangible.

**Financial Projections:** Projections are based on management-approved business plans covering a period of 5 years, reflecting expected revenue growth, operating margins, capital expenditure, and working capital requirements.

Beyond the explicit forecast period, a terminal growth rate has been applied.

**Discount Rates**

The discount rates (WACC) used reflect the cost of equity and cost of debt for the business, adjusted for country, industry, and asset-specific risk.

**Royalty Rates / Attrition Rates**

Royalty rates applied in valuing the brand were benchmarked against market comparables in similar industries.

Customer attrition rates were determined based on historical churn data and industry benchmarks.

**Useful Lives**

The estimated useful lives of intangible assets were determined considering the nature of the asset, contractual terms, technological obsolescence, and expected period of economic benefits.

**Goodwill**

The residual amount after allocation to identifiable assets and liabilities has been recognised as goodwill, representing expected future economic benefits arising from synergies, assembled workforce, and other factors that do not qualify for separate recognition.

**46. Segments reporting**

The Group Chief Executive officer (Chief Operating Decision Maker "CODM") reviews the consolidated financial results of the group which includes revenue and KPI details (i.e. sellable room nights, occupancy, average room revenue, used room nights etc.) at the consolidated geographical regions of INSEA (India, Indonesia, Malaysia and Philippines), Europe, United States, United Kingdom and International (rest of the world). Accordingly, it has been assessed that group operates in a single operating as well as reportable segment.

The outbreak of Covid-19 pandemic globally had resulted in an economic slowdown since March 2020 for several months wherein various restrictions on travel were imposed across the globe. As a response to the pandemic, the Group has undertaken certain cost reduction initiatives, including implementing salary reductions and work from home policies, deferring non-critical capital expenditures, exiting various lease arrangements with their Hotel/Homes Partners and offices applying force majeure. The management had factored the effect of the pandemic in determining the provision towards expected credit loss on its trade receivables, recoverability of other receivables and investments recognised at fair values and provision has also been recorded with respect of onerous contracts and exit of lease contracts with hotel partners.

Based on its current assessment, the Group expects to recover the carrying amount of its trade receivables, other receivables and investment balances outstanding as at 31 March 2023. The Group's management does not anticipate any further significant adjustment in carrying values of assets and liabilities in these Restated consolidated financial statements.

**(iii) Conversion of joint venture into subsidiary during the year ended 31 March 2024 is given below**

Till previous reporting period, relevant activities of OYO Hotels Cayman were jointly controlled by OYO and SBLA and OYO's interest in OYO Hotels Cayman was in the nature of joint arrangement classified as 'Joint venture'. On 27 March 2024, OYO and SBLA has entered into the agreement wherein both parties agreed that, so long as SBLA owns 14.89% of the shares of the OYO Hotels Cayman, the Board shall consist of two OYO Directors and one SBLA Director and there will be no independent directors on the Board. Post this amendment, most of the decisions related to the investee company will be made at the board through simple majority vote. Since OYO has majority representation at the board, it will be able to decide all these activities. Therefore the Group has accounted OYO Hotels Cayman, its subsidiary. This transaction has been accounted as per acquisition method specified in IND AS 103 "Business Combination" and accordingly, the excess of purchase consideration paid over fair value of assets acquired has been attributed to goodwill and the goodwill is not tax deductible. ### Annexure VII - Notes to the Restated Consolidated Summary Statements

(All amount in INR Millions unless otherwise stated)

#### 52. Cancellation of derivative instruments

- (a) As per the Joint venture agreement between OYO Hotels Singapore Pte Ltd and LA Tech Hub (Cayman) or (SBLA) dated 17 August 2020, the OYO holds a call option and SBLA holds a put option (together referred as options) to exchange above mentioned SBLA investment in Latam business (27.27%) with equity shares in Oravel Stays Private Limited basis exchange ratio as defined in the agreement. The contract have embedded equity swap option that is required to be separated. Thus, the embedded option have been separated and are carried at fair value through profit or loss.

Below are the assumptions used for fair valuation of derivative put option

| Particulars                 | Remarks          |
|-----------------------------|------------------|
| Equity value                | USD 32.6 million |
| Stock price                 | USD 4.6 million  |
| Volatility (% per year)     | 26.70%           |
| Risk free rate (% per year) | 8.70%            |
| Time to expiration          | 0.3 years        |
| Exercise price              | USD 35 million   |
| Tree steps                  | 500              |
| Put option value            | USD 30.4 million |

- (b) On 27 September 2021, the parties entered into “Deed of restructuring and exit” whereby (i) Softbank cancelled its right to swap its shares with OYO parent (in case of IPO) or (ii) sell its remaining holding to OYO for a total consideration of INR 2,908.76 million (USD 35 million). It was also agreed between the JV partners to waive Softbank to fund balance INR 2,053.83 million (USD 25 million). Accordingly, Softbank’s holding was reduced to 14.89% from 27.27%. The company will become subsidiary of the Group post acquisition of remaining 14.89% equity interest on payment of USD 35 million equivalent to INR 2,908.76 million.
- (c) During the year ended 31 March 2024, basis amendment agreement entered with SBLA, SBLA irrevocably agree to waive off the liability amount of USD 35 million and will continue to hold 14.89%. **Key Assumptions used in calculations of impairment testing:**

**Growth rate estimates** – The growth rates used are in line with the Terminal growth rates of the respective industry and country in which the entity operates and are consistent with internal / external sources of information. Management recognises that the possibility of new entrants can have a significant impact on growth rate assumptions. The effect of new entrants is not expected to have an adverse impact on the forecasts. A reduction by 1% in the long-term growth rate would not result in any impairment in vacation homes CGU and Others CGU.

**Assumptions of terminal growth rates used in impairment testing is as under:**

| CGU Unit           | Terminal growth rate      |                        |                        |                        |
|--------------------|---------------------------|------------------------|------------------------|------------------------|
|                    | As at<br>31 December 2025 | As at<br>31 March 2025 | As at<br>31 March 2024 | As at<br>31 March 2023 |
| Managed Workspaces | 4%                        | 2%                     | 5%                     | 4%                     |
| Vacation Homes     | 1.50%                     | 2%                     | 2%                     | 2%                     |
| Weddingz           | 4%                        | 2%                     | 5%                     | 4%                     |
| Franchise Business | 2%                        | 2%                     | 0%                     | 0%                     |
| Hotels             | 2.5% - 4.5%               | 2%                     | 2%                     | 0%                     |

**Discount rates** - Discount rates represent the current market assessment of the risks specific to each CGU, taking into consideration the time value of money and individual risks of the underlying assets that have not been incorporated in the cash flow estimates. The discount rate calculation is based on the specific circumstances of the Group and its operating segments and is derived from its weighted average cost of capital (WACC). The WACC takes into account both debt and equity. The cost of equity is derived from the expected return on investment by the Group's investors. The cost of debt is based on the interest-bearing borrowings the Group is obliged to service. Segment-specific risk is incorporated by applying individual beta factors. The beta factors are evaluated annually based on publicly available market data. Adjustments to the discount rate are made to factor in the specific amount and timing of the future tax flows in order to reflect a pre-tax discount rate.

A rise in the pre-tax discount rate by 5% would not result in impairment in any CGU except Franchisee Business CGU, carrying value of which has been determined using Price of Recent Investment method and hence sensitivity analysis has not been done on such CGU.

**Assumptions of discount rates used in impairment testing is as under:**

| CGU Unit           | Discount rate             |                        |                        |                        |

**Corporate information**

IBL Limited Newco, LLC was incorporated on December 13, 2024 as a limited liability company under the laws of Delaware. Its registered office is located in the State of Delaware c/o Corporation Service Company, 251 Little Falls Drive, Wilmington, New Castle County, Delaware, 19808.

**1. Basis of preparation****A. Statement of compliance**

The Company's management has prepared these special purpose interim consolidated financial Statements comprise the special purpose interim consolidated balance sheet as at December 31, 2025, the special purpose interim consolidated statement of profit and loss, including the special purpose interim consolidated cash flow statement and the special purpose interim consolidated statement of changes in equity for the period then ended, and other explanatory information (together herein referred to as "Special purpose consolidated financial statements" or "consolidated financial statements").

This Special purpose financial information has been prepared solely in connection with the proposed Initial Public Offer ("IPO") of Oravel Stays Limited (the "Group Company") in India. The Company has followed the accompanied accounting policies for the purpose of preparing these financial statements.

The Special Purpose Financial Statements do not include all the information and disclosures normally included in annual financial statements. Only those disclosures as considered appropriate by the Management have been considered in these Standalone Financial Statements.

All the amounts included in the financial statements are converted and reported in millions of Indian Rupee (INR) and are rounded to the nearest million, unless stated otherwise. Further, due to rounding off, certain amounts are appearing as '0'.

The material accounting policies, as set out in the following paragraphs of this note, have been consistently applied, by the Company, to all the periods presented in the said consolidated financial statements.

Details of the Company's accounting policies are included in Note 2.

**B. Basis of measurement**

These consolidated financial statements have been prepared on the on the historical cost basis except for the following items:

| Items                                                                                                                         | Measurement basis           |
|-------------------------------------------------------------------------------------------------------------------------------|-----------------------------|
| Financial assets and liabilities (including derivative instruments) – Refer accounting policy regarding financial instrument) | Fair Value/ Amortised cost. |

Historical cost is generally based on the fair value of the consideration given in exchange for goods and services. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Group takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date. Fair value for measurement and/ or disclosure purposes in these financial statements is determined on this basis.

**C. Principle of Consolidation**

The consolidated financial statements comprise the special purpose consolidated financial statements of the Company and its subsidiaries as at December 31, 2025 and have been consolidated in accordance with Ind AS 110 "Consolidated financial statements". The Consolidated financial statements are based on classification provisions contained in Ind AS 1 "Presentation of financial statements". Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. Specifically, the Group controls an investee if and only if the Group has:

- Power over the investee (i.e. existing rights that give it the current ability to direct the relevant activities of the investee)
- The ability to use its power over the investee to affect its returns.
- Exposure or rights to variable return from its involvement with the investee.

Generally, there is a presumption that a majority of voting rights result in control. To support this presumption and when the Group has less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- The contractual arrangement with the other vote holders of the investee
- The Group's voting rights and potential voting rights
- The size of the group's holding of voting rights relative to the size and dispersion of the holdings of the other voting rights holders.
- Right arising from other contractual arrangements.

The Group re-assesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control. Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Assets, liabilities, income and expenses of a subsidiary acquired or disposed of during the period are included in the consolidated financial statements from the date the Group gains control until the date the Group ceases to control the subsidiary.

The Consolidated financial statements are prepared using uniform accounting policies for like transactions and other events in similar circumstances. If a member of the group uses accounting policies other than those adopted in the consolidated financial statements for like transactions and events in similar circumstances, appropriate adjustments are made to that group member's financial statements in preparing the consolidated financial statements to ensure conformity with the group's accounting policies.

The financial statements of all entities used for the purpose of consolidation are drawn up to same reporting date as that of the parent company, i.e., period then ended on 31 December. When the end of the reporting period of the parent is different from that of a subsidiary, the subsidiary prepares, for consolidation purposes, additional financial information as of the same date as the financial statements of the parent to enable the parent to consolidate the financial information of the subsidiary, unless it is impracticable to do so.

**Consolidation procedure:**

- i. Combine like items of assets, liabilities, equity, income, expenses and cash flows of the parent with those of its subsidiaries. For this purpose, income and expenses of the subsidiary are based on the amounts of the assets and liabilities recognised in the consolidated financial statements at the acquisition date.
- ii. Offset (eliminate) the carrying amount of the parent's investment in each subsidiary and the parent's portion of equity of each subsidiary. Business combinations policy explains how to account for any related goodwill.
- iii. Eliminate in full intragroup assets and liabilities, equity, income, expenses and cash flows relating to transactions between entities of the group (profits or losses resulting from intragroup transactions that are recognised in assets, fixed assets, are eliminated in full). Intragroup losses may indicate an impairment that requires recognition in the consolidated financial statements. Ind AS 12 Income Taxes applies to temporary differences that arise from the elimination of profits and losses resulting from intragroup transactions.

Profit or loss and each component of other comprehensive income (OCI) are attributed to the equity holders of the parent of the Group and to the non-controlling interests, even if this results in the non-controlling interests having a deficit balance. When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies into line with the Group's accounting policies.

All intra-group assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

A change in the ownership interest of a subsidiary, without a loss of control, is accounted for as an equity transaction.

If the Group loses control over a subsidiary, it:

- i. Derecognises the assets (including goodwill) and liabilities of the subsidiary
- ii. Derecognises the carrying amount of any non-controlling interests
- iii. Derecognises the cumulative translation differences recorded in equity
- iv. Recognises the fair value of the consideration received
- v. Recognises the fair value of any investment retained
- vi. Recognises any surplus or deficit in profit or loss
- vii. Reclassifies the parent's share of components previously recognised in OCI to profit or loss or retained earnings, as appropriate, as would be required if the Group had directly disposed of the related assets or liabilities.

**D. Functional and presentation currency**

Items included in the consolidated financial statements of each of the Group's entities are measured using the currency of the primary economic environment in which the entity operates ('the functional currency'). The consolidated financial statements are presented in Indian rupee (INR), which is the ultimate parent company's functional and presentation currency.

**E. Business combinations and goodwill**

The Group determines that it has acquired a business when the acquired set of activities and assets include an input and a substantive process that together significantly contribute to the ability to create outputs. The acquired process is considered substantive if it is critical to the ability to continue producing outputs, and the inputs acquired include an organised workforce with the necessary skills, knowledge, or experience to perform that process or it significantly contributes to the ability to continue producing outputs and is considered unique or scarce or cannot be replaced without significant cost, effort, or delay in the ability to continue producing outputs.

Business combinations are accounted for using the acquisition method. The cost of an acquisition is measured as the aggregate of the consideration transferred measured at acquisition date fair value and the amount of any non-controlling interests in the acquiree. For each business combination, the Group elects whether to measure the non-controlling interests in the acquiree at fair value or at the proportionate share of the acquiree's identifiable net assets. Acquisition-related costs are expensed as incurred and the services are received, with the exception of the costs of issuing debt or equity securities that are recognised in accordance with Ind AS 32 and Ind AS 109.

At the acquisition date, the identifiable assets acquired, and the liabilities assumed are recognised at their acquisition date fair values. For this purpose, the liabilities assumed include contingent liabilities representing present obligation and they are measured at their acquisition fair values irrespective of the fact that outflow of resources embodying economic benefits is not probable. However, the following assets and liabilities acquired in a business combination are measured at the basis indicated below:

- Deferred tax assets or liabilities, and the liabilities or assets related to employee benefit arrangements are recognised and measured in accordance with Ind AS 12 Income Tax and Ind AS 19 Employee Benefits respectively.
- Potential tax effects of temporary differences and carry forwards of an acquiree that exist at the acquisition date or arise as a result of the acquisition are accounted in accordance with Ind AS 12.
- Liabilities or equity instruments related to share based payment arrangements of the acquiree or share based payments arrangements of the Group entered into to replace share-based payment arrangements of the acquiree are measured in accordance with Ind AS 102 Share-based Payments at the acquisition date.
- Assets (or disposal groups) that are classified as held for sale in accordance with Ind AS 105 Non-current Assets Held for Sale and Discontinued Operations are measured in accordance with that Standard.
- Reacquired rights are measured at a value determined on the basis of the remaining contractual term of the related contract. Such valuation does not consider potential renewal of the reacquired right.

When the Group acquires a business, it assesses the financial assets and liabilities assumed for appropriate classification and designation in accordance with the contractual terms, economic circumstances and pertinent conditions as at the acquisition date. This includes the separation of embedded derivatives in host contracts by the acquiree.

If the business combination is achieved in stages, any previously held equity interest is re-measured at its acquisition date fair value and any resulting gain or loss is recognised in profit or loss or OCI, as appropriate.

Any contingent consideration to be transferred by the acquirer is recognised at fair value at the acquisition date. Contingent consideration classified as an asset or liability that is a financial instrument and within the scope of Ind AS 109 Financial Instruments, is measured at fair value with changes in fair value recognised in profit or loss in accordance with Ind AS 109. If the contingent consideration is not within the scope of Ind AS 109, it is measured in accordance with the appropriate Ind AS and shall be recognised in profit or loss. Contingent consideration that is classified as equity is not re-measured at subsequent reporting dates and subsequent its settlement is accounted for within equity.

Goodwill is initially measured at cost, being the excess of the aggregate of the consideration transferred and the amount recognised for non-controlling interests, and any previous interest held, over the net identifiable assets acquired and liabilities assumed. If the fair value of the net assets acquired is in excess of the aggregate consideration transferred, the Group re-assesses whether it has correctly identified all of the assets acquired and all of the liabilities assumed and reviews the procedures used to measure the amounts to be recognised at the acquisition date. If the reassessment still results in an excess of the fair value of net assets acquired over the aggregate consideration transferred, then the gain is recognised in OCI and accumulated in equity as capital reserve. However, if there is no clear evidence of bargain purchase, the entity recognises the gain directly in equity as capital reserve, without routing the same through OCI.

After initial recognition, goodwill is measured at cost less any accumulated impairment losses. For the purpose of impairment testing, goodwill acquired in a business combination is, from the acquisition date, allocated to each of the Group's cash-generating units that are expected to benefit from the combination, irrespective of whether other assets or liabilities of the acquiree are assigned to those units.

A cash generating unit (The smallest identifiable group of assets that generates cash inflows that are largely independent of the cash inflows from other assets or groups of assets) to which goodwill has been allocated is tested for impairment annually, or more frequently when there is an indication that the unit may be impaired. If the recoverable amount of the cash generating unit is less than its carrying amount, the impairment loss is allocated first to reduce the carrying amount of any goodwill allocated to the unit and then to the other assets of the unit pro rata based on the carrying amount of each asset in the unit. Any impairment loss for goodwill is recognised in profit or loss. An impairment loss recognised for goodwill is not reversed in subsequent periods.

Where goodwill has been allocated to a cash-generating unit and part of the operation within that unit is disposed of, the goodwill associated with the disposed operation is included in the carrying amount of the operation when determining the gain or loss on disposal. Goodwill disposed in these circumstances is measured based on the relative values of the disposed operation and the portion of the cash-generating unit retained.

If the initial accounting for a business combination is incomplete by the end of the reporting period in which the combination occurs, the Group reports provisional amounts for the items for which the accounting is incomplete. Those provisional amounts are adjusted through goodwill during the measurement period, or additional assets or liabilities are recognised, to reflect new information obtained about facts and circumstances that existed at the acquisition date that, if known, would have affected the amounts recognized at that date. These adjustments are called as measurement period adjustments. The measurement period does not exceed one year from the acquisition date.

**F. Use of estimates and judgements**

In preparing these consolidated financial statements, management has made judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Management believes that the estimates used in the preparation of the consolidated financial statements are prudent and reasonable. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised prospectively.

The areas involving critical estimates and judgements are:

- i. Estimation relating to fair value measurements** - When the fair values of financial assets and financial liabilities recorded in the balance sheet cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques including the discounted cash flow model. The inputs to these models and the discount rates are taken from observable markets where possible, but where this is not feasible, a degree of judgment is required in establishing fair values. Judgments include considerations of inputs such as liquidity risk, credit risk and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments.
- ii. Expected credit losses on financial assets:** For the purpose of measuring the expected credit loss for trade receivables and advances, the Group estimates irrecoverable amounts based on the ageing of the receivable/advances balances and historical experience. Further, a large number of minor receivables including advances are grouped into homogeneous groups and assessed for impairment collectively depending on their significance. Individual trade receivables/advances are written off when management deems them not to be collectible on assessment of facts and circumstances.
- iii. Estimating the incremental borrowing rate:** The Group cannot readily determine the interest rate implicit in the lease, therefore, it uses its incremental borrowing rate (IBR) to measure lease liabilities. The IBR is the rate of interest that the Company would have to pay to borrow over a similar term, and with a similar security, the funds necessary to obtain an asset of a similar value to the right-of-use asset in a similar economic environment. The Company estimates the IBR using observable inputs (such as market interest rates) when available and is required to make certain specific estimates such as Company's credit rating.

**G. Measurement of fair values**

A number of the Group's accounting policies and disclosures require the measurement of fair values, for both financial and non-financial assets and liabilities.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in most advantageous market for the asset or liability

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows.

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

When measuring the fair value of an asset or a liability, the Group uses observable market data as far as possible. If the inputs used to measure the fair value of an asset or a liability fall into different levels of the fair value hierarchy, then the fair value measurement is categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

The Group recognises transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred.

Further information about the assumptions made in measuring fair values is included in the respective notes.

**2. Material accounting policies****A. Current/ non-current classification**

The Group presents assets and liabilities in the balance sheet based on current/non-current classification.

**Assets**

An asset is classified as current when:

- i. It is expected to be realised in, or is intended for sale or consumption in, the Company's normal operating cycle;
- ii. it is expected to be realised within twelve months from the reporting date;

- iii. it is held primarily for the purposes of being traded; or
- iv. it is cash or cash equivalent unless it is restricted from being exchanged or used to settle a liability for at least twelve months after the reporting date.

All other assets are classified as non-current

#### **Liabilities**

A liability is classified as current when:

- i. it is expected to be settled in the Company's normal operating cycle;
- ii. it is due to be settled within twelve months from the reporting date;
- iii. it is held primarily for the purposes of being traded; or
- iv. the Company does not have an unconditional right to defer settlement of the liability for at least twelve months from the reporting date

All other liabilities are classified as non-current.

#### **Operating cycle**

Operating cycle is the time between the acquisition of assets for processing and their realisation in cash or cash equivalents. Based on the nature of operations and the time between the acquisition of assets for processing and their realisation in cash and cash equivalents, the Group has ascertained its operating cycle as twelve months for the purpose of current vs non-current classification of assets and liabilities.

### **B. Foreign currency transactions**

In preparing the consolidated financial statements of Group, transactions in currencies other than the functional currency (foreign currencies) are recognised at the rates of exchange prevailing at the dates of the transactions. At the end of each reporting period, monetary items denominated in foreign currencies are retranslated at the rates prevailing at that date.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value is determined. The gain or loss arising on translation of non-monetary items measured at fair value is treated in line with the recognition of the gain or loss on the change in fair value of the item (i.e., translation differences on items whose fair value gain or loss is recognised in OCI or profit or loss are also recognised in OCI or profit or loss, respectively).

Exchange differences on monetary items are recognised in profit or loss in the period in which they arise.

### **C. Financial instruments**

#### **i. Recognition and initial measurement**

Financial assets (except trade receivable) and financial liabilities are initially recognised when the Company becomes a party to the contractual provisions of the instrument.

A financial asset or financial liability is initially measured at fair value plus, for an item not at fair value through profit and loss (FVTPL), transaction costs that are directly attributable to its acquisition or issue.

At initial recognition, an entity shall measure trade receivable at their transaction price (as defined in IndAs 115), if trade receivable do not contain a significant financing component in accordance with IndAs 115.

#### **ii. Classification and subsequent measurement**

##### **Financial assets**

On initial recognition, a financial asset is classified as measured at

- Amortised cost
- FVOCI – debt investment;
- FVOCI – equity investment; or
- FVTPL

Financial assets are not reclassified subsequent to their initial recognition, except if and in the period the Group changes its business model for managing financial assets.

A financial asset is measured at amortised cost if it meets both of the following conditions and is not designated as at FVTPL:

- the asset is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

A debt investment is measured at FVOCI if it meets both of the following conditions and is not designated as at FVTPL:

- the asset is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets; and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

On initial recognition of an equity investment that is not held for trading, the Group may irrevocably elect to present subsequent changes in the investment's fair value in OCI (designated as FVOCI – equity investment). This election is made on an investment by investment basis.

All financial assets not classified as measured at amortised cost or FVOCI as described above are measured at FVTPL. This includes all derivative financial assets. On initial recognition, the Company may irrevocably designate a financial asset that otherwise meets the requirements to be measured at amortised cost or at FVOCI as at FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

#### **Financial assets: Subsequent measurement and gains and losses**

|                                    |                                                                                                                                                                                                                                                                                                                                           |
|------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Financial assets at amortised cost | These assets are subsequently measured at amortised cost using the effective interest method. The amortised cost is reduced by impairment losses. Interest income, foreign exchange gains and losses and impairment are recognised in profit or loss. Any gain or loss on derecognition is recognised in profit or loss.                  |
| Debt investments at FVOCI          | These assets are subsequently measured at fair value. Interest income under the effective interest method, foreign exchange gains and losses and impairment are recognised in profit or loss. Other net gains and losses are recognised in OCI. On derecognition, gains and losses accumulated in OCI are reclassified to profit or loss. |
| Equity investments at FVOCI        | These assets are subsequently measured at fair value. Dividends are recognised as income in profit or loss unless the dividend clearly represents a recovery of part of the cost of the investment. Other net gains and losses are recognised in OCI and are not reclassified to profit or loss.                                          |
| Financial assets at FVTPL          | These assets are subsequently measured at fair value. Net gains and losses, including any interest or dividend income, are recognised in profit or loss.                                                                                                                                                                                  |

#### **Financial liabilities: Classification, subsequent measurement and gains and losses**

Financial liabilities are classified as measured at amortised cost or FVTPL. A financial liability is classified as at FVTPL if it is classified as held for trading, or it is a derivative or it is designated as such on initial recognition. Financial liabilities at FVTPL are measured at fair value and net gains and losses, including any interest expense, are recognised in profit or loss. Other financial liabilities are subsequently measured at amortised cost using the effective interest method. Interest expense and foreign exchange gains and losses are recognised in profit or loss. Any gain or loss on derecognition is also recognised in profit or loss.

### **iii. Derecognition**

#### **Financial assets**

The Company derecognises a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the Company neither transfers nor retains substantially all of the risks and rewards of ownership and does not retain control of the financial asset.

If the Company enters into transactions whereby it transfers assets recognised on its balance sheet, but retains either all or substantially all of the risks and rewards of the transferred assets, the transferred assets are not derecognised.

#### **Financial liabilities**

The Company derecognises a financial liability when its contractual obligations are discharged or cancelled, or expire.

The Company also derecognises a financial liability when its terms are modified and the cash flows under the modified terms are substantially different. In this case, a new financial liability based on the modified terms is recognised at fair value. The difference between the carrying amount of the financial liability extinguished and the new financial liability with modified terms is recognised in profit or loss.

### **iv. Offsetting**

Financial assets and financial liabilities are offset and the net amount presented in the balance sheet when, and only when, the Company currently has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realise the asset and settle the liability simultaneously.

**D. Property, plant and equipment****i. Recognition and measurement**

Property, plant and equipment are stated at cost less accumulated depreciation and impairment loss, if any. Costs directly attributable to acquisition are capitalised until the property, plant and equipment are ready for use.

The cost comprises purchase price, freight, expenditure incurred towards transformation of hotel including salary cost of transformation employees, duties, taxes and any attributable cost of bringing the asset to its working condition for its intended use. Any trade discounts and rebates are deducted in arriving at the purchase price.

The Company identifies and determines cost of each component/ part of the asset separately, if the component/ part has a cost which is significant to the total cost of the asset and has useful life that is materially different from that of the remaining asset. Each component is separately depreciated over its useful life.

Gains or losses arising from derecognition of plant, property and equipment are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognised in the statement of profit and loss when the asset is derecognised.

**ii. Subsequent expenditure**

Subsequent costs are included in the assets carrying amount or recognised as separate asset, as appropriate, only if it is probable that the future economic benefits associated with the expenditure will flow to the Company and the cost of the item can be measured reliably.

**iii. Depreciation**

Depreciation on plant, property and equipment is calculated on straight-line basis using the useful lives prescribed under Schedule II to the Companies Act, 2013.

| Asset                           | Useful life (as per Companies Act, 2013)                            | Useful life (Based on technical evaluation)                         |
|---------------------------------|---------------------------------------------------------------------|---------------------------------------------------------------------|
| Building                        | 10 years                                                            | 10 years                                                            |
| Computer equipment and Hardware | 3 to 6 years                                                        | 3 to 6 years                                                        |
| Equipment                       | 5 years                                                             | 5 years                                                             |
| Furniture and fixtures          | 8 years to 10 years                                                 | 8 years to 10 years                                                 |
| Lease hold improvements         | Over the unexpired period of lease or 10 years, whichever is lower. | Over the unexpired period of lease or 10 years, whichever is lower. |

The management has estimated the useful lives and residual values of all property, plant and equipment and adopted useful lives based on management's technical assessment of their respective economic useful lives. Depreciation method, useful lives and residual values are reviewed at each financial year/period-end and adjusted prospectively if appropriate.

**E. Intangible assets****i. Recognition and measurement**

Intangible assets are initially measured at cost. Such intangible assets are subsequently measured at cost less accumulated amortisation and accumulated impairment losses, if any.

Gains or losses arising from derecognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognised in the statement of profit or loss when the asset is derecognised.

**ii. Amortisation**

Intangible assets are amortized on a straight-line basis using the useful lives which are as follows;

| Asset                               | Useful life (Based on technical evaluation) |
|-------------------------------------|---------------------------------------------|
| Trademark                           | Indefinite                                  |
| Franchise Agreements                | 16 years                                    |
| Software and Proprietary Technology | 3 years to 8 years                          |

Amortisation method, useful lives and residual values are reviewed at the end of each financial year and adjusted if appropriate. Intangible assets with indefinite useful lives are not amortised, but are tested for impairment annually,

either individually or at the cash-generating unit level. The assessment of indefinite life is reviewed annually to determine whether the indefinite life continues to be supportable. If not, the change in useful life from indefinite to finite is made on a prospective basis.

**F. Impairment****i. Impairment of financial instruments**

The Company recognises loss allowances for expected credit losses on:

- Financial assets measured at amortised cost; and
- Financial assets measured at FVOCI- debt investments.

At each reporting date, the Company assesses whether financial assets carried at amortised cost and debt securities at FVOCI are credit impaired. A financial asset is 'credit impaired' when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred.

**Measurement of expected credit losses**

For trade receivable and contract assets, the Company applied simplified approach in calculating Expected credit loss (ECLs). Therefore, the Company does not track changes in credit risk, but instead recognize a loss allowance based on lifetime ECLs at each reporting date. The Company has established a provision matrix that is based on its historical credit loss experience, adjusted for forward-looking factor specific to the debtors and economic environment.

**Presentation of allowance for expected credit losses in the balance sheet**

Loss allowances for financial assets measured at amortised cost are deducted from the gross carrying amount of the assets.

ECL impairment loss allowance (or reversal) recognised during the period is recognised as expense/income in the statement of profit and loss.

**Write-off**

The gross carrying amount of a financial asset is written off (either partially or in full) to the extent that there is no realistic prospect of recovery. This is generally the case when the Company determines that the debtor does not have assets or sources of income that could generate sufficient cash flows to repay the amounts subject to the write off. However, financial assets that are written off could still be subject to enforcement activities in order to comply with the Company's procedures for recovery of amounts due.

**ii. Impairment of non-financial assets**

The Company's non-financial assets, other than inventories and deferred tax assets, are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists or when annual impairment assessment is required, then the asset's recoverable amount is estimated. An asset's recoverable amount is the higher of an asset's or cash-generating unit's (CGU) net selling price and its value in use. The recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. Where the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining net selling price, recent market transactions are taken into account, if available. If no such transactions can be identified, an appropriate valuation model is used.

After impairment, depreciation is provided on the revised carrying amount of the asset over its remaining useful life.

**G. Employee benefits****i. Short-term employee benefits**

All employee benefits payable wholly within twelve months of rendering the service are classified as short term employee benefits and they are recognised in the period in which the employee renders the related service.

Company recognizes the undiscounted amount of short term employee benefits expected to be paid in exchange for services rendered as a liability (accrued expense) after deducting any amount already paid.

**ii. Termination benefits**

Termination benefits are expensed at the earlier of when the Company can no longer withdraw the offer of those benefits and when the Company recognises costs for a restructuring. If benefits are not expected to be settled wholly within 12 months of the reporting date, then they are discounted.

**H. Provisions (other than for employee benefits) and contingent liabilities**

A provision is recognised if, as a result of a past event, the Company has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows (representing the best estimate of the expenditure required to settle the present obligation at the balance sheet date) at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The unwinding of the discount is recognised as finance cost. Expected future operating losses are not provided for.

A contingent liability is disclosed where there is a possible obligation or present obligation that may, but probably will not, require outflow of resources. Contingent assets are not recognised.

**I. Revenue**

The Company apply IndAs 115 "Revenue from contracts with customers" which establishes a comprehensive framework to depict timing and amount of revenue to be recognised.

Revenue is recognised upon transfer of control of promised products or services to customers in an amount that reflects the consideration that we expect to receive in exchange for each performance obligation.

Judgment is required in determining whether the Company is the principal or agent in transactions with hotel partners and end-users. The Company evaluates the presentation of revenue on a gross or net basis based on whether it controls the service provided to the end-user and is the principal (i.e. "Gross"), or the Company arranges for other parties to provide the service to the end-user and is an agent (i.e. net").

The Company collects indirect taxes on behalf of the government and, therefore, it is not an economic benefit flowing to the Company. Hence, it is excluded from revenue.

**Revenue from royalty**

Revenue in the form of royalty is recognized on net basis as the Company does not gains control on stay services before it gets passed to customer. The Company act as an agent, and earns royalty income, in the sale of rooms. Royalty income are recognized on completion of booking of room nights by end customers, on accrual basis to the extent that it is probable that the economic benefit will flow to the Company and it can be reliably measured. In these arrangements, the Company does not recognise the gross amount as revenue but only the fee consideration it expects to be entitled to.

**J. Leases****Group as a lessee****Identifying a lease**

At the inception of the contract, the Group assesses whether a contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. The company assesses whether:

- The contract involves the use of an identified asset, specified explicitly or implicitly.
- The Group has the right to obtain substantially all the economic benefits from use of the asset throughout the period of use, and
- The Group has right to direct the use of the asset.

The Group recognise lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

**Initial recognition of Right of use asset (ROU)**

The Group recognise a ROU asset at the lease commencement date (i.e., the date the underlying asset is available for use). ROU assets are initially measured at cost less any accumulated depreciation and accumulated impairment losses and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognized, adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or site on which it is located, less any lease incentives received.

**Subsequent measurement of Right of use asset (ROU)**

ROU assets are subsequently amortized using the straight-line method from the commencement date to the earlier of the end of the useful life of ROU asset or the end of the lease term. If ownership of the leased asset transfers to the Group at the end of the lease term or the cost reflects the exercise of a purchase option, depreciation is calculated using the estimated useful life of the asset. In addition, the right of use asset is periodically reduced by impairment losses, if any, and adjusted for certain re-measurement of the lease liability. Refer to the accounting policies in section, I (ii), impairment of non-financial assets.

**Initial recognition of lease liability**

Lease liabilities are initially measured at the present value of the lease payments to be paid over the lock in period of lease term. The lease payments include fixed payments (including in substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Group and payments of penalties for terminating the lease, if the lease term reflects the Group exercising the option to terminate. Variable lease payments that do not depend on an index or a rate are recognised as expenses (unless they are incurred to produce inventories) in the period in which the event or condition that triggers the payment occurs. In calculating the present value of lease payments, the Group uses its incremental borrowing rate at the lease commencement date because the interest rate implicit in the lease is not readily determinable.

**Subsequent measurement of lease liability**

Lease liabilities are subsequently increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the lease payments (e.g., changes to future payments resulting from a change in an index or

rate used to determine such lease payments) or a change in the assessment of an option to purchase the underlying asset.

**Short-term leases and leases of low-value assets**

The Group applies the short-term lease recognition exemption to its short-term leases (i.e., those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). It also applies the lease of low-value assets recognition exemption to leases of office equipment that are considered to be low value. Lease payments on short-term leases and leases of low-value assets are recognized as expense on a straight-line basis over the lease term.

**As a lessor****Finance lease:**

Amounts due from lessees under finance leases are recognised as receivables at the amount of the Group's net investment in the leases. Finance lease income is allocated to accounting period so as to reflect a constant periodic rate of return on the net investment outstanding in respect of the lease.

**Operating lease:**

Rental income from operating lease is recognised on a straight-line basis over the lease term unless payments to the Group are structured to increase in line with expected general inflation to compensate for the Group's expected inflationary cost increase; such increases are recognised in the year in which such benefits accrue. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised on a straight-line basis over the lease term. Contingent rents are recognised as income in the period in which they are earned.

**Trade receivables and contractual balances**

The Company classifies the right to receive consideration in exchange for services as either trade receivable or unbilled revenue. Accommodation revenue in excess of invoicing are classified as contract assets (which we refer to as unbilled revenue).

**Unbilled revenue**

Unbilled revenue represents the gross unbilled amount expected to be realised from customers for services rendered upto the reporting date, and is measured as per the contractual terms under arrangements entered with the customers.

**Interest**

Interest income is recorded using the effective interest rate (EIR). EIR is the rate that exactly discounts the estimated future cash payments or receipts over the expected life of the financial instrument or a shorter period, where appropriate, to the gross carrying amount of the financial asset. When calculating the effective interest rate, the Company estimates the expected cash flows by considering all the contractual terms of the financial instrument (for example, prepayment, extension) but does not consider the expected credit losses. Interest income is included in other income in the statement of profit and loss.

**K. Income tax**

Income tax comprises current and deferred tax. It is recognised in profit or loss except to the extent that it relates to a business combination or to an item recognised directly in equity or in other comprehensive income.

**i. Current tax**

Current tax comprises the expected tax payable or receivable on the taxable income or loss for the year and any adjustment to the tax payable or receivable in respect of previous years. The amount of current tax reflects the best estimate of the tax amount expected to be paid or received after considering the uncertainty, if any, related to income taxes. It is measured using tax rates (and tax laws) enacted or substantively enacted by the reporting date.

Current tax assets and current tax liabilities are offset only if there is a legally enforceable right to set off the recognised amounts, and it is intended to realise the asset and settle the liability on a net basis or simultaneously.

Current tax relating to items recognised outside profit and loss is recognised outside profit and loss in correlation to the underlying transaction either In other comprehensive income or directly in equity.

**L. Borrowing cost**

Borrowing cost includes interest, amortization of ancillary costs incurred in connection with the arrangement of borrowings and exchange differences arising from foreign currency borrowings to the extent they are regarded as an adjustment to the interest cost.

Borrowing costs directly attributable to the acquisition or construction of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized as part of the cost of the respective asset. All other borrowing costs are expensed in the year they occur.

**M. Cash and cash equivalents:**

Cash and cash equivalent in the balance sheet comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

For the purpose of the statement of cash flows, cash and cash equivalents consist of cash and short-term deposits, as defined above, net of outstanding bank overdrafts as they are considered an integral part of the Company's cash management.

**N. Exceptional items**

Exceptional items refer to items of income or expense within the statement of profit and loss from ordinary activities which are non-recurring and are of such size, nature or incidence that their separate disclosure is considered necessary to explain the performance of the Company.

**IBL Limited Newco, LLC****Notes to the special purpose Interim Consolidated financial statements for the nine months period ended December 31, 2025***(Amount in INR Millions, unless stated otherwise)*

No trade receivable are due from directors or other officers of the Group either severally or jointly with any other person. Nor any trade receivable are due from firms or private companies respectively in which any director is a partner, a director or a member.

The Company applies the simplified approach for recognition of impairment loss allowance on trade receivables as permitted under Ind AS 109. Under this approach, the Company uses a provision matrix based on the number of days past due, considering historical default rates and forward-looking information.

For other financial assets, the Company assesses expected credit losses on an individual basis. The allowance is determined based on management's evaluation of credit risk for each overdue case, considering factors such as counterparty creditworthiness, past payment history, and prevailing economic conditions.

**Terms and conditions of transactions with related parties**

The sales to and purchases from related parties are made on terms equivalent to those that prevail in arm's length transactions. Outstanding balances at the year end are unsecured and interest free and settlement occurs in cash. There have been no guarantees provided or received for any related party receivables or payables. For the period ended December 31, 2025, the Group has not recorded any impairment of receivables relating to amounts owed by related parties. This assessment is undertaken each financial year through examining the financial position of the related party and the market in which the related party operates.

**27. Key accounting estimates and assumptions**

The preparation of the Company's financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

**Critical accounting estimates and assumptions**

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below:

**a. Fair value measurement of financial instruments**

When the fair values of financial assets and financial liabilities recorded in the balance sheet cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques including the discounted cash flow model. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgement is required in establishing fair values.

**b. Useful life of property, plant and equipment**

Useful lives of Property, plant and equipments are estimated based on internal technical evaluation, taking into account the nature of the asset, the estimated usage of the asset, the operating conditions of the asset, past history of replacement, anticipated technological changes.

**c. Allowance for trade receivable/advances**

For the purpose of measuring the expected credit loss for trade receivables, the Group estimates irrecoverable amounts based on the ageing of the receivable balances and historical experience. Further, a large number of minor receivables are grouped into homogeneous groups and assessed for impairment collectively depending on their significance. Individual trade receivables are written off when management deems them not to be collectible on assessment of facts and circumstances.

**28. Contingent liabilities & Capital commitment:**

There were no contingent liabilities and capital commitments as on December 31, 2025.

**29. Subsequent event**

There are no events that require adjustment to or disclosure in the financial statements.

**30. Fair values****Financial instrument category**

The following methods/assumption were used to estimate the fair values;

- The carrying value of cash and cash equivalents, other bank balance (bank deposit and restricted cash), trade receivable (net of allowance), trade payable, other financial assets and other financial liabilities (other than designated at FVTPL) measured at amortised cost approximate their fair value, due to their short term nature.
- Fair value of investment in quoted mutual fund is based on quoted market price at the reporting date
- The fair values of the Group's interest-bearing borrowings are determined by using DCF method using discount rate that reflects the issuer's borrowing rate as at the end of the reporting period.
- The fair value of financial liabilities determined by use of quoted market prices or dealer quotes for similar instruments and generally accepted pricing models based on a discounted cash flow analysis using rates currently available for debt on similar terms, credit risk and remaining maturities.
- The fair value of unquoted equity investments are based on Discounted Cash Flow approach. Multiple of Free Cash Flow (FCF) are considered after applying suitable discounts for size, liquidity and other company specific discounts.

**31. Fair value hierarchy**

There are no assets and liabilities for which fair values is measured using :

Quoted prices in active markets (Level 1)

Significant observable inputs (Level 2)

Significant unobservable inputs (Level 3)

There are no transfers between levels 1, 2 and 3 during the period.

**The company's policy is to recognise transfers into and transfers out of fair value hierarchy levels as at the end of the reporting period.**

Specific valuation techniques used to value financial instrument include:

- Fair value of security deposits paid having maturity of more than 12 months has been determined based on cash flows discounted using bank deposit rate.
- Investment in mutual funds and bonds are fair valued on mark to market basis.
- Trade receivables, trade payables and other financial liabilities are carried at amortized cost.
- Fair value of security deposits paid having maturity of more than 12 months has been determined based on cash flows discounted using bank deposit rate.

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: interest rate risk, currency risk and other price risk, such as equity price risk and commodity risk. Financial instruments affected by market risk include trade payables and trade receivables.

**Interest risk**

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates, Company have interest bearing fixed deposit. A change in interest rates at the reporting date would not affect significantly on profit or loss and equity.

**Credit risk**

Credit risk is the risk arising from the possibilities that customers may not be able to settle their obligation. To manage this, the Company periodically assesses the financial reliability of customers, taking into account the financial condition, current economic trend, forward looking macroeconomics analysis, historical trend of bad debt. The table below summarises the maturity profile of the Company's financial liabilities based on contractual undiscounted payments.

|                        | 0 to 1 year | 1-5 years | More than 5 years | Total    |
|------------------------|-------------|-----------|-------------------|----------|
| As at 31 December 2025 |             |           |                   |          |
| Lease liabilities      | 245.20      | 368.66    | -                 | 613.86   |
| Trade payables         | 7,268.39    | -         | -                 | 7,268.39 |
|                        | 7,513.59    | 368.66    | -                 | 7,882.25 |

**Excessive risk concentration**

Concentrations arise when a number of counterparties are engaged in similar business activities, or activities in the same geographical region, or have economic features that would cause their ability to meet contractual obligations to be similarly affected by changes in economic, political or other conditions. Ltd., OYO Hotels Inc., OYO Hospitality Netherland B.V. pursuant to the TLB Credit Agreement. The term loans under the TLB Credit Agreement were subsequently assigned to various non-bank investment funds and their approved affiliates.

3. K&J Consulting has been acquired by the Company on July 29, 2024, hence the acquisition date is considered as the date of the disbursement.

Principal terms of the financial arrangements entered into by our Company and our Subsidiaries are disclosed below.

1. **Tenor:** The tenor of TLB availed by the TLB Co-borrower Subsidiaries is five years from the TLB Effective Date (the “**TLB Maturity Date**”).

Being co-borrowers, the TLB Co-borrower Subsidiaries are jointly responsible for all redemption and payment obligations under the TLB Credit Agreement.

2. **Interest:** Under the TLB Credit Agreement, each TLB Co-borrower Subsidiary (acting through OYO Netherlands), has the option to elect for each loan drawn down under the TLB to bear interest at either:

(c) ‘Alternate Base Rate’ (as defined in the TLB Credit Agreement) plus 7% (loans bearing interest at Alternate Base Rate, the “**ABR Loans**”); and

(d) ‘Term SOFR Reference Rate’ (as defined in the TLB Credit Agreement) for the relevant interest period plus 8% (loans bearing interest at the Term SOFR Reference Rate, the “**SOFR Loans**”).

Interest on the ABR Loans are payable quarterly (on the last business day of March, June, September and December) and on the TLB Maturity Date. Interest on the SOFR Loans is payable the end of each elected interest period of such SOFR Loans (which may be one month, three months six months, or with the consent of all lenders, 12 months or a period less than one month) and, in the case of an interest period of more than three months’ duration, each day prior to the last day of such interest period that occurs at intervals of three months’ duration after the first day of such interest period, and on the TLB Maturity Date. The relevant TLB Co-borrower Subsidiary may elect the duration of the interest period for the SOFR Loan at the time of drawdown.

5. ***Default interest or penalty for overdue payments:***

We are required to ensure that the aforementioned events of default and other events of default, as specified under the agreements relating to the financing arrangements entered into by our Company and the Subsidiaries, are not triggered.

### Overview

Our Company primarily operates a technology-driven hospitality platform that connects Patrons (being the owners, lessors and/or operators of storefronts available on our platform) with Customers (being leisure travelers, corporate customers and other guests who book accommodations at our Patrons' storefronts through our platform) seeking short-stay accommodation. We provide technology, branding and operational enablement services that allow Patrons to list and distribute their storefronts through our platform and access integrated tools for dynamic pricing, revenue management, content management, customer support and supply performance monitoring. For Customers, we offer choices across a broad range of quality storefronts at compelling price points, value for money through consistent, trustworthy experiences, and convenience through our seamless digital platform covering discovery, booking and end-to-end customer support.

Our mission is to become the world's most trusted hospitality platform by continuing to transform unorganized hospitality storefront supply into consistent, quality stays for our customers by leveraging technology across the value chain.

Since our founding in India in 2012, we have scaled distribution through our direct-to-customer channels (“**D2C channels**”) (comprising our mobile applications, websites, corporate and travel agent tie-ups, dedicated call centers and physical walk-ins) and through integration with third party online travel agents (“**OTAs**”), domestically and globally. Our technology platform includes solutions for demand generation for our Patrons and centralized data and analytics-led functions spanning revenue management, dynamic pricing, content management and customer support. Our asset-light and scalable operating model, coupled with our standardized process know-how, has enabled us to improve revenue generation potential for our Patrons and experience for our Customers at scale globally, while maintaining disciplined unit economics.

### ***Our Business Verticals***

Our Company operates across three primary business verticals:

- (4) Hotels vertical: The hotels vertical comprises branded hotel storefronts operating under brands including Sunday, Townhouse, Townhouse Oak, Palette, OYO, Motel 6, Studio 6 among other brands, spanning India, the United States, the United Kingdom, Southeast Asia and the Middle East.
- (5) Homes vertical: The homes vertical comprises professionally managed vacation homes and short-term rental properties operating under brands such as Belvilla and DanCenter, Checkmyguest primarily in Europe and Australia.
- (6) Listings vertical: The listings vertical comprises storefronts in Europe that are listed on our platform for a fixed subscription fee.

In addition, we also provide non-accommodation offerings including wedding venues (Weddingz), co-working spaces (Workspaces), tours and events, insurance facilitation, cleaning services, food and beverage at select hotels and subscription programmes.

We operate an asset-light business model and do not own the storefronts listed on our platform. The storefronts are owned by third-party Patrons who bear the investments, capital expenditure, and operational expenses relating to such storefronts. Our Company earns revenue primarily through revenue-sharing arrangements with Patrons, with investments, capital expenditure and expenses relating to the operation of such storefronts borne largely by our Patron, commission income from home and listing bookings in Europe, and royalty fees from franchisees operating under our G6 Hospitality brands in the United States. For company-serviced hotel storefronts, we either lease properties from owners or enter into management services agreements, with such storefronts being operated by third-party hotel operators.

We began our journey as a platform focused on organizing the economy category in India, pursuant to which we partnered with patrons that owned independent and unbranded hotel storefronts to standardize their storefronts under our economy brands such as OYO and Hotel O. We follow an “India for the World” model, built on our technology platform, which enables us to leverage the centralized technology, experience, and brand and operator solutions that we have developed in India to expand globally. As at December 31, 2025, 2,614 or 76.12% of our employees were based in India. Our engineering team plays a critical role in our business, most of whom are based in India. We expanded from India to more than 35 countries with 24,303 hotel storefronts, 124,668 home storefronts and 144,583 listings storefronts as of December 31, 2025 and have served 119.36 million unique Customers since our inception in 2012 up to December 31, 2025. We have a diversified footprint spanning premium hotels (hotel storefront brands that offer experience-led accommodation with a high degree of standardization. These properties are subject to more stringent requirements and are expected to offer enhanced amenities, typically including high-speed Wi-Fi, eight-inch or higher-grade mattresses, kitchen or pantry access, and parking and economy hotels (hotel storefront brands that are oriented toward essential, functional standards, with relatively greater flexibility in transformation requirements. Economy properties are required to meet defined baseline standards for safety and hygiene) across India, the United Kingdom, Southeast Asia and the Middle East, economy hotels in North America and homes across Europe. For definitions of premium and economy hotels, see “*Definitions and abbreviations*” beginning on page 1 of this Updated Draft Red Herring Prospectus-I. India continues to be our single largest market in terms of hotel storefronts, as of December 31, 2025. As of December 31, 2025, we rank first in India by number of hotel storefronts and are among the leading players across Southeast Asia, the United States and Europe, including a strong presence in the US economy hotel segment and Europe’s home segment, according to 1Lattice.

**Notes:**

(1) For nine months ended December 31, 2025.

(2) As of December 31, 2025.

(3) Calculated based on (a) the ratio of the net realized value, being a proxy to revenue earned by Patrons (i.e. calculated by the Company as GBV, adjusted to remove any promotional discounts, coupons or temporary price reductions offered to Customers) during the first week after being onboarded on our platform compared with the corresponding calculation for net realized value during the 12th week after being onboarded on our platform averaged for all hotel storefronts in each of India (excluding Nepal), the United States (excluding G6 Hospitality storefronts and Canada storefronts) and the United Kingdom that were onboarded on our platform between April 1, 2024 and March 31, 2025 and (b) the ratio of GBV during the first year after being onboarded on our platform compared with GBV during the second year after being onboarded on our platform averaged for all home storefronts in Europe that were onboarded on our platform between April 1, 2023 and March 31, 2024; where the lower range of 1.16 times refers to the average increase in GBV for the aforementioned home storefronts and the higher range of 2.27 times refers to the average increase in net realized value for the aforementioned hotel storefronts located in the United States.

(4) Direct demand is measured as a percentage of used room nights through our D2C channels.

(5) According to Sensor Tower data, OYO is the 8<sup>th</sup> most globally downloaded hotel accommodation booking focused mobile application as of December 31, 2025. "Hotel accommodation booking focused" indicates that more than 10% of the company's revenue was generated through hotel / accommodation bookings made directly (not redirected) on its platform, as per their last reported full financial year data; indicates cumulative downloads.

(6) Total number of Customers who had an active membership with OYO Wizard globally and/or with My6 in the United States and Canada on the first day of the final month of the relevant period.

(7) Repeat demand refers to the share of used room nights generated by Repeat Customers (being Customers who generated more than one used room night through more than one separate booking during the period or who generated used room nights during the period and had generated used room nights through a booking prior to the period) on our mobile applications, websites and call centers during the relevant period, measured as a percentage of total used room nights through a booking on these channels for the period.

(8) Total GBV for the period divided by the number of unique Customers who completed at least one booking transaction for that period.

Since Fiscal 2024, we have expanded our offerings to include company-serviced hotel storefronts (which are directly managed and operated by hotel operators) under our premium brands, namely Sunday, Townhouse, Townhouse Oak, Clubhouse, and Palette. Our company-serviced hotel storefronts in India contributed to 49.29%, 23.30% and 2.61% of our GBV in India for the nine months ended December 31, 2025, and Fiscals 2025 and 2024, respectively. We began using "OYO-Serviced" as the market-facing term for our company-serviced hotel storefronts in India in May 2026. We have since expanded our company-serviced hotel storefronts across United Kingdom, Southeast Asia, the Middle East and are focused on growing our asset-light company-serviced hotel storefront model across geographies. While we operate across more than 35 countries, we are focused on India, Southeast Asia, the Middle East, North America and the United Kingdom for our hotels business and Europe, Australia and New Zealand for our homes business. We deploy our full-stack, integrated technology, brand and operator solutions when entering into new markets, supported by our centralised corporate and business development functions, with the objective of driving higher direct demand, better yield and improved unit economics as compared to local players, while providing a tailored approach to local demand patterns and regulations. We continue to localize front-end experiences and supply partnerships in each market, while leveraging a common platform for core capabilities.

Although hotels and homes are large addressable markets with rapid online penetration, they remain relatively nascent and have significant growth headroom, according to 1Lattice. The unorganized hospitality industry represents multiple challenges for both patrons and customers. Patrons face challenges such as demand generation, consistent quality of service and amenities, pricing, operations management and customer service, while customers often encounter issues relating to trust, consistency, experience and service quality. These markets also lack scaled, organized players and are ripe for consolidation by technology-led players, according to 1Lattice. Despite our leading positions based on the number of storefronts, we have captured less than 1% of the market for homes in Europe and approximately 1.8% of combined hotel storefronts in the United States, the United Kingdom, India, Southeast Asia, Middle East and Africa and Europe, based on estimates as of December 31, 2025, according to 1Lattice. This represents a significant opportunity for further professionalization and technology-led consolidation across the hospitality ecosystem.

We address our Patrons' key challenges through our full-stack, integrated technology, brand and operator solutions, which integrate aspects ranging from digital sign-up and onboarding, distribution and demand generation, revenue management and dynamic pricing, operations management and customer service through our flagship patron tools and technology such as PRISM OS and Bolt (our operations management stacks) and Co-PRISM (our proprietary revenue stack). We engage with our Customers along every step of their hospitality journey, covering discovery, seamless booking, pre-stay assistance and cancellations, digital check-ins and in-stay and post-stay services through our range of mobile applications and distribution channels, which helps drive platform engagement, trust and loyalty among our Customers.

We are uniquely positioned to redefine the value proposition and economics of hospitality for both Patrons and Customers as well as ourselves through our “Win-Win-Win” solution as the only provider of full-stack, integrated technology, brand and operator solutions, according to 1Lattice. Our “India for the World” model enables rapid, capital-efficient replication of our business model across markets, while maintaining consistency in quality, pricing discipline and operational efficiency through the use of technology. We address both distribution and fulfilment by transforming fragmented, unorganized supply into digitally enabled, revenue-optimized storefronts, managing costs through operational efficiencies at scale and delivering better value for money and high-quality stays for Customers. We delivered the highest gross margin (being Gross Profit (as a % of GBV)) among India-listed peers for Fiscal 2025 and the nine months ended December 31, 2025, compared to other technology platforms in the hospitality industry, according to 1Lattice. Our Gross Profit (as a % of GBV) was 19.19% in Fiscal 2025, which was approximately 1.5 to 5 times that of other leading Indian OTAs and 18.44% in the nine months ended December 31, 2025, which was approximately 1.5 to 4 times higher than peers, according to 1Lattice.

## A Win-Win-Win Solution

Notes:

<sup>(1)</sup> Calculated based on (a) the ratio of the net realized value, being a proxy to revenue earned by Patrons (i.e. calculated by the Company as GBV, adjusted to remove any promotional discounts, coupons or temporary price reductions offered to Customers) during the first week after being onboarded on our platform compared with the corresponding calculation for net realized value during the 12th week after being onboarded on our platform averaged for all hotel storefronts in each of India (excluding Nepal), the United States (excluding G6 Hospitality storefronts and Canada storefronts) and the United Kingdom that were onboarded on our platform between April 1, 2024 and March 31, 2025 and (b) the ratio of GBV during the first year after being onboarded on our platform compared with GBV during the second year after being onboarded on our platform averaged for all home storefronts in Europe that were onboarded on our platform between April 1, 2023 and March 31, 2024; where the lower range of 1.16 times refers to the average increase in GBV for the aforementioned home storefronts and the higher range of 2.27 times refers to the average increase in net realized value for the aforementioned hotel storefronts located in the United States.

<sup>(2)</sup> We delivered the highest gross margin (being Gross Profit (as a % of GBV)) among India-listed peers for Fiscal 2025 and the nine months ended December 31, 2025, compared to other technology platforms in the hospitality industry, according to 1Lattice. Our Gross Profit (as a % of GBV) was 19.19% in Fiscal 2025, which was approximately 1.5 to 5 times that of other leading Indian OTAs and 18.44% in the nine months ended December 31, 2025, which was approximately 1.5 to 4 times higher than peers, according to 1Lattice.

## Our Business Model

Our revenue from our operations comprises revenue from the sale of accommodation services, commission from bookings and royalty income, cancellation income, value-added services, sale of tours, packages and events including wedding related services, rental income, food and beverages, subscription income and other operational revenue. We evaluate the presentation of revenue on a gross or net basis depending on whether we control the service provided to the end customer and act as principal (gross), or whether we arrange for other parties to provide the service to the end customer and act as agent (net). We recognize revenue from the sale of accommodation services on a gross basis, as we obtain control over the stay services prior to their transfer to customers. Accommodation is marketed under our brand and we undertake to provide standardised stay experience, thereby assuming a direct performance obligation to customers. We act as the primary point of contact for bookings, cancellations, refunds, customer grievances and alternate accommodation arrangements, and accordingly assume primary responsibility for service fulfilment and customer acceptability. We bear customer satisfaction risk,

including costs associated with refunds, discounts, complimentary stays and customer support, and are also exposed to significant brand and reputational risk in relation to the services offered through our platform. Additionally, we have discretion in determining the pricing of accommodation services offered on our platform, which is governed by a proprietary algorithm.

Our revenue recognition methodology is depicted in the chart below:

## Principal Factors Affecting Our Financial Condition and Results of Operations

The following diagram describes certain factors that have had, and we expect will continue to have, a significant effect on our financial condition and results of operations.

### Revenue drivers

#### Number of storefronts

Storefronts are the number of hotels, homes and listing storefronts available for booking by Customers on our platform as at the relevant date. The number of storefronts excludes our non-accommodation offerings, including India-based non-hotel businesses such as wedding venues under our Weddingz business and co-working spaces under our Workspaces business.

Our number of storefronts increased from 231,529 as at March 31, 2025 to 293,554 as at December 31, 2025, primarily driven by (i) an increase in our hotel storefronts from 22,628 to 24,303 due to further expansion of our company-serviced storefronts, primarily in India, SEAME and the United Kingdom, (ii) an increase in our home storefronts from 119,849 to 124,668 due to continued expansion in our key European markets and (iii) an increase in our listings storefronts from 89,052 to 144,583 due to the expansion of our listings business across Europe beyond Germany.

Our number of storefronts increased from 176,449 as at March 31, 2024 to 231,529 as at March 31, 2025, primarily driven by (i) an increase in our hotel storefronts from 18,137 to 22,628, largely attributable to our acquisition of G6 Hospitality, which added 1,506 hotel storefronts in North America as at December 31, 2024, as well as organic growth in our hotel storefronts, (ii) an increase in our home storefronts from 84,261 to 119,849 due to significant additions to our homes inventory in key European markets and (iii) an increase in our listings storefronts from 74,051 to 89,052 as market sentiment in Europe rebounded in Fiscal 2024 compared to Fiscal 2023. Our number of storefronts increased from 170,101 as at March 31, 2023 to 176,449 as at March 31, 2024, primarily driven by (i) an increase in our hotel storefronts from 12,971 to 18,137 due to our implementation of accelerator programs focused on onboarding Patrons who own multiple storefronts and (ii) an increase in our home storefronts from 78,638 to 84,261 due to the continued expansion of our homes business in Europe. This was partially offset by a decrease in the number of listings storefronts from 78,492 to 74,051 due to geopolitical developments in Europe that weakened Customer demand and resulted in reduced listings by Patrons.

#### *GBV per storefront per month*

GBV per storefront per month for hotels is calculated by dividing GBV for hotel storefronts (excluding amounts payable by Customers to us for the sale of wedding packages under our Weddingz business and the rental of co-working spaces under our Workspaces business) for the relevant year/period, as applicable, by the average number of hotel storefronts (a) at the end of each quarter (for Fiscals 2023, 2024 and 2025) and (b) at the end of the quarters ended March 31, 2025, June 30, 2025, September 30, 2025 and December 31, 2025 (for the nine month period ended December 31, 2025).

GBV per storefront per month for company-serviced hotel storefronts in India is calculated by dividing GBV from company-serviced hotel storefronts in India for the relevant year/period, as applicable, by the average number of company-serviced hotel storefronts in India (a) at the end of each quarter (for Fiscals 2023, 2024 and 2025) and (b) at the end of the quarters ended March 31, 2025, June 30, 2025, September 30, 2025 and December 31, 2025 (for the nine month period ended December 31, 2025).

GBV per storefront per month for homes is calculated by dividing GBV for home storefronts for the relevant year/period, as applicable, by the average number of home storefronts (a) at the end of each quarter (for Fiscals 2023, 2024 and 2025) and (b) at the end of the quarters ended March 31, 2025, June 30, 2025, September 30, 2025 and December 31, 2025 (for the nine month period ended December 31, 2025).

Our GBV per storefront per month is set forth in the table below for the periods/years indicated.

| <b>GBV per storefront per month (Homes)</b>                               | 35,092.49                              | 37,548.86    | 38,126.81    | 37,526.69     |

Our GBV per storefront per month for our hotels business and homes business was ₹885,588.72 and ₹35,092.49, respectively, for the nine months ended December 31, 2025.

Our GBV per storefront per month for our hotels business increased from ₹327,209.57 in Fiscal 2024 to ₹440,430.64 in Fiscal 2025 as a result of the stabilization in demand and occupancy of company-serviced storefronts added in prior periods and the relatively higher GBV per storefront per month in North America pursuant to our consolidation of G6 Hospitality. Our GBV per storefront per month for our homes business decreased from ₹38,126.81 in Fiscal 2024 to ₹37,548.86 in Fiscal 2025 due to GBV growth being outpaced by the significant increase in the number of home storefronts from 84,261 as at March 31, 2024 to 119,849 as at March 31, 2025, which typically requires a period of time for demand and occupancy to ramp up.

Our GBV per storefront per month for our hotels business decreased from ₹406,625.57 in Fiscal 2023 to ₹327,209.57 in Fiscal 2024, primarily due to GBV growth being outpaced by the significant increase in new hotel storefronts, which typically requires a period of time for demand and occupancy to ramp up. Our GBV per storefront per month for our homes business remained largely consistent from ₹37,526.69 in Fiscal 2023 to ₹38,126.81 in Fiscal 2024. This stable trend is reflective of a maturing base and seasoning of home storefronts, especially as our home storefronts segment scales in size.

### *GBV*

GBV from hotel storefronts is defined as (a) in relation to our PRISM brands (other than our G6 Hospitality brands), the amounts payable by Customers for storefront bookings, net of cancellation and gross of discounts (such as loyalty points and discounts), through all of our distribution channels including our mobile applications, websites, call centers, third party OTAs and other offline channels; (b) amounts payable by Customers to us for the sale of wedding packages under our Weddingz business and the rental of co-working spaces under our Workspaces business; and (c) in relation to our G6 Hospitality brands, gross receipts (whether collected or uncollected) attributable to or payable for the rental of hotel storefronts under our G6 Hospitality brands.

GBV from homes is defined as the amounts payable by Customers for storefront bookings, net of cancellation and gross of discounts, through all of our distribution channels including our mobile applications, websites, call centers, third party OTAs and other offline channels. This also includes amounts payable by Customers to us for service revenue (primarily room cleaning fees and key handling charges) and insurance fees collected for damage and cancellation insurance.

GBV from listings is defined as the amount of subscription fees paid by Patrons from our listing business to us for listing their storefronts on our platform.

Revenue is recognized on a gross basis for hotel storefronts, on a net basis for home storefronts and on a monthly accrual basis for subscription income, which is typically payable on an annual basis, for our listings business.

Our GBV is set forth in the table below for the periods/years indicated.

Note:

<sup>(1)</sup> Comprises GBV from hotel storefronts, home storefronts and listings storefronts.

Our GBV was ₹229,462.45 million for the nine months ended December 31, 2025.

Our GBV increased by 53.76% from ₹105,872.35 million in Fiscal 2024 to ₹162,787.75 million in Fiscal 2025, primarily due to an increase in the number of company-serviced storefronts, our acquisition of G6 Hospitality and as a result of the stabilization in demand and occupancy of company-serviced storefronts added in prior periods.

Our GBV increased by 4.04% from ₹101,756.76 million in Fiscal 2023 to ₹105,872.35 million in Fiscal 2024 due to an increase in the number of hotel storefronts, which typically require a period of time for demand and occupancy to ramp up.

### *Subscription fees per storefront*

Our subscription fees from each storefront from our listings business is based on a fixed fee that is typically payable annually by our Patrons. An increase in the annual subscription fee amount is a driver of increased GBV from our listings business.

### **Gross Profit**

Gross Profit represents our revenue from operations after deducting operating expenses.

### Share of demand from D2C channels

We generate demand on our platform through two channel types: (i) D2C channels, which comprise our mobile applications, websites, corporate and offline travel agent tie-ups, dedicated call centers and physical walk-ins, and (ii) indirect channels, such as third party OTAs. We generate a significant share of demand through our D2C channels. The following table sets out our proportion of direct demand (measured as a percentage of used room nights through our D2C channels) and (the share of used room nights generated by Repeat Customers (being Customers who generated more than one used room night through more than one separate booking during the period/year or who generated used room nights during the period/year and had generated used room nights prior to the period/year) on our mobile applications, websites and call centres during the relevant period, measured as a percentage of total used room nights on these channels for the period) for the period/years indicated:

|                          |                                        | 2025    | 2024  | 2023  |
| <b>Direct demand (%)</b> | 67.57                                  | 71.67   | 72.24 | 70.95 |
| <b>Repeat demand (%)</b> | 61.76                                  | 60.33   | 60.74 | 64.60 |

Our EBITDA (% of revenue from operations) is higher for storefronts booked by Customers through our online D2C channels, when compared with storefronts booked by Customers through indirect channels such as third party OTAs, as we are able to retain a higher percentage of revenue share where our contribution from online D2C channels is higher.

An increase in our share of direct demand is primarily driven by an increase in the number of storefronts on our platform, which provides our Customers with a wider variety of accommodations. In addition, our growing Customer loyalty and referral programs also drive significant organic and repeat demand for bookings through our D2C channels.

### Cost drivers

Our total expenses for the nine months ended December 31, 2025 and Fiscals 2025, 2024 and 2023 amounted to ₹69,366.44 million, ₹66,595.42 million, ₹57,257.82 million and ₹67,996.95 million, respectively. Our profitability depends on our ability to maintain a cost-effective platform, primarily driven by effective management of employee benefits expense and other expenses (which includes marketing and promotion expenses and general and administrative expenses). This is enabled by constant improvements in our Patron and Customer facing technology offerings, as well as through automation and digitization of various internal processes.

Our employee benefits expense decreased by 51.94% from ₹15,488.40 million in Fiscal 2023 to ₹7,443.82 million in Fiscal 2024, primarily driven by (a) a decrease in share based payment expense from ₹6,303.86 million in Fiscal 2023 to ₹1,806.43 million in Fiscal 2024 primarily due to a majority of outstanding options vesting in Fiscal 2023 (which resulted in increased share based payment expense in Fiscal 2023) and the grant of new options at higher exercise prices (resulting in a lower cost differential between the market price and the exercise price) in Fiscal 2024 and (b) a decrease in the number of employees from 3,056 as at March 31, 2023 to 2,714 as at March 31, 2024. Our general and administrative expenses were ₹4,412.49 million for the nine months ended December 31, 2025.

### Principal Components of Statement of Profit and Loss

#### Income

Our total income comprises revenue from operations and other income.

#### Revenue from operations

Our revenue from operations comprise revenue from the sale of accommodation services, commission and royalty on bookings of homes, providing franchise rights, brand sharing and listings, cancellation income, value-added services, sale of tours, packages and events including wedding related services, rental income, food and beverages, subscription income and other operational revenue.

Revenue from the sale of accommodation services depends on the number of storefronts on our platform and the GBV per storefront on our platform. We generate revenue from cancellation fees when Customers cancel storefront bookings, depending on the cancellation terms and policy applicable to the relevant booking.

Revenue from value added services represents additional revenue generated from sales of add-on services to our Patrons, including services that boost the visibility of their storefronts on our distribution channels and provide competitive insights through data analytics, with the aim of increasing the number of bookings on their storefronts.

Revenue from sale of tours, packages and events including wedding related services represents revenue earned from the sale of tours, packages and weddings events.

We receive rental income from leasing our managed workspaces to corporate and individual Customers, revenue from the sale of food and beverages at our storefronts and subscription income from paid subscribers of our OYO

Wizard loyalty program. We earn other operational revenue from Patrons and Customers primarily through insurance fees and cleaning services.

The following table shows a breakdown of our revenue from operations in the nine months ended December 31, 2025 and for Fiscals 2025, 2024 and 2023:

## Income tax

Income tax comprises current and deferred tax.

Current tax comprises the expected tax payable or receivable on the taxable income or loss for the year and any adjustment to the tax payable or receivable in respect of previous years. The amount of current tax reflects the best estimate of the tax amount expected to be paid or received after considering the uncertainty, if any, related to income taxes. It is measured using tax rates (and tax laws) enacted or substantively enacted by the reporting date.

Current tax assets and current tax liabilities are offset only if there is a legally enforceable right to set off the recognized amounts, and it is intended to realize the asset and settle the liability on a net basis or simultaneously.

Deferred tax is recognized in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the corresponding amounts used for taxation purposes. Deferred tax is also recognized in respect of carried forward tax losses and tax credits.

Our revenue from operations increased by 16.03% to ₹62,528.31 million in Fiscal 2025 from ₹53,887.89 million in Fiscal 2024, primarily due to an increase in our revenue from sale of accommodation services, commission from bookings and royalty income, value added services, rental income and other operational revenue.

Our revenue from sale of accommodation services increased by 11.14% to ₹38,248.20 million in Fiscal 2025 from ₹34,414.89 million in Fiscal 2024, primarily due to our accelerated expansion in our then existing markets such as India, Southeast Asia, the Middle East, Europe and the United States.

Our revenue from commission from bookings and royalty income increased by 16.21% to ₹15,620.27 million in Fiscal 2025 from ₹13,441.19 million in Fiscal 2024, primarily due to an increase in GBV from our homes business and an increase in the number of homes and listings storefronts.

Our revenue from cancellation income increased by 5.03% to ₹831.83 million in Fiscal 2025 from ₹792.02 million in Fiscal 2024, primarily due to an increase in the number of non-refundable hotel storefront bookings in line with an increase in the number of hotel storefront bookings.

Our revenue from value added services increased by 65.04% to ₹186.76 million in Fiscal 2025 from ₹113.16 million in Fiscal 2024, primarily due to increased purchases of value-added services by Patrons, which include services in the nature of marketing and data analytics and preferential performance listing which results in enhanced traffic to Patrons.

Our revenue from sale of tours, packages and events including wedding related services decreased by 51.80% to ₹425.60 million in Fiscal 2025 from ₹883.05 million in Fiscal 2024, primarily due to a decreased number of events supported by Government bodies.

Our revenue from rental income increased by 77.50% to ₹1,569.18 million in Fiscal 2025 from ₹884.05 million in Fiscal 2024, primarily due to an increase in number of sellable seats at co-working spaces under our Workspaces business.

Our revenue from food and beverages increased by 1,528.89% to ₹302.81 million in Fiscal 2025 from ₹18.59 million in Fiscal 2024, primarily due to an increase of the number of company-serviced hotel storefronts with F&B facilities, including under our Townhouse and Sunday brands.

Our revenue from subscription income decreased by 27.82% to ₹59.51 million in Fiscal 2025 from ₹82.45 million in Fiscal 2024, primarily due to discounted subscriptions for our OYO Wizard loyalty program to promote more traffic on our platform.

Our other operational revenue increased by 62.17% to ₹5,284.15 million in Fiscal 2025 from ₹3,258.49 million in Fiscal 2024, primarily due (i) an increase in cleaning and renovation services provided to Patrons on account of the acquisition of the Checkmyguest business in Fiscal 2025, (ii) stay support charges for home storefronts in additional regions of Europe, (iii) growth in revenue from customer support services, including flexible booking support and travel support services, and (iv) other services, including linen rentals and utility services.

#### *Other income*

Our other income decreased by 52.19% to ₹730.58 million in Fiscal 2025 from ₹1,527.96 million in Fiscal 2024, primarily due to a decrease in interest income on bank deposits carried at amortised cost, exchange difference and miscellaneous income.

Our total expenses increased by 16.31% to ₹66,595.42 million in Fiscal 2025 from ₹57,257.82 million in Fiscal 2024, primarily due to an increase in operating expenses, finance cost, depreciation and amortisation expenses and other expenses.

Our operating expenses increased by 8.46% to ₹31,295.47 million in Fiscal 2025 from ₹28,854.41 million in Fiscal 2024, primarily due to an increase in lease rentals resulting from the expansion of our company-operated hotel storefronts and co-working spaces businesses and an increase in other direct expenses driven by the overall growth in our business operations.

Our employee benefits expense decreased by 17.24% to ₹6,160.87 million in Fiscal 2025 from ₹7,443.82 million in Fiscal 2024 primarily due to a majority of outstanding options vesting in Fiscal 2024 (which resulted in increased share based payment expense in Fiscal 2024) and the grant of new options at higher exercise prices (resulting in a lower cost differential between the market price and the exercise price) in Fiscal 2025.

Our finance costs increased by 13.67% to ₹9,591.55 million in Fiscal 2025 from ₹8,438.18 million in Fiscal 2024, primarily due to accelerated amortization amounting to ₹1,017.85 million in Fiscal 2025 from accelerated amortization amounting to ₹653.95 million in Fiscal 2024 on repayment of our TLB loan and an increase in interest expenses on lease liabilities, arising from the application of Ind AS 116 on leases.

Our depreciation and amortization expense increased by 141.38% to ₹4,835.87 million in Fiscal 2025 from ₹2,003.46 million in Fiscal 2024, primarily due higher depreciation on right of use assets pursuant to the addition of company-serviced storefronts on leases.

Our other expenses increased by 39.87% to ₹14,711.66 million in Fiscal 2025 from ₹10,517.95 million in Fiscal 2024, primarily due to an increase in marketing and promotion expenses driven by higher spending on paid online advertising across search engines and social media platforms to enhance traffic to our platform, an increase in legal and professional fees, rent for office building and warehouse, office expenses and information technology expenses as a result of our acquisition of G6 Hospitality and Checkmyguest and an increase in allowance for expected credit loss in line with our policy for provisioning of aged receivables.

### ***Exceptional items***

Our exceptional items was ₹1,670.15 million in Fiscal 2025 primarily on account of a prepayment penalty incurred on the termination of our TLB loan facility and ₹(4,098.77) million in Fiscal 2024 primarily due to a fair value gain on our investment in a joint venture.

### ***Restated share of (loss)/profit of joint venture (net of tax)***

Our restated share of profit of joint venture (net of tax) was ₹113.52 million in in Fiscal 2025 as compared to ₹101.40 million in Fiscal 2024, primarily due to higher profit earned during the year by our joint venture engaged in the operation of hotels, partially offset by loss in other joint ventures.

### ***Income tax expense/(credit)***

Our income tax credit was ₹(7,341.38) million in Fiscal 2025 as compared to income tax expense of ₹62.41 million in Fiscal 2024, primarily due to the recognition of deferred tax assets on carry forward losses in Fiscal 2025, resulting in a net tax credit for the year.

### ***Restated profit/(loss) for the year***

As a result of the foregoing factors, our restated profit for the year increased by 6.64% to ₹2,448.22 million in Fiscal 2025 from ₹2,295.79 million in Fiscal 2024.

Our total expenses decreased by 15.79% to ₹57,257.82 million in Fiscal 2024 from ₹67,996.95 million in Fiscal 2023, primarily due to decreases in operating expenses and employee benefits expense.

Our operating expenses decreased by 8.03% to ₹28,854.41 million in Fiscal 2024 from ₹31,372.76 million in Fiscal 2023, primarily due to cost saving initiatives we implemented and improved take-rate terms with hotel owners which led to a reduction of rental payment.

Our employee benefits expense decreased by 51.94% to ₹7,443.82 million in Fiscal 2024 from ₹15,488.40 million in Fiscal 2023, primarily driven by (a) a decrease in share based payment expense from ₹6,303.86 million in Fiscal 2023 to ₹1,806.43 million in Fiscal 2024 primarily due to a majority of outstanding options vesting in Fiscal 2023 (which resulted in increased share based payment expense in Fiscal 2023) and the grant of new options at higher exercise prices (resulting in a lower cost differential between the market price and the exercise price) in Fiscal

2024; and (b) a decrease in the number of employees from 3,056 as at March 31, 2023 to 2,714 as at March 31, 2024.

Our finance costs increased by 23.80% to ₹8,438.18 million in Fiscal 2024 from ₹6,815.80 million in Fiscal 2023, primarily due to accelerated amortization of debt originating cost following partial repayment of our TLB loan and an increase in interest rate on our TLB loan.

Our depreciation and amortization expense decreased by 28.52% to ₹2,003.46 million in Fiscal 2024 from ₹2,802.85 million in Fiscal 2023, primarily due to an increase in the estimated useful life of our franchise agreements from 5 years to 7 to 9 years.

Our other expenses decreased by 8.68% to ₹10,517.95 million in Fiscal 2024 from ₹11,517.14 million in Fiscal 2023, primarily due to a decrease in office and warehouse rent and other offices expenses as a result of a reduction in office space, a decrease in customer support fees driven by increased automation of customer support functions and lower information technology expenses due to the centralization of technology services with certain vendors and discounted pricing for services from such vendors.

#### ***Exceptional items***

Our exceptional items was ₹(4,098.77) million in Fiscal 2024 as compared to ₹1,054.05 million in Fiscal 2023 primarily due to fair value gain on investment in joint venture and reversal of financial liability.

#### ***Restated share of (loss)/profit after tax in joint venture (net of tax)***

Our restated share of profit after tax in joint venture (net of tax) was ₹101.40 million in Fiscal 2024 as compared to ₹171.17 million in Fiscal 2023, primarily due to an increase in the losses incurred by one of our joint ventures engaged in the operation of hotels partially offset by profit in other joint venture.

#### ***Income tax expense/(credit)***

Our income tax expense was ₹62.41 million in Fiscal 2024 as compared to our income tax expense of ₹2.39 million in Fiscal 2023, primarily due to an increase in current tax expense and liability and a reduction in deferred tax credit.

#### ***Restated profit/(loss) for the year***

As a result of the foregoing factors, our restated profit for the year increased by 117.84% to ₹2,295.79 million in Fiscal 2024 from the restated loss of ₹12,865.18 million in Fiscal 2023.

Our EBIT as a percentage of total income decreased from 19.48% in Fiscal 2024 to 7.43% in Fiscal 2025 as a result of a decrease in EBIT due to an income tax credit of ₹7,341.38 million and an increase in finance costs. Our EBITDA as a percentage of total income was 29.68% for the nine months ended December 31, 2025.

## **Quantitative and Qualitative Disclosures about Market Risk**

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: interest rate risk, currency risk and other price risk, such as equity price risk. Financial instruments affected by market risk include borrowings, bank deposits, investments and derivative financial instruments.

### ***Interest Rate Risk***

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. Our exposure to the risk of change in market interest rates relates primarily to the Group's long-term debt obligations with floating interest rates. Our investments include both long-term and short-term investments, which do not expose us to significant interest rate risk. As at December 31, 2025, March 31, 2025, March 31, 2024 and March 31, 2023, we have borrowings at variable rates of interest.

### ***Currency Risk***

Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in exchange rates. Our exposure to the risk of changes in exchange rates relates primarily to our operating activities (when revenue or expense is denominated in a foreign currency), payables for capital expenditure denominated in foreign currency, foreign currency borrowings and our net investments in foreign subsidiaries. The exchange rate risk primarily arises from assets and liabilities denominated in currencies other than the functional currency of the respective entities and foreign currency forecasted revenue and cash flows. A significant portion of our revenue is in Indian Rupees, Chinese Yuan, Euro, Singapore Dollars, Japanese Yen, Malaysian Ringgit, United States Dollars and Great British Pounds. As we report our results in Indian Rupees, fluctuations in exchange rates with respect to Indian Rupees may have a potential impact on the statement of profit and loss and other comprehensive income and equity. We have not hedged any of our foreign currency exposure.

### ***Credit Risk***

Credit risk is the risk that counterparty will not meet its obligations under a financial instrument or Customer contract, leading to a financial loss. Customer credit risk is managed in accordance with the Group's established policy, procedures and controls relating to Customer credit risk management. Trade receivables are non-interest bearing and are generally on 30 to 60 days' credit terms. Outstanding customer receivables are regularly monitored. The Group follows a 'simplified approach' (i.e. based on lifetime expected credit losses ("ECL") for recognition of impairment loss allowance on trade receivables). A large number of minor receivables are grouped into homogeneous groups and assessed for impairment collectively. For the purpose of measuring lifetime ECL allowance for trade receivables, the Group estimates irrecoverable amounts based on the ageing of the receivable balances and historical experience. The Group, based on past trends, recognizes allowance for trade receivables remaining unpaid beyond 90 days (after adjusting subsequent collection) from due date. Further, allowance is also recognized for cases indicating any specific trail of credit loss within the ageing brackets mentioned above. Individual trade receivables are written off when management deems them not to be collectible.

No single customer or counterparty accounted for more than 10% of our account receivables as at December 31, 2025, March 31, 2025, March 31, 2024 or March 31, 2023, or revenue for the nine months ended December 31, 2025 and Fiscals 2025, 2024 and 2023. There is no significant concentration of credit risk. As at December 31, 2025, we had outstanding trade receivables of ₹6,898.19 million.

### ***Liquidity Risk***

Liquidity risk is defined as the risk that we will not be able to settle or meet our obligations on time or at a reasonable price. Our corporate treasury department is responsible for liquidity and funding as well as settlement management. In addition, processes and policies related to such risk are overseen by senior management. Management monitors our net liquidity position through rolling forecasts on the basis of expected cash flows. As at December 31, 2025, our cash and cash equivalents are held with major banks and other financial institutions.

## **Significant Economic Changes**

Other than as described in this Updated Draft Red Herring Prospectus-I, to the knowledge of our management, there are no other significant economic changes that materially affected or are likely to affect income from continuing operations.

## **Unusual or Infrequent Events of Transactions**

Except as described in this Updated Draft Red Herring Prospectus-I, there have been no other events or transactions that, to our knowledge, may be described as “unusual” or “infrequent”.

## **Known Trends or Uncertainties**

Our business has been affected and we expect will continue to be affected by the trends identified above in the heading titled “– *Principal Factors Affecting Our Financial Condition and Results of Operations*” and the uncertainties described in the section titled “*Risk Factors*” on pages 961 and 31, respectively. To our knowledge, except as described or anticipated in this Updated Draft Red Herring Prospectus-I, there are no known factors which have had or which we expect will have a material adverse impact on our sales, revenues or income from continuing operations.

## **Future Relationship Between Cost and Income**

Other than as described elsewhere in this Updated Draft Red Herring Prospectus-I, to the knowledge of our management, there are no known factors that might affect the future relationship between costs and revenues.

## **Seasonality**

In general, our business fluctuates with the seasons, reflecting the underlying seasonal trends of our Patrons over the course of a calendar year. The seasonality for our business varies by segment and geography. Our Customers include both business and leisure travelers. Business travelers are less affected by seasonality and storefronts booked by business travelers tend to be stable throughout the year across all markets in which we operate, while demand from tourists tends to fluctuate by season. Our business is subject to seasonal fluctuations in demand, with business at some storefronts subject to greater fluctuations depending on location.

The degree of seasonality in our hotel business varies by market. In India, we experience a higher number of booked nights in the first quarter (namely May and June) and third quarter (namely November and December) of the year than in the second and fourth quarters, which aligns with the peak travel season during the summer and winter holidays and wedding seasons. Similarly, the Middle East and the Southeast Asian markets of Indonesia and Malaysia also experience peak demand from May to September, in line with the Eid festival, and from November to December during winter vacations. During the monsoon season, we tend to experience lower customer traffic.

On the other hand, our hotels in Europe and the United States experience a higher number of booked nights in the second and fourth quarters of the fiscal year, during the summer months. Demand during the third and fourth quarters tend to spike around the Christmas and New Year holidays. Our European homes business, which primarily caters to demand from Europe, sees higher demand during the summer months of July and August and lower demand in March and November. However, in our homes business, we recognize revenue at the time of booking, and therefore, the booking window also has a significant impact on the degree of seasonal fluctuations in our reported revenue.

## **Significant Developments after December 31, 2025 that may affect our future results of operations**

Except as stated in this Updated Draft Red Herring Prospectus-I (including in the sections titled “*History and Certain Corporate Matters*” and “*Capital Structure*” beginning on pages 473 and 151, respectively), to our knowledge, no circumstances have arisen since the date of the Restated Consolidated Financial Information as disclosed in this Updated Draft Red Herring Prospectus-I which materially and adversely affected or are likely to affect our operations or profitability, or the value of our assets or our ability to pay our liabilities within the next 12 months.

## **Critical Accounting Policies**

### ***Revenue recognition***

We primarily earn revenue from our operations. Our revenue from our operations comprises revenue from the sale of accommodation services from hotel storefronts, commission from bookings of homes and listing storefronts, cancellation income, value-added services, sale of tours, packages and events including wedding related services, rental income, food and beverages, subscription income (comprising subscription fees paid by subscribers of our OYO Wizard loyalty program) and other operational revenue.

Revenue is recognized upon transfer of control of promised products or services to Customers in an amount that reflects the consideration that we expect to receive in exchange for those products or services.

The variable consideration is estimated at contract inception and not recognized until it is highly probable that a significant revenue reversal in the amount of cumulative revenue recognized will not occur.

Judgment is required in determining whether the Group is the principal or agent in transactions with Patrons and Customers. The Group evaluates the presentation of revenue on a gross or net basis based on whether it controls the service provided to the end Customer and is the principal (i.e., “gross”), or the Group arranges for other parties to provide the service to the end Customer and is an agent (i.e., “net”).

The Group collects indirect taxes on behalf of the government and, therefore, it is not an economic benefit flowing to the Company. Hence, it is excluded from revenue. Channel partners or Patrons deposit applicable GST on accommodation services and the Group deposits applicable GST on the “service fee” collected from Patrons for provision of said services.

Payments made by end users to channel partners or Patrons are subject to tax deduction by such end users under the relevant provisions of the Income Tax Act. The Group deducts applicable tax on gross room revenue in accordance with Income Tax Act.

#### *Revenue from sale of accommodation services*

The Group earns revenue from sales of accommodation services, which consists of revenue from bookings of hotel storefronts.

Revenue from sale of accommodation services is recognized on a gross basis as the Group gains control of stay services before providing them to Customers. The Group considers itself as the principal, as it assumes obligations towards performance of stay services to Customers, including the acceptability of the services, takes a significant amount of risk in the service delivery of the room stays and enjoys complete latitude in establishing prices for stay services. Revenue from sale of accommodation services is recognized on the basis of used room nights by Customers, on an accrual basis to the extent that it is probable that the economic benefit will flow to the Group and can be reliably measured.

Revenue is recognized net of cancellations, refunds, discounts, incentives and taxes payable by the Group.

Cancellation of income related to sale of accommodation services is recognized on cancellation of bookings by Customers.

#### *Revenue from sale of food & beverages*

Revenue from sale of food items is recognised on gross basis as the Group consider itself as the principal in the arrangement as it assumes obligations towards supplying food items to Customers. Revenue from food services are recognised after the supply of food items to Customers.

#### *Revenue from value added services*

Value-added services include services in the nature of marketing and data analytics and preferential performance listing which results in enhanced traffic to Patrons. It is recognized on the basis of actual performance to the extent that it is probable that the economic benefit will flow to the Group and it can be reliably measured.

#### *Revenue from commission from booking*

Revenue in the form of commission from booking of homes and hotels is recognized on a net basis, as the Group does not gain control over services in homes and listings before such services are provided to Customers. The Group acts as an agent, and earns commission income, from the sale of storefront bookings of homes and listings. Commission income (net of cancellations) is recognized on completion of storefront bookings by Customers, on accrual basis to the extent that it is probable that the economic benefit will flow to the Group and it can be reliably measured. In these arrangements, the Group does not recognize the gross amount as revenue but only the fee consideration it expects to be entitled to.

Revenue is recognized net of cancellations, refunds, discounts, incentives and taxes payable by the Group.

### *Subscription income*

The Group provides OYO Wizard membership programs under which participating Customers are eligible to earn discounts on qualifying transactions in future bookings. Revenue earned under OYO Wizard membership programs is recorded systematically over the period of membership. Invoicing in excess of revenues are classified as contract liabilities (which we refer to as deferred revenue).

### *Sale of tours, packages and events (including wedding related services)*

Income from tours, packages and events are accounted on net basis where the Group is not the primary obligor nor assuming inventory risk for performance of services and has no pricing latitude and is hence acting as an agent. In cases where the Group is the primary obligor and assuming inventory risk, has complete pricing latitude and is acting as a principal in the arrangements, income is booked on gross basis.

In cases where the Group acts as an agent, it recognizes revenue (commission) (net of cancellation) on booking of packages and events. In case where the Group acts as principal, it recognizes revenue on completion of tours, packages or event as it assumes services promised as a single performance obligation.

### *Rental income*

Rental income from leased properties (such as managed workspaces and long stay services) and allied services (being services rendered to Customers as part of leasing managed workspaces) is recognized on a gross basis as the Group gains control before renting such spaces and providing such services to Customers. The Group consider itself as the principal in such arrangements as it assumes obligations towards the performance of services for Customers, takes a significant amount of risk in the service delivery of such spaces to Customers due to committed rental and investments in improvements to such leased properties and has complete latitude in establishing price for stay services and renting of office spaces. Revenue from rental income is recognized over time on an accrual basis, to the extent that it is probable that the economic benefit will flow to the Group and can be reliably measured.

### *Other operational revenue*

The Group offers, together with its other products, property damage, cleaning and travel insurance for home storefronts. These insurances are sold on behalf of a large insurance company. As the Group acts in the capacity of an agent rather than as the principal in a transaction, the revenue recognized is the net amount of commission received by the Group in respect of the transaction at the time of booking when revenue is recognized. The revenue from the transaction is recognized in the restated consolidated statement of profit and loss account when the performance obligation has been satisfied.

### ***Goodwill***

Goodwill is initially measured at cost, being the excess of the aggregate of the consideration transferred and the amount recognized for non-controlling interests, and any previous interest held, over the net identifiable assets acquired and liabilities assumed. If the fair value of the net assets acquired is in excess of the aggregate consideration transferred, the Group re-assesses whether it has correctly identified all of the assets acquired and all of the liabilities assumed and reviews the procedures used to measure the amounts to be recognized at the acquisition date. If the reassessment still results in an excess of the fair value of net assets acquired over the aggregate consideration transferred, then the gain is recognized in other comprehensive income and accumulated in equity as capital reserve. However, if there is no clear evidence of bargain purchase, the entity recognizes the gain directly in equity as capital reserve, without routing the same through other comprehensive income.

After initial recognition, goodwill is measured at cost less any accumulated impairment losses. For the purpose of impairment testing, goodwill acquired in a business combination is, from the acquisition date, allocated to each of the Group's cash-generating units that are expected to benefit from the combination, irrespective of whether other assets or liabilities of the acquiree are assigned to those units.

A cash generating unit (the smallest identifiable group of assets that generates cash inflows that are largely independent of the cash inflows from other assets or groups of assets) to which goodwill has been allocated is tested for impairment annually, or more frequently when there is an indication that the unit may be impaired. If the recoverable amount of the cash generating unit is less than its carrying amount, the impairment loss is allocated first to reduce the carrying amount of any goodwill allocated to the unit and then to the other assets of the unit pro rata based on the carrying amount of each asset in the unit. Any impairment loss for goodwill is recognized in our

restated consolidated statement of profit and loss. An impairment loss recognized for goodwill is not reversed in subsequent periods.

Where goodwill has been allocated to a cash-generating unit and part of the operation within that unit is disposed of, the goodwill associated with the disposed operation is included in the carrying amount of the operation when determining the gain or loss on disposal. Goodwill disposed in these circumstances is measured based on the relative values of the disposed operation and the portion of the cash-generating unit retained.

If the initial accounting for a business combination is incomplete by the end of the reporting period in which the combination occurs, the Group reports provisional amounts for the items for which the accounting is incomplete. Those provisional amounts are adjusted through goodwill during the measurement period, or additional assets or liabilities are recognized, to reflect new information obtained about facts and circumstances that existed at the acquisition date that, if known, would have affected the amounts recognized at that date. These adjustments are called as measurement period adjustments. The measurement period does not exceed one year from the acquisition date.

### ***Depreciation***

Depreciation on plant, property and equipment is calculated on straight-line basis using the useful lives prescribed under Schedule II to the Companies Act, 2013.

| Asset                            | Useful life (as per Companies Act, 2013)                               | Useful life (based on technical evaluation) |
|----------------------------------|------------------------------------------------------------------------|---------------------------------------------|
| Building                         | 10 years                                                               | 3 years                                     |
| Computers and computer equipment | 3 to 6 years                                                           | 3 years                                     |
| Equipment                        | 5 years to 15 years                                                    | 3 years                                     |
| Board and signage                | 2 years                                                                | 1.5 years to 5 years                        |
| Furniture and fittings           | 8 years to 10 years                                                    | 5 years to 10 years                         |
| Vehicles                         | 8 years                                                                | 5 years or indefinite                       |
| Leasehold improvements           | Over the unexpired period of lease or useful lives, whichever is lower | 3 years                                     |

Our management has estimated the useful lives and residual values of all the property, plant and equipment and adopted useful lives based on management's technical assessment of their respective economic useful lives. Depreciation method, useful lives and residual values are reviewed at each financial period-end and adjusted prospectively if appropriate.

### ***Intangible assets***

#### ***Recognition and measurement***

Intangible assets are initially measured at cost. Such intangible assets are subsequently measured at cost less accumulated amortization and any accumulated impairment losses.

Intangible assets are derecognized upon disposal or when no future economic benefits are expected from its use or disposal. Gains or losses arising from derecognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the statement of profit or loss when the asset is derecognized.

#### ***Amortization***

Intangible assets are amortized on a straight-line basis using the useful lives which are as follows:

| Asset                         | Useful life (based on technical evaluation) |
|-------------------------------|---------------------------------------------|
| Trademarks                    | 3 years                                     |
| Non-compete agreements        | 3 years                                     |
| Internally generated software | 3 years                                     |
| Software                      | 1.5 years to 5 years                        |
| Franchise Agreements          | 5 years to 10 years                         |
| Brands                        | 5 years or indefinite                       |
| Websites                      | 3 years                                     |

Amortisation method, useful lives and residual values are reviewed at the end of each financial year and adjusted if appropriate. Intangible assets with indefinite useful lives are not amortised, but are tested for impairment annually, either individually or at the cash-generating unit level. The assessment of indefinite life is reviewed annually to determine whether the indefinite life continues to be supportable. If not, the change in useful life from indefinite to finite is made on a prospective basis.

Effective April 1, 2023, the Group reviewed the estimated useful life of our franchise agreements and revised the useful life from 5 years to 7 to 9 years in certain entities prospectively.

## ***Employee benefits***

### ***Short-term employee benefits***

All employee benefits payable wholly within twelve months of rendering the service are classified as short term employee benefits and they are recognized in the period in which the employee renders the related service. The Group recognizes the undiscounted amount of short term employee benefits expected to be paid in exchange for services rendered as a liability (accrued expense) after deducting any amount already paid.

### ***Employee stock options***

Our employees (including senior executives) and board members of the Group receive remuneration in the form of share-based payments, whereby employees render services as consideration for equity instruments (equity-settled transactions).

### ***Equity-settled transactions***

The cost of equity-settled transactions is determined by the fair value at the date when the grant is made using an appropriate valuation model.

That cost is recognized, together with a corresponding increase in share-based payment reserves in equity, over the period in which the performance and/or service conditions are fulfilled in employee benefits expense. The cumulative expense recognized for equity-settled transactions at each reporting date until the vesting date reflects the extent to which the vesting period has expired and the Group's best estimate of the number of equity instruments that will ultimately vest. Our restated consolidated statement of profit and loss expense or credit for a period represents the movement in cumulative expense recognized as at the beginning and end of that period and is recognized in employee benefits expense.

Service and non-market performance conditions are not taken into account when determining the grant date fair value of awards, but the likelihood of the conditions being met is assessed as part of the Group's best estimate of the number of equity instruments that will ultimately vest. Market performance conditions are reflected within the grant date fair value. Any other conditions attached to an award, but without an associated service requirement, are considered to be non-vesting conditions. Non-vesting conditions are reflected in the fair value of an award and lead to an immediate expensing of an award unless there are also service and/or performance conditions.

No expense is recognized for awards that do not ultimately vest because non-market performance and/or service conditions have not been met. Where awards include a market or non-vesting condition, the transactions are treated as vested irrespective of whether the market or non-vesting condition is satisfied, provided that all other performance and/or service conditions are satisfied.

When the terms of an equity-settled award are modified, the minimum expense recognized is the expense had the terms had not been modified, if the original terms of the award are met. An additional expense is recognized for any modification that increases the total fair value of the share-based payment transaction or is otherwise beneficial to the employee as measured at the date of modification.

Where an award is cancelled by the entity or by the counterparty, any remaining element of the fair value of the award is expensed immediately through our restated consolidated statement of profit and loss. The dilutive effect of outstanding options is reflected as additional share dilution in the computation of diluted earnings per share.

### **Cash-settled transactions**

The cost of cash-settled transactions is measured initially at fair value at the grant date using a binomial model. This fair value is expensed over the period until the vesting date with recognition of a corresponding liability. The

liability is re-measured to fair value at each reporting date up to, and including the settlement date, with changes in fair value recognised in employee benefits expense.

### ***Leases (as a lessee)***

#### *Identifying a lease*

At the inception of the contract, the Group assesses whether a contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. We assess whether:

- The contract involves the use of an identified asset, specified explicitly or implicitly.
- The Group has the right to obtain substantially all the economic benefits from use of the asset throughout the period of use, and
- The Group has right to direct the use of the asset.

The Group recognizes lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

#### *Initial recognition of right of use asset*

The Group recognizes a right of use asset at the lease commencement date (i.e., the date the underlying asset is available for use). Right of use assets are initially measured at cost less any accumulated depreciation and accumulated impairment losses and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognized, adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or site on which it is located, less any lease incentives received.

#### *Subsequent measurement of right of use asset*

Right of use assets are subsequently depreciated using the straight-line method from the commencement date to the earlier of the end of the useful life of the right of use asset or the end of the lease term. If ownership of the leased asset transfers to the Group at the end of the lease term or the cost reflects the exercise of a purchase option, depreciation is calculated using the estimated useful life of the asset. In addition, the right of use asset is periodically reduced by impairment losses, if any, and adjusted for certain re-measurement of the lease liability.

#### *Initial recognition of lease liability*

Lease liabilities are initially measured at the present value of the lease payments to be paid over the lock in period of lease term. The lease payments include fixed payments (including in substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Group and payments of penalties for terminating the lease, if the lease term reflects the Group exercising the option to terminate. Variable lease payments that do not depend on an index or a rate are recognized as expenses (unless they are incurred to produce inventories) in the period in which the event or condition that triggers the payment occurs. In calculating the present value of lease payments, the Group uses its incremental borrowing rate at the lease commencement date because the interest rate implicit in the lease is not readily determinable.

#### *Subsequent measurement of lease liability*

Lease liabilities are subsequently increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is re-measured if there is a modification, a change in the lease term, a change in the lease payments (e.g., changes to future payments resulting from a change in an index or rate used to determine such lease payments) or a change in the assessment of an option to purchase the underlying asset.

#### *Short-term leases and leases of low-value assets*

The Group applies the short-term lease recognition exemption to its short-term leases (i.e., those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). It also applies the lease of low-value assets recognition exemption to leases of office equipment that are considered to be low value. Lease payments on short-term leases and leases of low-value assets are recognized as expense on a straight-line basis over the lease term.

### ***Leases (as a lessor)***

Amounts due from lessees under finance leases are recognized as receivables at the amount of the Group's net investment in the leases. Finance lease income is allocated to accounting period so as to reflect a constant periodic rate of return on the net investment outstanding in respect of the lease.

Rental income from operating lease is recognized on a straight line basis over the lease term unless payments to the Group are structured to increase in line with expected general inflation to compensate for the Group's expected inflationary cost increase; such increases are recognized in the year in which such benefits accrue. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognized on a straight line basis over the lease term. Contingent rents are recognized as income in the period in which they are earned.

### ***Income tax***

Income tax comprises current and deferred tax. It is recognised in restated consolidated summary statement of profit and loss except to the extent that it relates to a business combination or to an item recognised directly in equity or in other comprehensive income.

#### ***Current tax***

Current tax comprises the expected tax payable or receivable on the taxable income or loss for the year and any adjustment to the tax payable or receivable in respect of previous years. The amount of current tax reflects the best estimate of the tax amount expected to be paid or received after considering the uncertainty, if any, related to income taxes. It is measured using tax rates (and tax laws) enacted or substantively enacted by the reporting date.

Current tax assets and current tax liabilities are offset only if there is a legally enforceable right to set off the recognised amounts, and it is intended to realise the asset and settle the liability on a net basis or simultaneously.

Current tax relating to items recognized outside our restated consolidated statements of profit and loss is recognised outside our restated consolidated statements of profit and loss in correlation to the underlying transaction either in other comprehensive income or directly in equity.

#### ***Deferred tax***

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the corresponding amounts used for taxation purposes. Deferred tax is also recognised in respect of carried forward tax losses and tax credits. Deferred tax is not recognized for:

- temporary differences arising on the initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable our restated consolidated statements of profit or loss at the time of the transaction;
- temporary differences related to investments in subsidiaries, associates and joint arrangements to the extent that the Group is able to control the timing of the reversal of the temporary differences and it is probable that they will not reverse in the foreseeable future; and
- taxable temporary differences arising on the initial recognition of goodwill.

Deferred tax assets are recognized to the extent that it is probable that future taxable profits will be available against which they can be used. The existence of unused tax losses is strong evidence that future taxable profit may not be available. Therefore, in case of a history of recent losses, the Group recognises a deferred tax asset only to the extent that it has sufficient taxable temporary differences or there is convincing other evidence that sufficient taxable profit will be available against which such deferred tax asset can be realised against which the deductible temporary differences, carry forward of unabsorbed depreciation and unused tax losses can be utilized. Deferred tax assets are recognized to the extent it is probable that taxable profit will be available in next three

years or taxable profits earned in the immediately preceding two years against which the deductible temporary differences, carry forward of unabsorbed depreciation and unused tax losses can be utilized.

Deferred tax assets, unrecognized or recognized, are reviewed at each reporting date and are recognized or reduced to the extent that it is probable or no longer probable respectively that the related tax benefit will be realised.

Deferred tax is measured at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled, based on the laws that have been enacted or substantively enacted by the reporting date.

The measurement of deferred tax reflects the tax consequences that would follow from the manner in which the Group expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax relating to items recognised outside our restated consolidated statements of profit and loss is recognised outside our restated consolidated statements of profit and loss in correlation to the underlying transaction either in other comprehensive income or directly in equity.

Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same tax authority on the same taxable entity, or on different tax entities, but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be realised simultaneously.

### ***Borrowing cost***

Borrowing cost includes interest, amortization of ancillary costs incurred in connection with the arrangement of borrowings and exchange differences arising from foreign currency borrowings to the extent they are regarded as an adjustment to the interest cost.

Interest expense is recorded using the effective interest rate. When calculating the effective interest rate, the Group estimates the expected cash flows by considering all the contractual terms of the financial instrument (for example, prepayment, extension) but does not consider the expected credit losses.

Borrowing costs directly attributable to the acquisition or construction of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized as part of the cost of the respective asset. All other borrowing costs are expensed in the year they occur.

The Petitioners filed an application under Section 482 (the “**Section 482 Application**”) of the CrPC before the High Court of Punjab and Haryana at Chandigarh, India (the “**Chandigarh High Court**”) for quashing the FIR. filed and the matters are pending at different stages of adjudication before various courts.

(c) *Actions and proceedings initiated by statutory/regulatory authorities against our Company*

1. Based on information filed by the Federation of Hotel and Restaurants Association of India (the “**FHRAI**”) dated April 5, 2019, against MakeMyTrip India Private Limited and Ibibo Group Private Limited (together, “**MMT-Go**”) and our Company, the Competition Commission of India (the “**CCI**”) directed an investigation pursuant to its order dated October 28, 2019, to determine, *inter alia*, whether the agreement between MMT-Go and our Company was anti-competitive in nature, and contravened section 3(4) of the Competition Act, 2002 (the “**Competition Act**”). Casa2Stays Private Limited (“**FabHotels**”) filed an application with the CCI alleging abuse by MMT-Go of its dominant market power and extending preferential treatment to our Company by delisting FabHotels properties from MMT-Go portals after entering into a partnership with our Company, resulting in foreclosing competition by limiting the ability of other hotel chains to access the platform of MMT-Go in India, and seeking to be impleaded in the case, which was granted by the CCI pursuant to its order dated February 5, 2020. Subsequently, RubTub Solutions Private Limited (“**Treebo**”) filed information before the CCI, raising similar allegations against MMT-Go and our Company, as were raised by FHRAI. In view of the similarity of facts and allegations, the CCI, pursuant to its order dated February 24, 2020, directed that the investigation initiated pursuant to information filed by FHRAI be carried out together with the investigation to be carried out pursuant to the information filed by Treebo.

In the interim, the Joint Director General, CCI (the “**DG**”) issued a notice dated January 19, 2021 (the “**DG Notice**”) under sections 41(2) and 36(2) of the Competition Act directing our Company, *inter alia*, to furnish information and documents relating to our Company, including annual data of our financials, names of our competitors and agreements executed by our Company with MMT-Go. Our Company filed responses dated January 27, 2021, and February 12, 2021 to the DG Notice providing the information and documents sought by the DG. Pursuant to directions from the CCI, the DG carried out a detailed investigation and filed a non-confidential version of its investigation report (the “**DG Report**”) on September 24, 2021, which was shared by the CCI with directions to parties to file suggestions or objections to the DG Report. After consideration of, *inter alia*, oral and written submissions of the parties, and the DG Report, the CCI imposed a penalty of ₹1,688.80 million on our Company, and ₹2,234.80 million on MMT-Go, by way of its order dated October 19, 2022 (the “**CCI Order**”). The CCI Order, *inter alia*, held that: (i) the arrangement between MMT-Go and our Company, which led to the delisting of FabHotels, Treebo and independent hotels, was anti-competitive within the meaning of section 3(4)(d) and section 3(1) of the Competition Act; (ii) such delisting led to creation of an artificial advantage for our Company and our Patrons; and (iii) there was mutually beneficial reciprocal arrangement between MMT-Go and our Company to foreclose markets for their respective competitors. Further, vide the CCI Order, CCI directed MMT-Go to, *inter alia*, modify its agreements with hotels / chain hotels. While the CCI Order did not issue any directions to our Company to modify its agreements, a monetary penalty was imposed on our Company. Our Company subsequently filed an appeal dated November 15, 2022 (the “**Appeal**”) against the CCI Order before the National Company Law Appellate Tribunal, New Delhi, India (the “**NCLAT**”) praying, *inter alia*, that: (i) the CCI Order be set aside; (ii) the penalties imposed on our Company be withdrawn, (iii) without prejudice to (ii), if such penalties are not withdrawn then only token penalties should be imposed, and (iv) the agreement between our Company and MMT-Go be declared as not being in contravention of section 3(4) of the Competition Act.

The reliefs sought in the Appeal are on the grounds, *inter alia*, that: (i) the CCI Order was unsustainable on merits as any arrangement between our Company and MMT-Go cannot be said to have effected any foreclosing of competitors; (ii) the CCI Order failed to consider the requirements set out in judicial precedents, including failure to define the relevant market in assessing conduct under section 3(4) of the Competition Act; (iii) the CCI Order imposed penalties on our Company without considering the relevant turnover for the purposes of calculation of the penalty; and (iv) the agreement between our Company and MMT-Go did not cause any appreciable adverse effect on competition and therefore was not in contravention of section 3(4) of the Competition Act. Pursuant to its order dated November 22, 2022, the NCLAT admitted the Appeal subject to deposit of 10% of the penalty amount (the “**Deposit Amount**”) by our Company within six weeks, which was duly complied with. The matter is currently pending.

2. The Regional Provident Fund Commissioner – I, Gurugram (East), Employees’ Provident Fund Organisation (the “**EPFO**”) had issued a notice dated January 14, 2020 (the “**Notice**”) under section 7A of the Employees’ Provident Fund and Miscellaneous Provisions Act, 1952 (the “**EPFO Act**”) to our Company directing representatives of our Company, including our Individual Promoter, to appear before the EPFO. The Notice alleged that our Company did not deposit provident fund dues amounting to ₹16.44 million on special allowances paid to the employees of our Company. Our Company has responded to the Notice submitting that provident fund dues for the applicable period were duly deposited by our Company along with other applicable contributions and charges. Our Company’s representative has also appeared for hearings before the EPFO. Subsequently, the EPFO passed an order dated September 11, 2023 determining alleged provident fund dues of ₹33.56 million from July 2014 to November 2019, mainly on the basis that ‘special allowance’ should be included in basic wages, and issued a recovery order dated November 13, 2023 to our Company’s bank to recover the assessed amount. Basis appeal filed by our Company on November 16, 2023 before the Central Government Industrial Tribunal cum Employees Provident Fund Appellate Tribunal, Delhi, India (“**CGIT**”) against the aforementioned orders passed by EPFO, the CGIT pursuant to its interim order dated December 1, 2023 stayed the orders passed by EPFO, lifted the bank account attachment, and reduced the required pre-deposit to 10% of the assessed amount. The appeal is being heard, and interim protection remains in place. Our Company filed a rejoinder dated March 11, 2024 before the CGIT contesting the EPFO orders on multiple grounds, including lack of particulars, denial of adequate opportunity, and misapplication of legal principles concerning wage components. The matter is currently pending.

(d) *Material civil litigation against our Company*

1. On November 26, 2015, our Company had signed a non-binding term sheet (the “**NBTS**”) with Zostel Hospitality Private Limited (“**Zostel**”) and certain other parties for the potential acquisition of, *inter alia*, Zostel’s business by our Company, which did not materialize, as Zostel contended that while it had fully complied with all obligations outlined in the NBTS, our Company did not take the requisite steps to finalize the acquisition process. Subsequently, Zostel filed an arbitration petition before the Supreme Court of India (the “**Supreme Court**”) for appointment of an arbitrator pursuant to the arbitration clause in the NBTS. Pursuant to an order dated September 19, 2018, the Supreme Court appointed Justice A.M. Ahmadi (Retd.) as the sole arbitrator for the dispute (the “**Sole Arbitrator**”). Thereafter, Zostel, along with certain others (together, the “**Claimants**”) filed a statement of claim praying for several reliefs from the Sole Arbitrator, which included, among others, payment of USD 1.00 million along with applicable interest to the Claimants by our Company, specific performance of the NBTS by our Company by transferring or issuing seven per cent of our Company’s shareholding as on the date of the prayer, in favor of the Claimants or payment of an amount equivalent to seven percent of the value of our Company as per the latest round of funding received by our Company as on the date of the prayer. Our Company filed a statement of defence disputing the claims in entirety and contended, among other things, that: (i) the NBTS was non-binding and was merely exploratory in nature; (ii) no definitive documents were executed; (iii) several commercial aspects of the transaction were not finalized; (iv) no part of Zostel’s business was transferred to our Company; and (v) that the relief of specific performance for a determinable contract could not be granted. The Sole Arbitrator passed an award dated March 6, 2021 (the “**Award**”) holding, *inter alia*, that the NBTS was binding in nature as our Company and Zostel created a binding and enforceable contract by conduct. The Award further held that the definitive agreements as contemplated under the NBTS (the “**Definitive Agreements**”) were essential for the proposed transaction but there was no consensus amongst the parties on the Definitive Agreements. The Award also held that the Claimants were entitled to initiate appropriate proceedings for specific performance and execution of the Definitive Agreements.

Our Company received a notice dated April 5, 2021 (the “**Notice**”) from Zostel, seeking enforcement of the Award, to which our Company responded to the Notice on April 23, 2021 (the “**Notice Response**”) stating that the Award was not yet enforceable as our Company had filed a petition challenging the Award under section 34 of the Arbitration and Conciliation Act, 1996 (the “**Arbitration Act**”) dated April 11, 2021 (the “**Appeal**”) for setting aside the Award. The Appeal was filed before the High Court of Delhi at New Delhi, India (“**Delhi High Court**”) on the grounds, *inter alia*, that the Award was passed by the Sole Arbitrator without jurisdiction as the dispute was beyond the scope of the arbitration clause of the NBTS. Thereafter, Zostel filed an execution petition

dated July 19, 2021 (the “**Execution Petition**”) before the Delhi High Court seeking enforcement of Award. The Execution Petition was opposed by our Company and our Subsidiary, OHHPL.

Zostel filed a petition dated August 16, 2021 (the “**Application**”) before the Delhi High Court under section 9 of the Arbitration Act seeking interim reliefs, to *inter alia*, restrain our Company from (i) altering our Company’s shareholding pattern including by way of the initial public offering proposed earlier in 2021; and (ii) altering our Company’s shareholding in our Subsidiary, OHHPL. Our Company and OHHPL filed replies before the Delhi High Court seeking, *inter alia*, dismissal of the Application. Pursuant to an order dated February 14, 2022 (the “**Section 9 Order**”), the Delhi High Court dismissed the Application holding that no case was made out for granting injunction in relation to the initial public offering proposed earlier in 2021 by our Company. Zostel, subsequently, filed an appeal under section 37(1)(b) of the Arbitration Act praying, *inter alia*, that the Section 9 Order be set aside. The Delhi High Court, by way of its order dated March 14, 2022 (the “**Division Bench Order**”), directed that if the Appeal is dismissed and the Execution Petition is allowed, then Zostel will either be issued up to seven per cent of the shareholding of our Company or be paid the monetary value of such shareholding. The Division Bench Order further observed that, *inter alia*: (i) the parties will be at the liberty to file appropriate proceedings in accordance with law if they are aggrieved by the final orders of the Delhi High Court in the Appeal and the Execution Petition; and (ii) Zostel would neither publicise or communicate the Division Bench Order to any statutory authority. Subsequently, the Delhi High Court passed an order dated May 13, 2025 (“**Final Order**”) setting aside the Award on the grounds that the Award was in conflict with the public policy of India and held that the Claimants were not entitled to specific performance and execution of the Definitive Agreements in the absence of a complete agreement between the parties in contravention of the basic tenets of Indian law of contract and specific performance. Further, the Delhi High Court pursuant to the Final Order dismissed the Execution Petition filed by the Claimants.

Thereafter, Zostel filed a special leave petition before the Supreme Court of India challenging the Final Order. Subsequently, Zostel withdrew the special leave petition on July 29, 2025 and the Supreme Court held that Zostel may approach the appropriate forums for remedy available under the law. On July 31, 2025, Zostel has filed an appeal under section 37 of the Arbitration Act (“**Section 37 Appeal**”) and an application under section 13 of the Commercial Courts Act, 2015 before the Delhi High Court, against our Company and OHHPL, seeking to set aside the Final Order and uphold the Award. The application under section 13 of the Commercial Courts Act, 2015 was withdrawn by Zostel. Separately, in relation to the Section 37 Appeal, Zostel filed an application under Order I Rule 10 read with Section 151 of the Code of Civil Procedure, 1908 before the Delhi High Court seeking deletion of OHHPL from the array of parties in the Section 37 Appeal. The Delhi High Court, vide its order dated March 23, 2026, allowed the said application and directed that the amended memo of parties be taken on record. Accordingly, OHHPL stands deleted from the said proceedings. The Section 37 Appeal is currently pending.

Our Company has filed an appeal before the first appellate authority in the respective states, challenging the Impugned Order. The matter is currently pending.

#### ***OYO Hotels Inc. (“OYO Hotels”)***

1. This matter stems from a marketing, consulting and revenue management agreement dated May 21, 2020 (“**MCRMA**”) executed between OYO Hotels and a hotel property owner, 1960 JK Group, LLC (“**Hotel Owner**”). Jane Doe, individually and as next friend of A.W., a minor child (the “**Plaintiff**”), filed a suit against OYO Hotels and the Hotel Owner in the District Court of Harris County, Texas (the “**District Court**”) alleging negligence and public nuisance in relation to illegal human trafficking that occurred at a property in Houston, Texas. Plaintiff seek monetary relief of over ₹8,164.00 million. OYO Hotels has denied that it was involved in any day-to-day management or operation of the underlying hotel property where the incidents alleged in the Plaintiff’s complaint occurred. Further, section 6 of the MCRMA provides that the Hotel Owner shall indemnify, defend and hold harmless OYO Hotels for any negligence, misconduct and other tortious conduct of the Hotel Owner. Accordingly, OYO Hotels has tendered the lawsuit to the Hotel Owner by its letter of tender dated December 27, 2022, and the Hotel Owner has accepted the tender of the lawsuit by OYO Hotels and appointed a counsel through its insurance company to defend the property owner in the matter and has filed a reply before the court. #### ***G6 Hospitality Franchising, LLC***

1. Our subsidiary, G6 Hospitality Franchising, LLC (“**Franchisor**”), enters into franchise agreements with hotel owners (“**Franchisees**”), pursuant to which the Franchisor licenses its brand and provides certain services in return for various fees. As is common in the U.S. hospitality industry, the Franchisor is periodically named in general liability lawsuits arising in the normal course of business, including personal-injury matters such as slip-and-fall incidents, assault, battery, bed-bug claims, and human-trafficking-related actions. These claims relate to incidents occurring at properties operated and controlled exclusively by Franchisees. Plaintiffs typically allege negligence; however, the Franchisor denies any involvement in the day-to-day operations or management of such third-party-owned and managed Franchisee properties. Under the franchise agreements, Franchisees are required to indemnify, defend, and hold the Franchisor harmless from claims relating to their operations, to maintain general liability insurance, and to name the

Franchisor as an additional insured. The franchisor tenders such claims to the relevant Franchisee and its insurer, and some insurers have accepted coverage and indemnification, while some matters remain pending and certain number have been denied. The Franchisor (or its parent) also maintains its own general liability insurance, subject to applicable deductibles, which provides additional protection for defense costs and covered claims. We evaluate our exposure in these matters on an ongoing basis. While these types of proceedings arise in the ordinary course of the franchising business and most are not expected to have a material adverse effect, the outcome of litigation is inherently uncertain, and an adverse judgment or settlement in one or more such cases could, depending on the circumstances, have an impact on the Franchisor or on our consolidated financial position or results of operations.

Under the terms of the LoE, Rochefort was engaged to provide consultancy services in relation to the proposed acquisition of K&J Consulting SAS. Oyo Netherlands contested the proceedings on the grounds of alleged deficiency in services, lack of supporting evidence for the services rendered, and the purported lack of jurisdiction of the summary judge to adjudicate a claim of a technical nature requiring expert assessment and evidentiary evaluation. By an order dated October 31, 2025, the summary judge dismissed the defenses raised by Oyo Netherlands, holding that no prior dispute had been raised regarding the services before issuance of the invoice. Consequently, the Tribunal directed Oyo Netherlands to pay Rochefort a sum of €2,150,000 (exclusive of taxes), along with late payment interest. The Court further awarded Rochefort an amount of €15,000 as compensation under Article 700 of the French Code of Civil Procedure. #### ***OYO Vacation Homes Holding B.V. ('OVH')***

1. In 2018, Belvilla Services B.V., a subsidiary of OYO Vacation Homes Holding B.V. ('OVH'), transferred a part of its VRMC tour operating business from the Netherlands to Switzerland. Under this restructuring, Belvilla AG (BVAG) acquired the relevant assets and liabilities, while Belvilla Services B.V. transitioned into a full-fledged service provider to BVAG. The transfer was executed at a consideration of €1, along with a contingent payment right, the present value of which was computed at €14.1 million based on the group's business valuation. However, the Dutch Tax Authority ('DTA') rejected this valuation, contending that the transaction was unbusinesslike and lacked economic substance. Instead, the DTA indicated to consider value base by deriving reference to the €369.5 million acquisition price at which OYO Hospitality Netherlands B.V. in 2019 acquired the shares of OVH which also included the value of Belvilla services B.V. In its latest communication, the DTA has sought information interalia relating to the confidentiality agreement entered into with the sellers, as well as certain details of the borrowing arrangements in relation to Belvilla services B.V. OVH is engaging with the DTA and is in the process of submitting the information requested in the recent correspondence for reconsideration of their position. ## Mechanism for Redressal of Investor Grievances

The Registrar Agreement provides for the retention of records with the Registrar to the Issue for a period of at least eight years from the date of listing and commencement of trading of the Equity Shares on the Stock Exchanges, to enable the investors to approach the Registrar to the Issue for redressal of their grievances. The Registrar to the Issue shall obtain the required information from the Self Certified Syndicate Banks (“SCSBs”) for addressing any clarifications or grievances of application supported by blocked amount (“ASBA”) Bidders.

**Bidders can contact the Company Secretary and Compliance Officer and/or the Registrar to the Issue in case of any pre- Issue or post- Issue related problems such as non-receipt of letters of Allotment, non-credit of Allotted Equity Shares in the respective beneficiary account, non-receipt of refund orders or non-receipt of funds by electronic mode, etc. For all Issue related queries and for redressal of complaints, Bidders may also write to the BRLMs, in the manner provided below. Our Company, the BRLMs and the Registrar to the Issue accept no responsibility for errors, omissions, commission or any acts of SCSBs including any defaults in complying with its obligations under the applicable provisions of the SEBI ICDR Regulations.**

All Issue -related grievances, other than of Anchor Investors, may be addressed to the Registrar to the Issue with a copy to the relevant Designated Intermediary to whom the Bid cum Application Form was submitted. The Bidder should give full details such as name of the sole or first Bidder, Bid cum Application Form number, Bidder DP ID, Client ID, UPI ID, PAN, date of the submission of Bid cum Application Form, address of the Bidder, number of the Equity Shares applied for, ASBA Account number in which the amount equivalent to the Bid Amount was blocked or the UPI ID (for UPI Bidders who make the payment of Bid Amount through the UPI Mechanism), and the name and address of the Designated Intermediary where the Bid cum Application Form was submitted by the Bidder.

All Issue -related grievances of the Anchor Investors may be addressed to the Registrar to the Issue, giving full details such as the name of the sole or first bidder, Anchor Investor Application Form number, Bidders’ DP ID, Client ID, PAN, date of the Anchor Investor Application Form, address of the Bidder, number of the Equity Shares applied for, Bid Amount paid on submission of the Anchor Investor Application Form and the name and address of the BRLMs where the Anchor Investor Application Form was submitted by the Anchor Investor.

Further, Bidders shall also enclose a copy of the Acknowledgment Slip or specify the application number duly received from the Designated Intermediaries in addition to the documents/information mentioned hereinabove.

The Registrar to the Issue shall obtain the required information from the SCSBs for addressing any clarifications or grievances of ASBA Bidders. For Issue-related grievances, investors may contact the BRLMs, whose contact details are disclosed in “**General Information – Book Running Lead Managers**” on page 141.

In case of any delay in unblocking of amounts in the ASBA Accounts exceeding two Working Days from the Bid/Issue Closing Date, the Bidder shall be compensated at a uniform rate of ₹100 per day for the entire duration of delay exceeding two Working Days from the Bid/Issue Closing Date by the intermediary responsible for causing such delay in unblocking. The BRLMs, in their sole discretion, identify and fix the liability on such intermediary or entity responsible for such delay in unblocking.

Pursuant to the SEBI ICDR Master Circular, SEBI has identified the need to put in place measures, in order to manage and handle investor issues arising out of the UPI Mechanism *inter alia* in relation to delay in receipt of mandates by Bidders for blocking of funds due to systemic issues faced by Designated Intermediaries/SCSBs and failure to unblock funds in cases of partial allotment/non allotment within prescribed timelines and procedures.

In terms of SEBI ICDR Master Circular and the SEBI RTA Master Circular issued by the SEBI and subject to Applicable Laws, any ASBA Bidder whose Bid has not been considered for Allotment, due to failure on the part of any SCSB, shall have the option to seek redressal of the same by the concerned SCSB within three months of the date of listing of the Equity Shares. SCSBs are required to resolve these complaints within 15 days, failing which the concerned SCSB would have to pay interest at the rate of 15% per annum for any delay beyond this period of 15 days. Further, in terms of SEBI ICDR Master Circular, the payment of processing fees to the SCSBs shall be undertaken pursuant to an application made by the SCSBs to the BRLMs, and such application shall be made only after (i) unblocking of application amounts for each application received by the SCSB has been fully completed, and (ii) applicable compensation relating to investor complaints has been paid by the SCSB.

Separately, pursuant to the SEBI ICDR Master Circular, the following compensation mechanism shall be applicable for investor grievances in relation to Bids made through the UPI Mechanism, for public issues opening on or after May 1, 2021, for which the relevant SCSBs shall be liable to compensate the investor:

### **Phased implementation of Unified Payments Interface**

SEBI has issued the UPI Circulars in relation to streamlining the process of public issue of *inter alia* Equity Shares and convertibles by introducing an alternate payment mechanism using UPI. Pursuant to the relevant UPI Circulars, the UPI Mechanism has been introduced in a phased manner as a payment mechanism (in addition to mechanism of blocking funds in the account maintained with SCSBs under ASBA) for applications by UPI Bidder through Designated Intermediaries with the objective to reduce the time duration from public issue closure to listing from six Working Days to up to three Working Days. Considering the time required for making necessary changes to the systems and to ensure complete and smooth transition to the UPI payment mechanism, the UPI Circulars have introduced and implemented the UPI Mechanism in three phases in the following manner:

**Phase I:** This phase was applicable from January 1, 2019 until March 31, 2019 or floating of five main board public issues, whichever was later. Subsequently, the timeline for implementation of Phase I was extended until June 30, 2019. Under this phase, an RIB had the option to submit the ASBA Form with any of the Designated Intermediary and use his/her UPI ID for the purpose of blocking of funds. The time duration from public issue closure to listing continued to be six Working Days.

**Phase II:** This phase became applicable from July 1, 2019 and was to initially continue for a period of three months or floating of five main board public issues, whichever is later. SEBI pursuant to its circular no. SEBI/HO/CFD/DCR2/CIR/P/2019/133 dated November 8, 2019, had decided to extend the timeline for implementation of UPI Phase II until March 31, 2020. Subsequently, SEBI pursuant to its circular no. SEBI/HO/CFD/DIL2/CIR/P/2020/50 dated March 30, 2020 extended the timeline for implementation of UPI Phase II till further notice. Under this phase, submission of the ASBA Form by RIBs through Designated Intermediaries (other than SCSBs) to SCSBs for blocking of funds was discontinued and replaced by the UPI Mechanism. However, the time duration from public issue closure to listing continued to be six Working Days during this phase.

**Phase III:** This phase has become applicable on a voluntary basis for all issues opening on or after September 1, 2023 and on a mandatory basis for all issues opening on or after December 1, 2023, vide SEBI circular bearing number SEBI/HO/CFD/TPD1/CIR/P/2023/140 dated August 9, 2023 ("**T+3 Notification**"). In this phase, the time duration from public issue closure to listing has been reduced to three Working Days. The Issue shall be undertaken pursuant to the processes and procedures as notified in the T+3 Notification as applicable, subject to any circulars, clarification or notification issued by SEBI from time to time, including any circular, clarification or notification which may be issued by SEBI.

The processing fees for applications made by UPI Bidders using the UPI Mechanism may be released to the SCSBs only after such banks provide a written confirmation, in compliance with the SEBI RTA Master Circular in a format as prescribed by SEBI, from time to time, and such payment of processing fees to the SCSBs shall be made in compliance with circulars prescribed by SEBI and applicable law.

All SCSBs offering the facility of making application in public issues shall also provide facility to make application using UPI. Our Company will be required to appoint the Sponsor Bank(s) to act as a conduit between the Stock Exchanges and National Payments Corporation of India ("**NPCI**") in order to facilitate collection of requests and/or payment instructions of the UPI Bidders.

NPCI through its circular (NPCI/UPI/OC No. 127/ 2021-22) dated December 9, 2021, inter alia, has enhanced the per transaction limit from ₹ 200,000 to ₹ 500,000 for applications using UPI in initial public offerings.

Pursuant to the UPI Circulars, SEBI has set out specific requirements for redressal of investor grievances for applications that have been made through the UPI Mechanism. The requirements of the UPI Circular include, appointment of a nodal officer by the SCSB and submission of their details to SEBI, the requirement for SCSBs to send short message service (“SMS”) alerts for the blocking and unblocking of UPI mandates, the requirement for the Registrar to submit details of cancelled, withdrawn or deleted applications, and the requirement for the bank accounts of unsuccessful Bidders to be unblocked no later than one Working Day from the date on which the Basis of Allotment is finalised. Failure to unblock the accounts within the timeline would result in the SCSBs being penalised under the relevant securities law. Additionally, if there is any delay in the redressal of investors’ complaints, the relevant SCSB as well as the post- Issue BRLM will be required to compensate the concerned investor.

For further details, refer to the General Information Document available on the websites of the Stock Exchanges and the BRLMs.

Further, in terms of the FEMA Non-Debt Instruments Rules, the total holding by each FPI, of an investor group, shall be below 10% of the total paid-up Equity Share capital of our Company on a fully diluted basis and the aggregate limit for FPI investments shall be the sectoral caps applicable to our Company, which is 100% of the total paid-up Equity Share capital of our Company on a fully diluted basis. In case the total holding of an FPI or investor group increases beyond 10% of the total paid-up Equity Share capital of our Company, on a fully diluted basis, the total investment made by the FPI or investor group will be re-classified as FDI subject to the conditions as specified by SEBI and the RBI in this regard and our Company and the investor will be required to comply with applicable reporting requirements. Further, the total holdings of all FPIs put together, with effect from April 1, 2020, can be up to the sectoral cap applicable to the sector in which our Company operates (i.e., up to 100%). In terms of the FEMA Rules, for calculating the aggregate holding of FPIs in a company, holding of all registered FPIs shall be included. Bids by FPIs which utilise the multi-investment manager structure, submitted with the same PAN but with different beneficiary account numbers, Client IDs and DP IDs may not be treated as multiple Bids.

In case of Bids made by FPIs, a certified copy of the certificate of registration issued under the SEBI FPI Regulations is required to be attached to the Bid cum Application Form, failing which our Company, in consultation with the BRLMs reserves the right to reject any Bid without assigning any reason, subject to applicable laws.

FPIs are permitted to participate in the Issue subject to compliance with conditions and restrictions which may be specified by the Government from time to time. In terms of the FEMA Non-Debt Instruments Rules, for calculating the aggregate holding of FPIs in a company, holding of all registered FPIs shall be included.

To ensure compliance with the above requirement, SEBI, pursuant to its circular dated July 13, 2018, has directed that at the time of finalisation of the Basis of Allotment, the Registrar shall (i) use the PAN issued by the Income Tax Department of India for checking compliance for a single FPI; and (ii) obtain validation from Depositories for the FPIs who have invested in the Issue to ensure there is no breach of the investment limit, within the timelines for issue procedure, as prescribed by SEBI from time to time.

Subject to compliance with all applicable Indian laws, rules, regulations, guidelines and approvals in terms of Regulation 22 of the SEBI FPI Regulations, an FPI, may issue, subscribe to or otherwise deal in offshore derivative instruments (as defined under the SEBI FPI Regulations as any instrument, by whatever name called, which is issued overseas by a FPI against securities held by it in India, as its underlying) directly or indirectly, only in the event (i) such offshore derivative instruments are issued only by persons registered as Category I FPIs; (ii) such offshore derivative instruments are issued only to persons eligible for registration as Category I FPIs; (iii) such offshore derivative instruments are issued after compliance with 'know your client' norms; and (iv) such other conditions as may be specified by SEBI from time to time.

In case the total holding of an FPI increases beyond 10% of the total paid-up Equity Share capital, on a fully diluted basis or 10% or more of the paid-up value of any series of debentures or preference shares or share warrants issued that may be issued by our Company, the total investment made by the FPI will be re-classified as FDI subject to the conditions as specified by SEBI and the RBI in this regard and our Company and the investor will be required to comply with applicable reporting requirements.

An FPI issuing offshore derivative instruments is also required to ensure that any transfer of offshore derivative instruments issued by, or on behalf of it subject to, inter alia, the following conditions:

- such offshore derivative instruments are transferred to persons subject to fulfilment of SEBI FPI Regulations; and
- prior consent of the FPI is obtained for such transfer, except when the persons to whom the offshore derivative instruments are to be transferred are pre-approved by the FPI.

The FPIs who wish to participate in the Issue are advised to use the Bid cum Application Form for non-residents.

Bids received from FPIs bearing the same PAN shall be treated as multiple Bids and are liable to be rejected, except for Bids from FPIs that utilize the multiple investment manager (“**MIM**”) structure in accordance with the operational guidelines for FPIs and designated Depository Participants issued to facilitate implementation of SEBI FPI Regulations (such structure referred to as “**MIM Structure**”), provided such Bids have been made with different beneficiary account numbers, Client IDs and DP IDs.

Accordingly, it should be noted that multiple Bids received from FPIs, who do not utilize the MIM Structure, and bear the same PAN, are liable to be rejected. In order to ensure valid Bids, FPIs making multiple Bids using the same PAN, and with different beneficiary account numbers, Client IDs and DP IDs, are required to provide a confirmation in the Bid cum Application Forms that the relevant FPIs making multiple Bids utilize the MIM Structure. In the absence of such confirmation from the relevant FPIs, such multiple Bids shall be rejected.

Further, in the following cases, Bids by FPIs shall not be treated as multiple Bids:

- FPIs which utilise the MIM Structure, indicating the name of their respective investment managers in such confirmation;
- Offshore derivative instruments (“**ODI**”) which have obtained separate FPI registration for ODI and proprietary derivative investments;
- Sub funds or separate class of investors with segregated portfolio who obtain separate FPI registration;
- FPI registrations granted at investment strategy level/sub fund level where a collective investment scheme or fund has multiple investment strategies/sub-funds with identifiable differences and managed by a single investment manager;
- Multiple branches in different jurisdictions of foreign bank registered as FPIs;
- Government and Government related investors registered as Category 1 FPIs; and
- Entities registered as collective investment scheme having multiple share classes.

The Bids belonging to any of the abovementioned seven structures and having same PAN may be collated and identified as a single Bid in the Bidding process. ## RESTRICTIONS ON FOREIGN OWNERSHIP OF INDIAN SECURITIES

Foreign investment in Indian securities is regulated through the Industrial Policy, 1991 of the Government of India and FEMA. While the Industrial Policy, 1991 prescribes the limits and the conditions subject to which foreign investment can be made in different sectors of the Indian economy, FEMA regulates the precise manner in which such investment may be made. Foreign investment is permitted (except in the prohibited sectors) in Indian companies, either through the automatic route or the approval route, depending upon the sector in which foreign investment is sought to be made. The Government of India makes policy announcements on FDI through press notes and press releases. The regulatory framework, over a period of time, thus, consists of acts, regulations, press notes, press releases, and clarifications among other amendments. The DPIIT (formerly Department of Industrial Policy & Promotion) issued the Consolidated FDI Policy Circular dated October 15, 2020, with effect from October 15, 2020 (the “**FDI Circular**”), which consolidates and supersedes all previous press note, press releases and clarifications on FDI issued by the DPIIT that were in force and effect prior to October 15, 2020.

In terms of Press Note 3 of 2020, dated April 17, 2020 (“**Press Note**”), issued by the DPIIT, the FDI Circular and the FEMA (Non-debt Instruments) Rules has been amended to state that all investments under the foreign direct investment route by entities of a country which shares land border with India or where the beneficial owner of an investment into India is situated in or is a citizen of any such country will require prior approval of the Government of India. On March 10, 2026, the Union Cabinet approved amendments to the Press Note framework introducing the revised policy and incorporating a formal definition and criteria for determining beneficial owner, aligned with the provisions of the Prevention of Money Laundering Rules, 2005, with the beneficial ownership test applied at the level of the non-land-bordering-country investor entity. Further, permitting investment proposals where entities from land-bordering countries hold non-controlling beneficial ownership of up to 10% through the automatic route, subject to applicable sectoral caps and compliance requirements. Subsequently, in accordance with Press Note No. 2 (2026 Series), dated March 15, 2026 issued by the DPIIT, the FDI Policy has been further amended to, inter alia, define the expression “beneficial owner” and to provide that prior approval of the Government of India shall be required only where citizen(s) and/or entity(ies) of a country sharing a land border with India hold, directly or indirectly, individually or cumulatively, more than 10% of the shares, capital or profits of the investor entity, or exercise control over such investor entity, or exercise ultimate effective control over the investee entity. The amendments under Press Note. 2 (2026 Series) came into effect from May 2, 2026, i.e., the date of notification of the corresponding amendments to the FEMA Non-debt Instruments Rules.

Further, in the event of transfer of ownership of any existing or future foreign direct investment in an entity in India, directly or indirectly, resulting in the beneficial ownership falling within the aforesaid restriction/ purview, such subsequent change in the beneficial ownership will also require approval of the Government of India. Pursuant to the Foreign Exchange Management (Non-debt Instruments) (Fourth Amendment) Rules, 2020, a multilateral bank or fund, of which India is a member, shall not be treated as an entity of a particular country nor shall any country be treated as the beneficial owner of the investments of such bank or fund in India. Each Bidder should seek independent legal advice about its ability to participate in the Issue. In the event such prior approval of the Government of India is required, and such approval has been obtained, the Bidder shall intimate our Company and the Registrar to the Issue in writing about such approval along with a copy thereof within the Issue Period.

Transfer of shares between an Indian resident and a non-resident does not require the prior approval of the RBI, provided that (i) the activities of the investee company are under the automatic route under the FDI Circular and transfer does not attract the provisions of the SEBI Takeover Regulations; (ii) the non-resident shareholding is within the sectoral limits under the FDI Circular; and (iii) the pricing is in accordance with the guidelines prescribed by the SEBI/RBI.

For details of the aggregate limit for investments by NRIs and FPIs in our Company, see “**Issue Procedure – Bids by Eligible NRIs**” and “**Issue Procedure – Bids by FPIs**” on pages 1069 and 1071, respectively.

The above information is given for the benefit of the Bidders. Bidders are advised to make their independent investigations and ensure that the number of Equity Shares Bid for do not exceed the applicable limits under laws or regulations.

As per the existing policy of the Government of India, OCBs cannot participate in this Issue.

**The Equity Shares offered in the Issue have not been and will not be registered under the U.S. Securities Act or any state securities laws in the United States, and unless so registered, may not be offered or sold within the United States, except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the U.S. Securities Act and in accordance with any applicable U.S. state**

securities laws. Accordingly, the Equity Shares are being offered and sold outside the United States in 'offshore transactions' as defined in and in reliance on Regulation S under the U.S. Securities Act and the applicable laws of the jurisdictions where such offers and sales are made.
